

## Yadea R6 Steam

# Yadea R6 Steam Carpet Cleaner User Manual

Model: R6 Steam | Brand: Yadea

## 1. INTRODUCTION

---

The Yadea R6 Steam Carpet Cleaner, also known as a rinse cleaner, is a washing machine designed to effectively clean stains from various fabric products such as carpets, sofas, and car seats. Its operation is straightforward: simply spray water onto the soiled area and then suction the dirt along with the water. This allows for easy cleaning of fabric items that are difficult to machine wash, making it an ideal solution for common household messes like food spills or pet accidents. The Yadea R6 Steam is a top-tier model that significantly surpasses conventional designs, offering versatile cleaning with steam, hot water, and room temperature water modes, all easily switchable with a single button.

## 2. SAFETY INFORMATION

---

Please read all safety instructions carefully before using the appliance. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always ensure the power cord and plug are in good condition. Do not use if damaged.
- Do not immerse the appliance in water or other liquids.
- Use only clean water in the clean water tank. Do not add flammable or corrosive liquids.
- Exercise caution when using steam or hot water modes to avoid burns. Keep hands and face away from the nozzle during operation.
- Unplug the appliance from the power outlet before cleaning, performing maintenance, or when not in use.
- Keep the appliance out of reach of children and pets.
- Do not operate the appliance without water in the clean water tank.
- This product is designed for household use only. Do not use for commercial or industrial purposes.

## 3. PRODUCT OVERVIEW

---

### 3.1 Components

The Yadea R6 Steam Carpet Cleaner consists of the main unit, a clean water tank, a dirty water tank, a spray/suction nozzle, and a flexible hose.

Figure 1: Yadea R6 Steam Carpet Cleaner. This image displays the main unit of the cleaner, featuring the transparent clean water tank on the left and the dirty water tank on the right. The central control panel with power, mode, and water temperature buttons is clearly visible. The flexible hose is coiled at the base, and the spray/suction nozzle is attached to the dirty water tank.

### 3.2 Key Features

- **Advanced Heating System:** Equipped with Yadea HotGlow 3.0, generating 100°C high-temperature steam in just 25 seconds.
- **Powerful Suction:** Achieves an astonishing 18000Pa suction power (14000Pa in standard mode) to extract deep-seated dirt.
- **Versatile Water Temperature Modes:** Offers room temperature water, hot water (generated in 15-20 seconds), and steam modes, easily switchable.
- **Large Capacity Tanks:** Features an 1800ML clean water tank and a 950ML dirty water tank for extended cleaning sessions.
- **Wide Operating Range:** Includes a 5-meter power cord and a 1.7-meter hose for extensive reach.

- **Compact and Storable Design:** The power cord and hose can be fully stored within the main unit for convenient storage.
- **Intuitive Touch Panel:** Easy control through a responsive touch panel.
- **Water-Resistant:** IPX4 waterproof performance ensures durability and safety against splashes.

## 4. SETUP

---

1. **Unpack the Appliance:** Carefully remove all components from the packaging. Retain packaging for future storage or transport.
2. **Assemble Components:** Ensure the clean water tank, dirty water tank, and spray/suction nozzle are securely attached to the main unit. The hose should be connected to the appropriate port.
3. **Fill the Clean Water Tank:** Open the cap of the clean water tank (left side). Fill it with clean tap water. For hot water or steam modes, the appliance will heat the water internally. Do not exceed the 'MAX' fill line.
4. **Position the Dirty Water Tank:** Ensure the dirty water tank (right side) is empty and correctly seated in its compartment.
5. **Connect Power:** Plug the power cord into a suitable 100V AC power outlet.

## 5. OPERATING INSTRUCTIONS

---

1. **Power On:** Press the power button on the control panel to turn on the appliance.
2. **Select Water Temperature Mode:** Use the 'Mode' button on the control panel to cycle through the water temperature options: Room Temperature Water, Hot Water, or Steam. An indicator light will show the selected mode. Allow 15-20 seconds for hot water generation and approximately 25 seconds for steam generation.
3. **Pre-test (Optional but Recommended):** Before cleaning a large area, test the cleaner on an inconspicuous spot of the fabric to ensure colorfastness and prevent damage.
4. **Spray Solution:** Hold the spray/suction nozzle over the soiled area. Press the spray trigger on the nozzle to release water or steam onto the fabric. Move the nozzle slowly over the area.
5. **Suction Dirt:** Release the spray trigger and press the suction button on the nozzle. Slowly pull the nozzle across the sprayed area to suction up the dirty water. Repeat spraying and suctioning as needed until the stain is removed and the water being suctioned is clear.
6. **Empty Dirty Water Tank:** When the dirty water tank reaches the 'MAX' line, or after each cleaning session, turn off and unplug the appliance. Remove the dirty water tank and empty its contents into a drain. Rinse the tank with clean water.
7. **Refill Clean Water Tank:** If needed, refill the clean water tank as described in the Setup section.
8. **Power Off:** After cleaning, press the power button to turn off the appliance and unplug it from the power outlet.

### 5.1 Applicable Surfaces and Stain Types

This household cleaning machine is capable of washing most fabric products that cannot be fully immersed in water.

- **Applicable Range:** Futons, fabric sofas, fabric chairs, rugs, carpets, floor mats, curtains, car seats, fabric mattresses, stuffed animals, pet sheets, etc.
- **Types of Dirt that can be handled:** Dust/sweat stains accumulated over years on sofas and carpets, coffee/soy sauce/oil stains, children's food spills, pet vomit/accidents/paw prints, etc.

## 6. MAINTENANCE

---

Regular maintenance ensures optimal performance and extends the lifespan of your Yadea R6 Steam Carpet Cleaner.

- **Empty and Clean Tanks:** After each use, empty both the clean and dirty water tanks. Rinse them thoroughly with cold water to prevent residue buildup and odors.
- **Clean Nozzle and Hose:** Detach the spray/suction nozzle and rinse it under cold water. Check the hose for any blockages and clear them if necessary.
- **Wipe Down Exterior:** Use a soft, damp cloth to wipe the exterior of the main unit. Do not use abrasive cleaners or solvents.
- **Storage:** Ensure all tanks are empty and dry before storing the appliance. The power cord and hose can be fully stored within the main unit. Store in a cool, dry place away from direct sunlight.

## 7. TROUBLESHOOTING

---

If you encounter issues with your Yadea R6 Steam Carpet Cleaner, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No power	Appliance not plugged in; Power outlet not working; Power button not pressed.	Ensure the power cord is securely plugged into a working outlet. Press the power button firmly.
No spray	Clean water tank empty; Nozzle clogged; Spray trigger not pressed.	Refill the clean water tank. Clean the spray nozzle. Ensure the spray trigger is fully pressed.
No suction	Dirty water tank full; Hose or nozzle clogged; Suction button not pressed.	Empty the dirty water tank. Clear any blockages in the hose or nozzle. Ensure the suction button is pressed.
Water leakage	Tanks not properly seated; Tank caps not closed securely.	Ensure both clean and dirty water tanks are correctly installed and their caps are tightly closed.
Steam not hot enough	Not enough heating time; Incorrect mode selected.	Allow sufficient time (approx. 25 seconds) for steam generation. Ensure 'Steam' mode is selected.

If the problem persists after trying these solutions, please contact customer support.

## 8. SPECIFICATIONS

---

<b>Model Name</b>	R6 Steam
<b>Brand</b>	Yadea
<b>Manufacturer</b>	Haier robot technology (Qingdao) Co., Ltd
<b>Color</b>	Black
<b>Product Dimensions</b>	40.7 × 28.5 × 37.9 cm
<b>Package Dimensions</b>	41.3 × 40.6 × 29.1 cm

<b>Package Weight</b>	5.51 Kilograms
<b>Wattage</b>	500 W
<b>Voltage</b>	100 Volts (AC)
<b>Noise Level</b>	70 dB
<b>Clean Water Tank Capacity</b>	1800 ml
<b>Dirty Water Tank Capacity</b>	950 ml
<b>Power Source</b>	Corded Electric
<b>Water Resistance</b>	IPX4
<b>ASIN</b>	B0BV28W1BW
