2. SAFETY INFORMATION

Please read and understand all safety instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- **Anti-Tipping Kit:** An anti-tipping kit is included to prevent accidental tipping. It is crucial to install this kit securely to a wall stud or other appropriate structural element. This is especially important in households with children or pets.
- **Weight Capacity:** Do not exceed the maximum weight capacity for the dresser top (150 lbs) or individual drawers (35 lbs). Overloading can compromise stability and structural integrity.
- **Assembly:** Assemble the dresser on a soft, clean surface to prevent scratches. Ensure all hardware is tightened securely before use. Periodically check and re-tighten hardware as needed.
- **Placement:** Place the dresser on a level surface to ensure stability. Avoid placing it in areas with high humidity or direct sunlight, which can affect wood and rattan materials.

3. PACKAGE CONTENTS

Before beginning assembly, verify that all components and hardware are present. If any parts are missing or damaged, please contact customer support immediately.

- Dresser panels (top, bottom, sides, back)
- Drawer components (fronts with rattan, sides, backs, bottoms)
- Steel legs and support beams
- Drawer slides and hardware
- Handles and screws
- Anti-tipping kit
- Assembly instructions and tools (usually an Allen wrench and basic screws)

4. ASSEMBLY INSTRUCTIONS

Assembly is required for this product. Please follow the detailed step-by-step instructions provided in the separate assembly manual included in your package. It is recommended to have at least two people for

assembly, and a power drill (not included) may expedite the process.

1. **Unpack and Identify:** Carefully unpack all components and lay them out on a protected surface. Identify each part using the diagrams in the assembly manual.
2. **Assemble Frame:** Begin by assembling the main frame of the dresser according to the instructions. Ensure all connections are secure.
3. **Install Drawer Slides:** Attach the drawer slides to the dresser frame and to the drawer sides as specified.
4. **Assemble Drawers:** Construct each drawer, ensuring the rattan fronts are correctly oriented.
5. **Attach Legs:** Securely attach the steel legs to the bottom of the dresser.
6. **Insert Drawers:** Carefully insert the assembled drawers into their respective slots.
7. **Install Anti-Tipping Kit:** This is a critical safety step. Securely attach the anti-tipping device to the back of the dresser and to a wall stud.

For visual guidance, refer to any installation videos linked in the provided assembly manual or on the manufacturer's website.

5. OPERATING INSTRUCTIONS

The Yechen 6-Drawer Dresser is designed for easy and efficient storage.

- **Drawer Use:** The smooth metal slides allow for easy opening and closing of drawers. Pull handles gently to open and push firmly to close.
- **Storage:** Utilize the six spacious drawers for organizing clothes, linens, toys, or other household items. The rattan fronts provide ventilation and a distinct aesthetic.
- **Top Surface:** The thickened wooden top plate can accommodate decorative items, lamps, or even a television up to 150 lbs.

6. MAINTENANCE

Proper care will help maintain the appearance and functionality of your dresser.

- **Cleaning:** Wipe the dresser surfaces with a dry, soft cloth. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, which can damage the wood finish and rattan.
- **Rattan Care:** Natural rattan may exhibit slight variations in color, black spots, or minor ruptures due to its natural characteristics and weaving process. These are not defects. Gently dust the rattan with a soft brush or vacuum with a brush attachment.

- **Hardware:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten as necessary to maintain structural integrity.

Hand Woven Natural Rattan

Black Spots

Rupture

Glitch

The fiber characteristics of rattan will cause glitches and breaks on its surface.

Due to the limitation of the length of the rattan, splicing marks will inevitably appear during the weaving process.

The above are not quality problems, we will try to reduce these situations as much as possible.

If you mind, please place your order carefully, thank you for your understanding!
