IK Multimedia TONEX Pedal

IK Multimedia TONEX Pedal Instruction Manual

Model: TONEX Pedal

Brand: IK Multimedia

1. Introduction

The IK Multimedia TONEX Pedal is a stereo multi-effects guitar and bass pedal designed to bring ultra-realistic amp and pedal tones to your live performance or studio setup. Utilizing breakthrough AI Machine Modeling technology, it offers a vast library of authentic tone models, along with a comprehensive suite of built-in effects. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your TONEX Pedal.

2. Safety Information

- **Power Supply:** Use only the provided 9V DC power supply. Ensure the correct voltage and polarity to prevent damage.
- **Water and Moisture:** Do not expose the unit to water, rain, or excessive moisture. Avoid operating in damp environments.
- **Heat Sources:** Keep the unit away from heat sources such as radiators, heat registers, stoves, or other apparatus that produce heat.
- **Ventilation:** Ensure proper ventilation. Do not block any ventilation openings.
- **Cleaning:** Clean only with a dry cloth. Do not use liquid cleaners or aerosol cleaners.
- **Servicing:** Refer all servicing to qualified service personnel. Do not attempt to service this product yourself.

3. Package Contents

- IK Multimedia TONEX Pedal
- 9V DC Power Supply
- USB Cable
- Registration Card/Software Download Instructions

4. Product Overview

The TONEX Pedal features a robust anodized aluminum chassis designed for durability. Its intuitive layout provides quick access to essential controls and versatile connectivity options.

4.1. Front Panel Controls

Figure 1: TONEX Pedal Front Panel

This image displays the top view of the TONEX Pedal, highlighting its compact design and the arrangement of knobs, footswitches, and the digital display. Key controls such as 'Model/Select', 'Preset/Back', 'Parameter', 'Gain', 'Bass', 'Mid', 'Treble', and 'Volume' are visible, along with the three footswitches labeled A, B, and C.

- **MODEL / SELECT Knob:** Used to select tone models and navigate menus. Press and hold for Setup menu.
- **PRESET / BACK Knob:** Used to select presets and go back in menus. Press and hold to save presets.
- **PARAMETER Knob:** Adjusts various parameters. Press and hold for alternative parameters.
- **GAIN Knob:** Controls the input gain of the tone model.
- **BASS Knob:** Adjusts the low-frequency response.
- **MID Knob:** Adjusts the mid-frequency response.
- **TREBLE Knob:** Adjusts the high-frequency response.
- **VOLUME Knob:** Controls the overall output volume.
- **Footswitches A, B, C:** Select presets within a bank. Also used for bank up/down (A+B, B+C) and bypass.
- **Display:** Shows current preset, parameter values, and menu options.

4.2. Rear Panel Connections

Figure 2: TONEX Pedal Rear Panel Connections

This image shows the rear panel of the TONEX Pedal, detailing its various input and output connections. Visible ports include the instrument input, left and right outputs (mono), headphone output, MIDI In/Out, external control input, USB port, and the 9V DC power input. This panel facilitates integration into various audio setups, from live rigs to studio environments.

- **INPUT:** 1/4" mono input for your guitar or bass.
- **OUTPUT L/R (MONO):** 1/4" stereo outputs for connecting to a PA system, power amp, or audio interface. Use the L output for mono operation.
- **HEADPHONES:** 1/4" stereo output for silent practice.
- **MIDI IN/OUT:** 5-pin DIN connectors for MIDI control and integration with other MIDI devices.
- **EXT. CONTROL:** 1/4" input for an external expression pedal or footswitch.
- **USB:** USB-B port for connecting to a computer (PC/Mac) for software control, preset management, and using the pedal as an audio interface.
- **POWER 9V DC:** Input for the included 9V DC power supply.

5. Setup

5.1. Initial Connections

1. Connect your instrument to the **INPUT** jack on the rear panel.
2. Connect the **OUTPUT L** (and **R** for stereo) to your amplifier, PA system, or audio interface.
3. If desired, connect headphones to the **HEADPHONES** jack.
4. Connect the included 9V DC power supply to the **POWER 9V DC** input and plug it into a power outlet. The pedal will power on automatically.

5.2. Software Installation

To unlock the full potential of your TONEX Pedal, including access to ToneNET and advanced editing features, install the TONEX Editor software on your computer.

- Visit the IK Multimedia website and register your product using the provided registration card.
- Download and install the TONEX Editor software for your operating system (Windows 10 or later, macOS 10.15 or later).
- Connect the TONEX Pedal to your computer via the **USB** port. The pedal can function as a 24-bit/44.1 kHz USB audio interface for studio recording.
- Follow the on-screen instructions in the software to update firmware and manage your tone models and presets.

6. Operating Instructions

6.1. Navigating Presets

The TONEX Pedal comes preloaded with 150 gig-ready presets, organized into 50 banks of three presets each.

- **Selecting Presets:** Rotate the **PRESET** / **BACK** knob to quickly scroll through and audition available presets.
- **Using Footswitches:** Tap footswitches **A**, **B**, or **C** to load different presets within the current bank.
- **Changing Banks:** Simultaneously press footswitches **A** and **B** to move down a bank, or **B** and **C** to move up a bank.
- **Bypass Tone Model:** Once a preset is loaded, tapping its corresponding footswitch a second time will bypass the tone model, allowing for a clean signal.

6.2. Adjusting Parameters

The TONEX Pedal offers five main and five alternative parameters on the front panel for tone shaping.

- **Main Parameters:** Directly adjust **GAIN**, **BASS**, **MID**, **TREBLE**, and **VOLUME** using their respective knobs.
- **Alternative Parameters:** Hold down the **PARAMETER** encoder to access alternative parameters: Reverb Level, Compressor Threshold, Noise Gate Threshold, Presence, and Depth. Rotate the corresponding knobs to adjust these.
- **Additional Parameters:** Press the **PARAMETER** encoder once to access further parameters for fine-tuning your sound.

6.3. Saving Presets

- **Saving with Renaming/Relocation:** Hold the **PRESET** / **BACK** encoder. You can then rotate the **PRESET**

knob to edit characters for renaming, and rotate the **MODEL** knob to move the cursor or change the bank location. Press the **PRESET** knob again to confirm and save.

- **Quick Save:** To quickly save a preset with the same name in the same location, press the **MODEL** and **PRESET** encoders simultaneously. The display will show "SAVED".

6.4. Cab Emulation

If connecting to a standard guitar or bass amp with its own speaker cabinet, you may wish to turn off the TONEX Pedal's internal cab emulation to avoid redundant processing. This can be done via the Setup menu (hold **MODEL** / **SELECT** knob).

6.5. Official Product Video: TONEX Pedal Main Features

Your browser does not support the video tag.

Video 1: An overview of the IK Multimedia TONEX Pedal's main features, including its controls, connectivity, and basic operation. This video demonstrates how to navigate presets, adjust parameters, and utilize the pedal's various functions for live and studio use.

7. Maintenance

- **Cleaning:** Regularly wipe the pedal with a soft, dry cloth to remove dust and grime. Avoid abrasive cleaners.
- **Storage:** Store the pedal in a cool, dry place when not in use. Protect it from extreme temperatures and humidity.
- **Cable Management:** Ensure cables are not kinked or strained to prevent damage to the connectors and ports.

8. Troubleshooting

- **No Power:** Ensure the 9V DC power supply is correctly connected to the pedal and a working power outlet.
- **No Sound:** Check all audio cable connections (instrument input, outputs to amp/PA, headphones). Verify volume levels on the pedal and connected devices. Ensure the tone model is not bypassed.
- **Unexpected Behavior/Glitches:** Try performing a factory reset (refer to the full online manual for specific steps). Ensure your firmware is up to date via the TONEX Editor software.
- **Software Connectivity Issues:** Ensure the USB cable is securely connected. Try a different USB port or cable. Restart both the pedal and your computer.

9. Specifications

Feature	Specification
Model Number	TONEX Pedal
Dimensions (L x W x H)	6.93 x 5.59 x 2.17 inches (approx. 17.6 x 14.2 x 5.5 cm)
Item Weight	2.86 pounds (approx. 1.3 kg)

Color	Black
Power Source	9V DC (Corded Electric)
Hardware Interface	USB
Signal Format	Digital
Operating System Compatibility	Windows® 10 or later, macOS® 10.15 or later (macOS® 11 Big Sur required for Modeler)
Frequency Response	5 Hz - 24 kHz
Dynamic Range	123 dB

10. Warranty and Support

IK Multimedia products are covered by a limited warranty. For detailed warranty information, product registration, and technical support, please visit the official IK Multimedia website or contact their customer service. Keep your proof of purchase for warranty claims.

IK Multimedia Releases TONEX Pedal

Thursday, 16 February 2023 12:00

IK Multimedia TONEX Pedal

IK Multimedia releases TONEX Pedal, completing the TONEX ecosystem and bringing AI Machine Modeling Tone Models to any venue for live performance or recording. With the included TONEX software, users can capture and model their own gear, and tap into the unlimited user-created Tone Models available for TONEX to use with the pedal.

From rare one-of-a-kind vintage amps to modern rigs, TONEX Pedal can store up to 150 Tone Model presets at a time and comes with over 1,000 Premium Tone Models of the included TONEX MAX software that can be installed a-la-carte with its new librarian feature, plus gives access to ToneNET with over 6,000 more user Tone Models, growing daily, free to download and play.

With the new TONEX librarian feature, presets can be quickly organized, archived, and transferred to the pedal's banks, for gigs or recording sessions and a limitless supply of sonic inspiration, anywhere. Finally, there's a smart and affordable solution to travel and play with the world's best rigs, including one's own.

TONEX is more than just a pedal, it's an ecosystem of tone with a full range of hardware, software and apps to transport tones everywhere. Tone Models can be played not only from the TONEX Pedal, but also from the included TONEX software

IK Multimedia releases Metal Gems Signature Collection for TONEX

Thursday, 28 March 2024 14:10

IK Multimedia Metal Gems Signature Collection

IK Multimedia releases Metal Gems Signature Collection for TONEX, continuing IK's commitment to expanding the TONEX ecosystem with 100 essential high-gain Tone Models. IK also announces that a firmware update for TONEX Pedal is available today, adding a highly requested built-in chromatic tuner for guitar and bass. Metal Gems is an exclusive collection of 100 high-gain Tone Models, meticulously captured to deliver both classic and contemporary metal tones, giving users instant access to 4 legendary amps: a Diezel Herbert, Bogner Uberschall, Soldano SLO-100 and a Peavey 5150.

The essence of these high-gain jewels has been preserved in stunning high-definition using IK's cutting-edge AI Machine Modeling Technology in conjunction with a sonically perfect environment to produce the incredible guitar tones available today.

Collection Overview:

- 100 Tone Models based on legendary high-gain amps including with and without cab
- A Premium Tone Model collection for use across the entire TONEX ecosystem
- Compatible with all TONEX versions including the free TONEX CS and TONEX App
  Captured at a professional studio with ideal acoustics and the perfect gear
  Created using cutting-edge AI Machine Modeling technology with advanced training
  All Tone Models can easily be loaded to TONEX Pedal and used for live performance

The Diezel Herbert is a 180-watt fire breather that can go from dynamic cleans to ultra-tight distortion. 30 Tone Models deliver that Diezel signature definition and

IK Multimedia presents the NAMM 2024 Panel Schedule

Freitag, 19. Januar 2024 18:05

IK Multimedia NAMM 2024 Panel Schedule

IK Multimedia announce its attendance at NAMM 2024 showcasing the latest products for guitar, recording, instruments, and creators. It's all happening at booth #6602 with a host of musicians and product specialists covering a range of informative tutorials, pro advice from the real world, and awesome performances. See the full schedule below and drop by anytime to enter IK's special NAMM 2024 Giveaway for a chance to win some amazing prizes.

Schedule of presentations:

Thursday, Jan. 25

- 11:00 a.m.: Alex Skolnick (Testament) - TONEX Pedal Demo + Meet & Greet
- 1:00 p.m.: Mike Massions (IK product specialist) - TONEX Pedal deep dive
- 3:00 p.m.: Mark Kondrat (IK product specialist) - What's new in TONEX 1.5

Friday, Jan. 26

- 11:00 a.m.: Atlantic Records staff - In the studio with iLoud Precision
- 12:00 a.m.: Gary Holt (Slayer/Exodus) - TONEX Live Performance + Meet & Greet
- 1:00 p.m.: Joe Wolfe (PINK) - Mixing on tour with iLoud Micro Monitors
- 2:00 p.m.: Phil Demmel (Machine Head) - TONEX Live Performance + Meet & Greet
- 3:00 p.m.: Riccardo Gresino (Atlantic Records) - Pianoverse live demo
- 4:00 p.m.: Jason Sadras (TONEX Tone Partner) - TONEX Pedal deep dive
- 5:30 p.m.: Alex Garcia (Mayday Parade) + special guest Paaris - Live demo + Q&A

IK Multimedia releases TONEX ODS Legends Signature Collection

Thursday, 16 November 2023 12:32

IK Multimedia TONEX ODS Legends Signature Collection

IK Multimedia releases the ODS Legends Signature Collection for TONEX. The first in a new series of Signature Collections, ODS Legends offers guitarists instant access to 4 priceless Dumble Overdrive Special amplifiers. Found behind many of the world's best players including Robben Ford, Stevie Ray Vaughan, Larry Carlton, David Lindley, John Mayer and more, the Overdrive Special easily fetches 6 figures when a rare example goes to auction. Also included as a bonus are Tone Models of 2 legendary overdrive pedals: a Silver Klon Centaur and an early '80s Ibanez TS808.

IK had the exclusive opportunity to capture each of these incredible amps while they passed through the world-famous Ocean Way Studios in Nashville, Tennessee, a studio renowned for its superior recording facilities and long history of hosting legendary musicians. All amp and pedal settings were dialed in by tone experts to a variety of sweet spots from clean to overdrive and meticulously captured in between recording sessions.

This collection of 20 Tone Models recreates the very essence of these vintage treasures and makes them finally accessible to all discerning tone aficionados. Utilizing IK's cutting-edge AI Machine Modeling Technology in conjunction with the Ocean Way's sonically perfect environment has produced incredible results available now for purchase and download.

The all-tube Overdrive Special is Howard Dumble's most prized model and was produced in very limited numbers, each one hand-wired and custom-built for a particular artist to suit their playing style and tone requirements. Known for its inspiring harmonic richness in the overdrive channel and transparency in the clean channel, the ODS is extremely versatile and can be used for a variety of genres including blues, rock and jazz, rewarding the player with unmatched headroom and responsiveness.

The 4 Overdrive Specials in this collection are pristine examples and were purchased from their original owners with their original tubes still mounted. They

IK Multimedia releases New Factory Content for TONEX

Donnerstag, 17. April 2025 14:40

New Premium Content for IK Multimedia TONEX

IK Multimedia announces the release of new premium content for all TONEX users, available today through the IK Product Manager. The latest TONEX Factory Content v2 expands the creative arsenal with a brand-new collection of Tone Models captured at the highest quality and presets optimized for live performance. TONEX Tone Models are unique captures of rigs dialed into a specific sweet spot. TONEX presets are used for performance and recording, combining Tone Models with added TONEX FX, EQ, and compression.

Who Gets What:

TONEX Pedal

- 150 crafted presets matched to 150 Premium Tone Models
- A/B/C layout for instant access to clean, drive, and lead tones
- 30 Banks: Amp & cab presets from classic cleans to crushing high-gain
- 5 Banks: FX-driven presets featuring the 8 new TONEX FX5 Banks: Amp-only presets for integrating external IRs, VIR™, or amps
- 5 Banks: Stompbox presets of new overdrive/distortion pedals
- 5 Banks: Bass amp & pedal presets to cover and bass styl

TONEX Mac/PC

- 106 new Premium Tone Models + 9 refined classics for TONEX MAX
- 20 new Premium Tone Models for TONEX and TONEX SE

TONEX ONE

- A selection of 20 expertly crafted presets from the list above
- Easy to explore and customize with the new TONEX Editor

IK Multimedia celebrates 20,000 Tone Models on ToneNET

Donnerstag, 02. November 2023 21:20

IK Multimedia with 20,000 Tone Models on ToneNET

IK Multimedia announces that ToneNET has marked another major milestone with over 20,000 TONEX Tone Models posted by users, becoming the fastest-growing tone-sharing community to date. TONEX is IK's complete software ecosystem which lets users model their own rig and play, practice and record with thousands of ultra-realistic Tone Models of amps and pedals. Part of the TONEX ecosystem, ToneNET is a free web platform dedicated to guitar and bass players for exchanging AmpliTube presets and TONEX Tone Models with others and for finding the latest signal chains from VIP artists and brands.

To celebrate the over 20,000 user-created TONEX Tone Models now shared on ToneNET, IK is organizing a massive giveaway of gear and software. Among TONEX users who have uploaded or downloaded at least one Tone Model on ToneNET, 20 lucky winners will be drawn at random to receive these prizes:

1st Prize (1 winner):

- TONEX Pedal - AI Machine Modeled tones live on stage (includes TONEX MAX)
- TONEX Capture - All-in-one companion for Tone Modeling and reamplification
- AXE I/O - Premium audio interface with advanced guitar tone shaping
- Z-TONE Buffer Boost - Preamp/DI pedal with advanced tone shaping
- AmpliTube 5 MAX v2 - Legendary guitar/bass gear for Mac/PC
- MODO DRUM 1.5 - Newly expanded physical modeling drum virtual instrument
- MODO BASS 2 - The first physically modeled electric bass goes next level
- iLoud Micro Monitor - Ultra-compact, high-quality reference studio monitors

2nd Prize (1 winner):

IK Multimedia Adds 50 New High-gain Tone Models to TONEX MAX

Freitag, 24. März 2023 14:41

IK Multimedia High-gain Heroes

A new update for AmpliTube TONEX is now available, adding 50 new Premium Tone Models free for all TONEX MAX users and TONEX Pedal owners, and bringing the total up to 1,100 Tone Models included in TONEX MAX.

"High-gain Heroes" is a collection of 50 high-gain Tone Models of essential amps from IK's private vault, masterfully captured using IK's AI Machine Modeling. These include Tone Models based on the following:

- Bogner Ecstasy
- Fender EVH 5150III 50w
- Marshall 6100 LM Anniversary
- Marshall JCM 900
- MESA/Boogie Dual Rectifier 2ch
- MESA/Boogie Mark IV A
- Mezzabarba Mzero
- Mezzabarba Trinity
- Orange Rockerverb MK I
- Peavey 5150
- PRS Archon 100
- Randall Warhead WH300

IK Multimedia announces the Mini Pedal TONEX ONE

Wednesday, 24 April 2024 11:00

IK Multimedia TONEX ONE

K Multimedia announces TONEX ONE, putting IK's revolutionary AI Machine Modeling technology on any size pedalboard and enabling users to perform with the world's most sought-after tones in more ways than ever. Budget friendly, TONEX ONE makes the world's best amps and effects accessible to all performing guitar and bass players.

Ultra-compact and powerful, TONEX ONE plays hyper-realistic modeled amps, cabs and stomps from a nearly infinite supply. It features 3 playable slots that are easily swapped on the fly with any of the 20 Tone Model presets in its active memory. To swap any of the 20 preloaded presets, users can connect TONEX ONE to a computer via USB-C and quickly transfer new Tone Models from their local library, ToneNET (IK's tone-sharing platform), or their own gear captured with the included TONEX software. With multiple units on a single pedalboard, the tone possibilities are truly limitless.

A Complete Rig in a Mini Pedal:

- Hyper-realistic AI Machine Modeled amps, cabs and stomps
- Compact design with easy access to all major controls on stage
- Customizable LED colors make stacking multiple units or stereo rigs easy to operate
- Studio-grade EQ, compressor, reverb, noise gate and smart tuner onboard
- Store up to 20 presets with over 200 Premium Tone Models included
- Explore and load any of 22,000+ FREE Tone Models from ToneNET
- 2 Performance Modes: Stomp (on/off) or Dual presets
- TRS output: Stereo, dual mono or headphones
- USB-C connection for loading Tone Models and computer recording

IK Multimedia releases Hyde Street Amp Locker Signature Collection

Donnerstag, 08. August 2024 16:40

IK Multimedia Hyde Street Amp Locke

IK Multimedia releases Hyde Street Amp Locker, a curated collection of 14 amplifiers defining the sound of Hyde Street Studios. Perfectly captured by veteran studio engineer Jamieson Durr and made available exclusively for TONEX users, these amps bring the historic and unparalleled tones of San Francisco's iconic studio directly to any player's gear locker.

All Tone Models were captured using Hyde Street Studios' prized recording equipment, including a Neve 8038 console (installed by Rupert Neve himself), 1084 Preamp/EQ, CAPI VP28 mic preamps, API 550a EQ and an array of classic studio mics. The results are 20 Tone Models encapsulating the legendary studios' sound. Hyde Street Amp locker is an eclectic mix of tones that offers players and engineers a rich palette to use in the studio or live with TONEX Pedal or TONEX ONE.
