## 2. SAFETY INFORMATION

Always read all instructions before using this appliance. Keep this instruction manual for future reference. This appliance is suitable for cleaning under running tap water. For safety reasons, the appliance can only be operated cordlessly when used in the shower or near water.

- Do not use the appliance with a damaged foil or comb, as this may result in injury.
- Keep the appliance dry.
- Do not use the appliance if it is damaged.
- Keep out of reach of children.
- Only use the appliance for its intended household use as described in this manual.

## 3. SETUP

### Charging the Device:

Before first use, fully charge the device. Connect the charging stand to the power adapter, and then

plug the adapter into a power outlet. Place the trimmer device onto the charging stand. The battery indicator light will show charging progress. A full charge provides up to 100 minutes of cordless runtime.

### Adjusting Length Settings with the ProWheel:

The Precision Wheel allows you to select from 40 length settings in 0.02-inch steps. Simply rotate the ProWheel to your desired length. The ProLock feature ensures your selection is locked, preventing accidental changes during use. This is ideal for precise beard and hair trimming from 0.5 mm to 20 mm.

#### 4. OPERATING INSTRUCTIONS

The Braun All-in-One trimmer is designed for versatile use across your beard, face, nose, ears, hair, and body. Its sharp ProBlade and AutoSense technology adapt to your hair type for effortless grooming.

##### **General Trimming:**

Select the appropriate comb or head for your desired length and area. Turn on the device and move it against the direction of hair growth for optimal results. The AutoSense technology reads your beard and adjusts the motor power to its thickness, providing an effortless trim.

## 5. MAINTENANCE

### Cleaning:

After each use, turn off the device and remove the trimmer head. Use the provided cleaning brush to remove any loose hairs from the head and the main unit. The device is fully washable, so you can rinse the trimmer head and the main unit under running tap water. Ensure the device is completely dry before reattaching the head or storing.

## 6. TROUBLESHOOTING

- **Device not turning on:** Ensure the device is fully charged. If the battery is low, place it on the charging stand.
- **Reduced performance:** Clean the trimmer head and ensure no hair is stuck. If performance remains low, the blades might need cleaning or replacement.
- **Attachments breaking:** While designed for durability, plastic attachments can wear over time. If an attachment breaks, contact Braun customer service for replacement parts.

- **Irritation during use:** Ensure the correct comb length is selected for the area being trimmed. Always move the trimmer against the direction of hair growth. If irritation persists, consult a dermatologist.
