# Ceeniu Smart Car Air Freshener F26 User Manual

Model: F26

---

## INTRODUCTION

---

The Ceeniu Smart Car Air Freshener F26 utilizes ultrasonic mist technology to deliver a refreshing fragrance experience in your vehicle. Designed for convenience, it features automatic on/off functionality based on car movement and a long-lasting built-in battery. This manual provides instructions for setup, operation, maintenance, and troubleshooting to ensure optimal performance of your device.

## SETUP

### 1. Installing the Fragrance Bottle

1. Unscrew the base of the air freshener device.
2. Remove the protective cap from the fragrance bottle.
3. Insert the fragrance bottle into the base of the device, ensuring it is securely twisted in.
4. Reinstall the base onto the main unit and twist to secure.

*Note: After installation, wait 10 minutes before using. When switching fragrances, spray approximately 60 times to transition scents seamlessly. Only use Ceenu brand refills to prevent clogs and other issues.*

### 2. Charging the Device

The F26 features a built-in battery that provides up to 2 months of use from a two-hour charge. It includes dual USB ports (USB-C and USB-A) for convenient charging. Connect the provided USB Type-C cable to the device and a power source (e.g., car USB port, USB adapter) to charge.

## OPERATION

### 1. Power On/Off

Press and hold the power button on the top of the device for 3 seconds to turn it on or off.

### 2. Adjusting Fragrance Intensity

The F26 offers three fragrance modes: Light, Strong, and Smart. Tap the power button to cycle through these modes:

- **Light Mode:** 0.5-second spray every 7 minutes.
- **Strong Mode:** 0.5-second spray every 3 minutes.
- **Smart Mode:** 0.5-second spray every 5 minutes.

\*Automatically activates upon detecting motion.

\*Enters standby mode after 7 minutes of unoccupied.

### 3. Smart Mode Functionality

In Smart Mode, the device intelligently detects car movement using real-time vehicle vibrations. It automatically activates upon detecting motion and enters standby mode after 7 minutes of being unoccupied, conserving battery and fragrance.

## MAINTENANCE

### Refill Replacement

When the fragrance runs low, replace the bottle by following the installation steps in the Setup section. Ensure the perfume bottle and base are securely and sequentially assembled onto the diffuser to achieve a leak-proof effect.

**1-Second Bursting Aroma**  
**120 Days of Everlasting Scent**

Advanced ultrasonic technology in the F26 creates a fine mist for lasting fragrance

## TROUBLESHOOTING

### Q: What if the product doesn't work?

A: Ceeniu products offer 1-year CeeniuCare service. Contact us at [support@ceeniulife.com](mailto:support@ceeniulife.com), and we'll respond within 12 hours with the best solution.

### Q: What's new with the F26?

A: The control panel now displays English, and the cotton swabs and straws are fixed to the main unit. It features streamlined installation and fresh packaging design. When replacing perfume, spray about 20 times for a gradual transition to the new scent.

### Q: Can I use my own perfume?

A: We do not recommend using your own perfume for ultrasonic misting. CEENIU's perfume

supplements are specifically formulated for ultrasonic misting and sourced from Robertet, France, ensuring high quality and concentration.

**Q: New perfumes coming soon?**

A: CEENIU is partnering with Robertet to create fragrances designed for Canada tastes. Stay tuned for exciting releases.
