## 4. SETUP AND ASSEMBLY

Assembly is designed to be straightforward and can typically be completed by one person in a few minutes. Please ensure you distinguish between the long and short screws as indicated in the instructions.

### Assembly Steps:

1. **Prepare the Base:** Lay out the L-shaped metal frame parts and short straight parts. Ensure they are on a horizontal plane. Use the M6x35mm screws (A) to connect these pieces, forming the base of the C-frame. Tighten securely.
2. **Attach Vertical Supports:** Connect the vertical metal supports to the assembled base. Push the pieces inward and then tighten them using the M6x12mm screws (C).
3. **Secure the Tabletop:** Place the tabletop onto the assembled metal frame. Use the M6x25mm screws (B) to attach the tabletop to the frame. **Caution:** Screw length matters. Please use the correct screws to avoid piercing through the tabletop.
4. **Install Adjustable Feet:** Screw the adjustable feet (D) into the bottom of the frame. Adjust them as needed to ensure the table is stable and level.
