# Mophie powerstation - 8,000 mAh Portable Power Bank User Manual

Model: UNV-PWRSTION-8K

## INTRODUCTION

The mophie powerstation is a versatile and portable 8,000 mAh universal battery designed to provide on-the-go power for your smartphones, tablets, and most USB-enabled devices. Its compact design and dual charging ports (USB-C and USB-A) ensure you can keep your devices charged wherever you are. This manual provides essential information on setting up, operating, maintaining, and troubleshooting your powerstation.

## PACKAGE CONTENTS

Before you begin, please ensure all items are present in the package:

- mophie powerstation (8,000 mAh)
- USB-A to USB-C Cable
- Quick-Start Guide

## SETUP

### Initial Charging of Your Powerstation

For optimal performance, it is recommended to fully charge your mophie powerstation before its first use.

1. Connect the supplied USB-A to USB-C cable to the USB-C input/output port on the powerstation.
2. Plug the USB-A end of the cable into a compatible USB wall adapter (not included) or a computer's USB port.
3. The integrated four-light LED power indicator will illuminate, showing the charging status. All four lights will be solid when the powerstation is fully charged.

## OPERATING INSTRUCTIONS

### Charging Your Devices

The mophie powerstation features both a USB-C port and a USB-A port, allowing you to charge multiple devices simultaneously.

1. Connect your device's charging cable to the appropriate port on the powerstation (USB-C or USB-A).
2. Connect the other end of the cable to your smartphone, tablet, or other USB-enabled device.
3. The powerstation will automatically begin charging your device. If it does not, press the power button on the powerstation to initiate charging.

### Checking Battery Level

The integrated four-light LED power indicator displays the current battery life of your powerstation.

- Press the power button once to activate the LED indicators.
- Each illuminated LED light represents approximately 25% of the battery capacity.
- Four solid lights: 75-100% charged
- Three solid lights: 50-75% charged
- Two solid lights: 25-50% charged
- One solid light: 0-25% charged (recharge soon)

## MAINTENANCE

Proper care will extend the life of your mophie powerstation.

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the surface of the powerstation. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the powerstation in a cool, dry place away from direct sunlight and extreme temperatures.
- **Avoid Moisture:** Do not expose the powerstation to water or excessive moisture.

- **Physical Damage:** The powerstation features a durable, textured finish designed to prevent scuffs and scratches. However, avoid dropping or subjecting the device to severe impacts.

## TROUBLESHOOTING

If you encounter issues with your mophie powerstation, try the following steps:

- **Powerstation not charging:**
  - Ensure the charging cable is securely connected to both the powerstation and the power source.
  - Try a different USB wall adapter or USB port.
  - Verify the power source is active.
- **Device not charging from powerstation:**
  - Ensure the powerstation is sufficiently charged (check LED indicators).
  - Press the power button on the powerstation to activate charging.
  - Try a different charging cable for your device.
  - Ensure your device is compatible with USB charging.
- **Slow charging:**
  - Ensure you are using appropriate cables and adapters.
  - Charging multiple devices simultaneously may result in slower charging speeds for each device.

If problems persist, please refer to the Warranty & Support section for further assistance.

## SPECIFICATIONS

Feature	Detail
Model Number	UNV-PWRSTION-8K
Battery Capacity	8,000 mAh
Product Dimensions	8 x 4.3 x 1.25 inches
Item Weight	9.1 ounces
Connector Types	1x USB-C (Input/Output), 1x USB-A (Output)
LED Indicator	Four-light LED power indicator
Color	Blue
