## PRODUCT OVERVIEW

The Lefton Rotatable Bathroom Faucet (Model BF2204-2) is an innovative and practical solution for modern bathrooms. Designed with solid brass material, this faucet offers exceptional durability and a sleek dark grey finish. Its key features include a rotatable design for flexible use, a battery-free temperature display in Fahrenheit, and three distinct water outlet modes to enhance your daily tasks.

### Key Features:

- **Rotatable Design:** Enables easy performance of daily tasks like brushing teeth, washing face, and hair with flexible adjustable angles.
- **Temperature Display:** Conveniently check real-time water temperature in Fahrenheit without requiring batteries, preventing potential harm from excessively hot water.
- **Triple Water Outlet Modes:** Easily switch between aerated stream, swing, and boost settings for maximum versatility.
- **Premium Material:** Constructed with solid brass for outstanding durability and longevity.
- **Easy Maintenance:** Features a sprayface that resists mineral buildup, simplifying cleaning.
- **Simple Installation:** Designed for secure single-hole deck plate installation.

### Important Notice:

1. Please confirm the size before purchasing to ensure it fits your countertop or vanity. 2. Some water inside is normal as all products are water-tested before shipment to ensure quality. Rest assured, all items are 100% brand new and never used.

## DETAILED FEATURES

### 360° Rotatable Design

The faucet's innovative design allows for 360-degree rotation, providing unparalleled flexibility and convenience. This feature makes it effortless to maneuver the faucet for various tasks, from washing your face to cleaning the sink.

### SMART TEMPERATURE CONTROL IN FAHRENHEIT

Innovative display ensures accurate adjustment, balancing comfort and efficiency seamlessly.

## OPERATING INSTRUCTIONS

### Water Flow and Temperature Control

The single rotary switch allows for easy adjustment of water flow and temperature. Rotate the handle to control the water volume and move it left or right to adjust between hot and cold water. The integrated temperature display will show the current water temperature in Fahrenheit.

### Switching Water Modes

The rotatable sprayhead features a touch button that allows you to cycle through the three available water outlet

modes: aerated stream, swing, and boost. Press the button to switch between modes based on your task requirements.

Aerated Stream Mode: Ideal for everyday tasks.

Swing Mode: Provides a wider spray for efficient cleaning.

Boost Mode: Delivers a powerful flow for specific needs.

## CARE AND MAINTENANCE

To ensure the longevity and pristine appearance of your Lefton faucet, follow these simple maintenance guidelines:

- **Regular Cleaning:** Clean the faucet regularly with a soft cloth and mild soap. Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the finish.
- **Mineral Buildup Resistance:** The faucet's sprayface is designed to resist mineral buildup. If mineral deposits do occur, gently wipe them away with a soft cloth dampened with a vinegar solution.
- **Drying:** After each use, wipe the faucet dry to prevent water spots and maintain its polished finish.

## TROUBLESHOOTING

If you encounter any issues with your Lefton Rotatable Bathroom Faucet, please refer to the following common solutions:

- **Water Inside Faucet Upon Arrival:** It is normal for some water to be present inside the faucet upon receipt. All Lefton products undergo rigorous water testing before shipment to ensure quality and functionality. This does not indicate a used or defective product.
- **Low Water Pressure:** Check if the water supply valves are fully open. Inspect the aerator for any debris or mineral buildup and clean it if necessary.

- **Leaks from Faucet Base:** Ensure all connections are tightened securely during installation. Verify that all gaskets and rubber rings are correctly seated and not damaged.
- **Temperature Display Not Working:** Ensure there is sufficient water flow through the faucet, as the display is water flow-driven and does not require batteries. If the issue persists, contact customer support.
- **Difficulty Switching Water Modes:** Check the touch button on the sprayhead for any obstructions. Ensure the sprayhead is clean and free of debris.

If the problem persists after attempting these solutions, please contact Lefton Customer Support for further assistance.
