What's in the Box

Verify that all components are present in the package:

- TRANYA T6 Wireless Earbuds
- Charging Case
- Type-C Charging Cable
- Multiple Sizes of Eartips
- User Manual (this document)

Setup

1. Initial Charging

Before first use, fully charge the earbuds and the charging case. Connect the provided Type-C cable to the charging case and a power source. The indicator lights on the case will show charging status.

2. Pairing with a Device

1. Open the charging case. The earbuds will automatically enter pairing mode.
2. On your device (smartphone, tablet, laptop), enable Bluetooth.
3. Search for available Bluetooth devices and select "TRANYA T6".
4. Once connected, a voice prompt will confirm successful pairing.

3. Fitting the Earbuds

Select the appropriate eartip size for a secure and comfortable fit. A good seal is crucial for optimal sound quality and noise isolation. Gently insert the earbuds into your ears and twist slightly until they feel snug.

Operating Instructions

Button Controls

The TRANYA T6 earbuds feature physical buttons for reliable control, minimizing accidental touches. Specific functions can be customized via the TRANYA Audio App.

Multipoint Connection

The earbuds can connect to two devices simultaneously. This allows seamless switching between devices, for example, listening to music on a laptop and answering a call on a phone without manual reconnection.

Qualcomm aptX Adaptive Audio

The TRANYA T6 supports Qualcomm aptX Adaptive, offering up to 24-bit 96kHz high-resolution audio. This codec dynamically adjusts performance for optimal audio quality or low latency (as low as 40ms) depending on the activity, such as gaming or phone calls.

Maintenance

- **Cleaning:** Regularly clean the earbuds and charging case with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- **Eartips:** Remove and clean eartips periodically to prevent wax buildup. Ensure they are completely dry before reattaching.
- **Storage:** Store the earbuds in their charging case when not in use to protect them and keep them charged.
- **Water Exposure:** While IPX5 rated, avoid submerging the earbuds in water. Dry them thoroughly if they get wet.

Troubleshooting

- **Earbuds not pairing:** Ensure earbuds are charged. Place them back in the case, close, then reopen to re-enter pairing mode. Check your device's Bluetooth settings and forget previous connections if necessary.
- **Only one earbud working:** Place both earbuds back in the charging case, close the lid, wait a few seconds, then open it again. This often resets the connection between the earbuds.
- **Sound quality issues:** Ensure eartips provide a good seal. Check audio source quality. Use the TRANYA Audio App to adjust EQ settings.
- **Button controls unresponsive:** Ensure earbuds are charged and connected. If customized controls are not working as expected, verify settings in the TRANYA Audio App.
- **Charging issues:** Ensure the Type-C cable is securely connected to both the case and the power source. Try a different cable or power adapter.
