# KINGTORO 24" Chandelier Ceiling Fan User Manual

Model: A358BK-5

Brand: KINGTORO

## INTRODUCTION

---

Thank you for purchasing the KINGTORO 24" Chandelier Ceiling Fan. This modern fandelier combines the elegance of a chandelier with the functionality of a ceiling fan, featuring a matte black finish and five glass lampshades. It is designed to provide both illumination and comfortable airflow for various indoor spaces such as living rooms, kitchens, dining rooms, bedrooms, and study rooms. This manual provides detailed instructions for safe installation, operation, and maintenance of your new ceiling fan.

## SAFETY INFORMATION

---

Please read all instructions carefully before beginning installation and keep this manual for future reference. Improper installation or use can lead to electric shock, fire, or personal injury.

- Ensure the power is turned off at the circuit breaker before installation or maintenance.
- All electrical connections must be in accordance with local codes, ordinances, and the National Electric Code (NEC).
- Consult a qualified electrician if you are unsure about wiring or installation.
- The mounting structure must be capable of supporting the weight of the fan (approximately 15.12 pounds).
- Do not bend the fan blades when installing or cleaning.
- Avoid placing objects in the path of the fan blades.
- Use only E26 bulbs, Max 40 Watts. Bulbs are not included.

## WHAT'S IN THE BOX

---

Verify that all components are present before beginning installation:

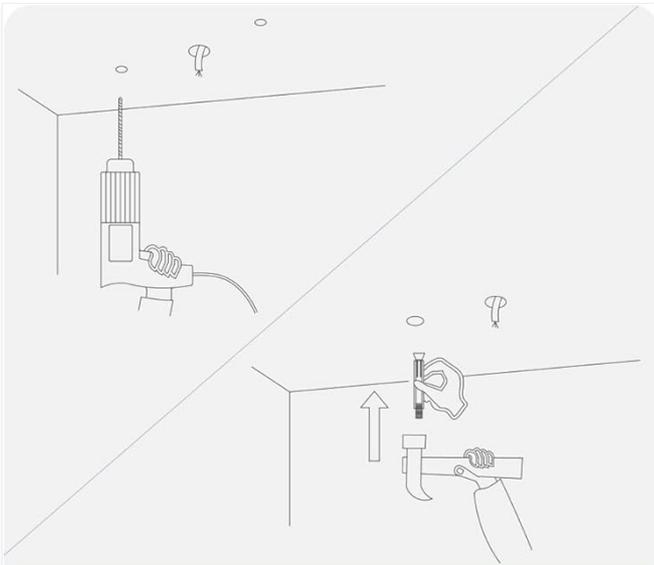

- Chandelier Ceiling Fan Unit
- Remote Control
- Mounting Hardware
- Downrods (3.9 inch, 7.8 inch, 13.8 inch)
- Glass Lampshades (5 pieces)

## SETUP AND INSTALLATION

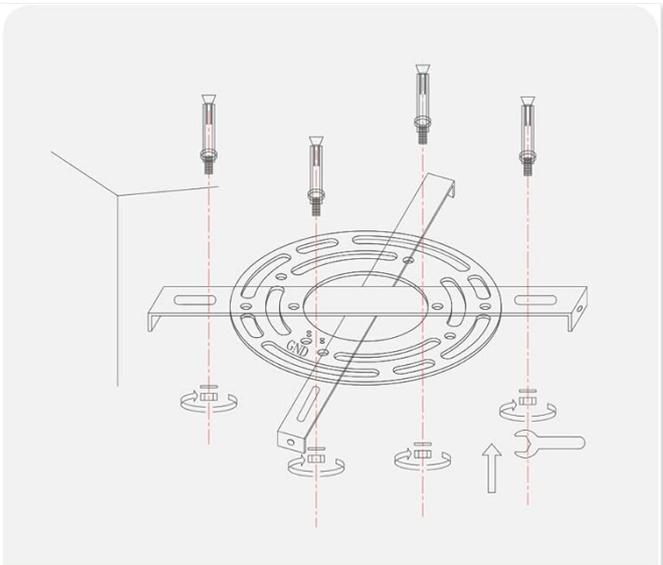

---

This ceiling fan is designed for easy installation with included mounting hardware and clear instructions. Please follow these steps carefully:

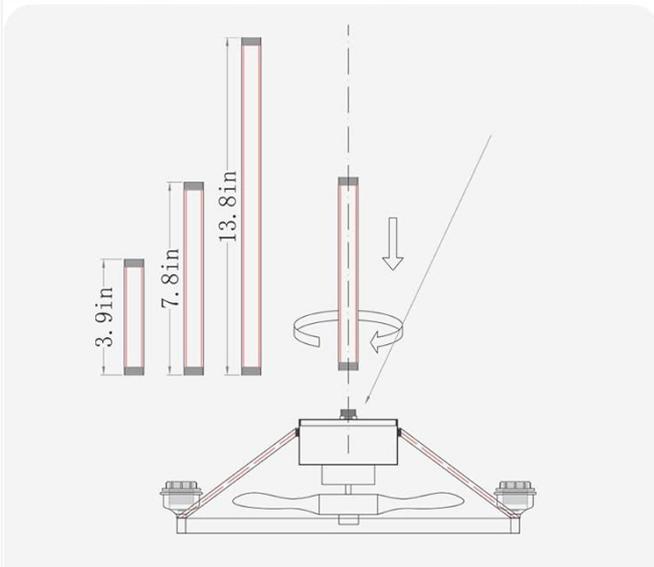

1. **Prepare for Installation:** Turn off power at the main circuit breaker. Ensure the ceiling junction box is securely mounted and capable of supporting the fan's weight.
2. **Drill and Secure:** Drill into the ceiling and insert rubber plugs as needed.
3. **Mount Hanging Board:** Lock the hanging board to the ceiling using screws, then tighten with a wrench.
4. **Assemble Downrod:** Select the appropriate downrod length (3.9, 7.8, or 13.8 inches) or combine them to achieve your desired height (maximum 34.5 inches). Tighten the fan lamp body center bar to the chosen downrod.
5. **Connect Wiring:** Connect the fan's electrical wires to your household wiring according to the wiring diagram provided in the separate installation guide (not included in this manual, but typically with the product).
6. **Lock Chassis:** Securely lock the fan chassis to the ceiling fan body.
7. **Install Glass Shades:** Carefully place each glass lampshade over the bulb sockets and secure them.
8. **Install Bulbs:** Insert E26 base bulbs (not included, Max 40 Watts) into the sockets.

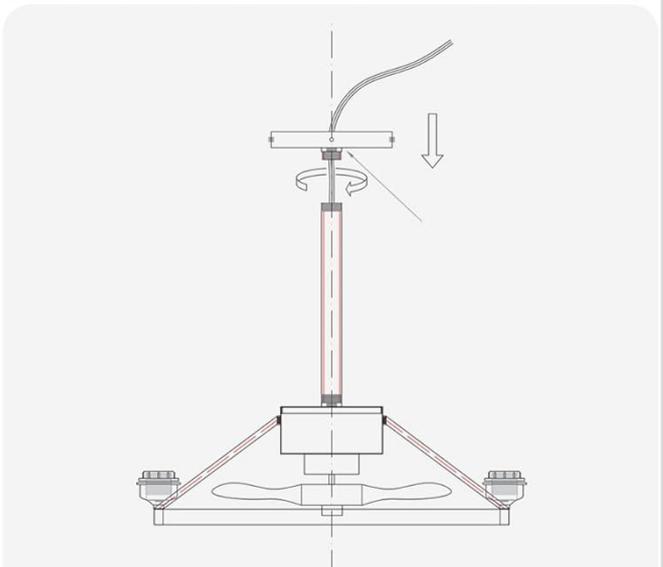

Drilling into the ceiling and knock in rubber

First Lock the hanging board by screws. Afterwards, tighten the screws with a wrench.

Tighten the fan lamp body center bar according to your desired height.

Lock the chassis to the ceiling fan body.

*Image: A four-panel diagram illustrating the installation process, including drilling into the ceiling, securing the hanging board, assembling the downrod for adjustable height, and locking the chassis to the ceiling fan body.*

## E26 BASED

RECOMMEND BULBS  
(BULB NOT INCLUDED)

## SIMPLE REMOTE CONTROL

You can easily use remote control lighting, wind speed adjustment, timing function, easy to use.

## Dimension:

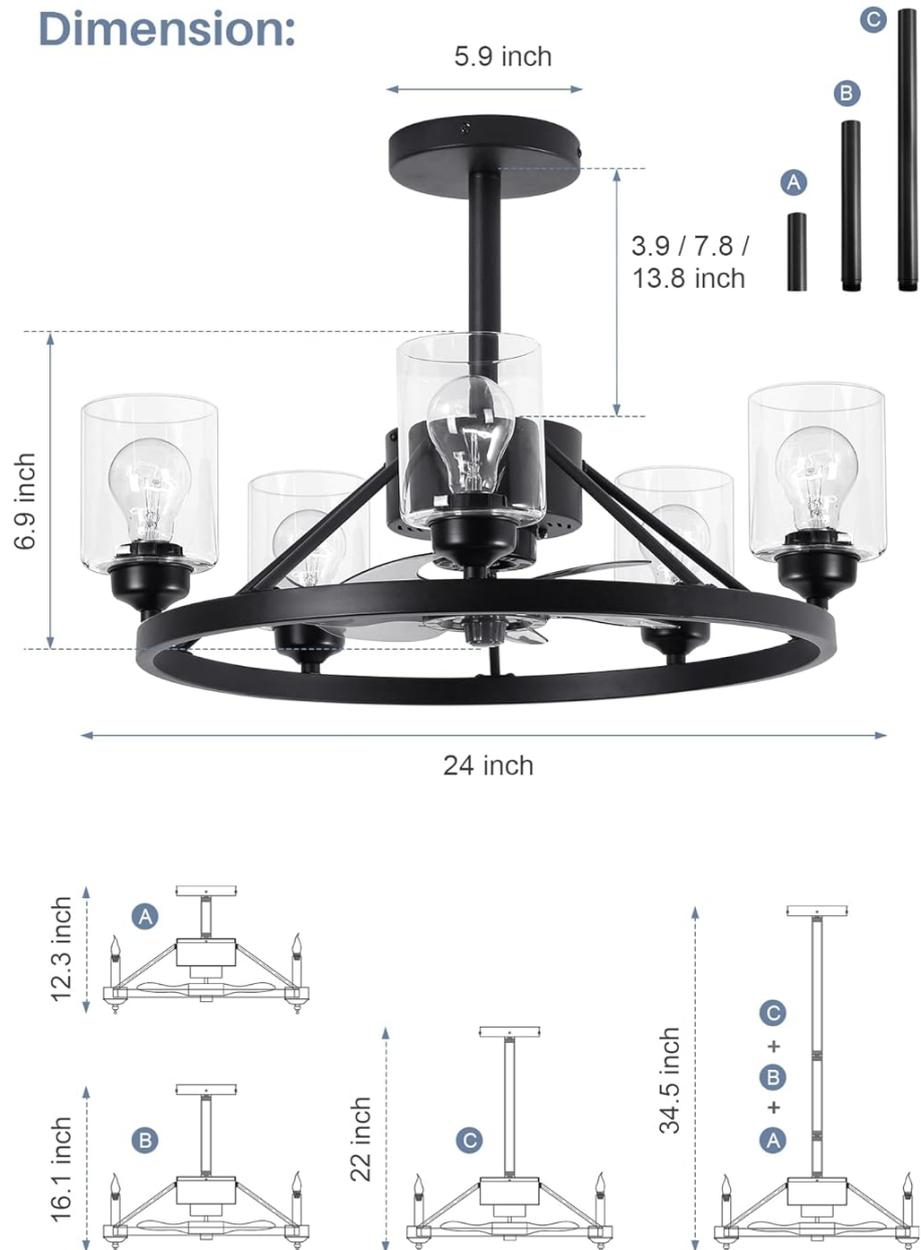

Image: A detailed diagram showing the dimensions of the fan (24 inches diameter) and the three adjustable downrod lengths (3.9, 7.8, and 13.8 inches) that allow for a maximum fan height of 34.5 inches.

## OPERATING INSTRUCTIONS

Your KINGTORO Chandelier Ceiling Fan comes with a convenient remote control for easy operation of both fan and light functions.

### Remote Control Functions:

- **Light On/Off:** Control the chandelier lights independently from the fan.
- **Fan Speed:** Adjust between three wind speeds (Low, Medium, High) for optimal comfort.
- **Timing Function:** Set a timer for 1, 2, or 4 hours for automatic shut-off.
- **Reversible Blade Direction:** Change the fan's rotation direction to create downward airflow (cooling in summer) or upward airflow (circulating warm air in winter).

## CHANDELIER CEILING FANS WITH LIGHTS

Modern simple design fan with light, made of black metal with high temperature nano bubble spray paint, never rust, sturdy and durable.

## DC PURE COPPER MOTOR DC

pure copper inverter motor to ensure stable and safe operation. More energy efficient and quieter.

## ABS SMALL BLADELESS CEILING FANS

ABS blades, more durable than traditional acrylic.

*Image: A visual representation of the remote control and its functions, including light control, 3 wind speeds, timer settings (1H, 2H, 4H), reversible blade direction, low energy consumption, and powerful motor.*

Image: An illustration demonstrating the fan's reversible motor function, showing "Forward Cool Airflow" for summer mode (downward air) and "Reverse Warm Airflow" for winter mode (upward air circulation).

## MAINTENANCE

---

Regular maintenance ensures the longevity and optimal performance of your ceiling fan.

- **Cleaning:** The surface of the ABS blades is smooth and easy to clean. Use a soft, damp cloth to wipe down the fan and light fixture. Do not use abrasive cleaners or solvents.
- **Bulb Replacement:** Ensure power is off before replacing bulbs. This fixture uses E26 base bulbs, Max 40 Watts.
- **Glass Shade Replacement:** If a glass shade needs replacement, carefully unscrew the retaining ring, remove the old shade, insert the new one, and re-secure the ring.

*Description: This video provides a step-by-step guide on how to safely remove and replace the glass shades on your fandelier ceiling fan, ensuring proper handling and reassembly.*

## TROUBLESHOOTING

If you encounter issues with your KINGTORO Chandelier Ceiling Fan, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Fan does not operate	No power to the fan; Loose wire connections; Remote control battery low.	Check circuit breaker and wall switch. Ensure all wire connections are secure. Replace remote control batteries.
Lights do not turn on	Bulbs are faulty or not installed correctly; Loose wire connections; Remote control issue.	Check and replace bulbs. Ensure bulbs are screwed in tightly. Verify light wiring connections. Check remote control functionality.
Fan is noisy	Loose screws on mounting bracket or fan housing; Fan blades are unbalanced.	Tighten all screws. Ensure fan blades are securely attached and balanced. Allow fan to run for a period to see if noise subsides.
Remote control not working	Low battery; Obstruction between remote and receiver; Remote not paired.	Replace remote battery. Ensure clear line of sight. Refer to remote pairing instructions (if applicable, usually in a separate remote manual).

## SPECIFICATIONS

Feature	Detail
Brand	KINGTORO
Model Name	A358BK-5
