

PARTPHONER STR-FL-0164

PARTPHONER Floor Lamp with Shelves (Model: STR-FL-0164)
User Instruction Manual

INTRODUCTION

Thank you for purchasing the PARTPHONER Floor Lamp with Shelves. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your new lamp. Please read these instructions thoroughly before use and retain them for future reference.

This floor lamp features an open-top design for enhanced brightness, three integrated storage shelves, and includes a 3-color temperature LED bulb with a memory function. Its versatile design is suitable for various indoor settings.

PACKAGE CONTENTS

Before assembly, ensure all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Lamp Frame (Shelves and Poles)
- Linen Lampshade
- E26 LED Bulb (9 Watt, 800 Lumen, 3 CCT)
- Assembly Hardware (screws, connectors)
- Cable Management Clips
- Assembly Tool (e.g., Allen wrench)

Spacing Saving Storage

Figure 1: All components included in the package. This image displays the disassembled parts of the floor lamp, including the base, vertical poles, shelf panels, lampshade frame, and the LED bulb, ready for assembly.

SETUP AND ASSEMBLY

Assembly typically takes approximately 10 minutes. Follow these steps carefully:

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface.
2. **Assemble the Base:** Connect the initial vertical poles to the base shelf using the provided hardware. Ensure all connections are secure.
3. **Install Shelves and Poles:** Continue to attach the subsequent shelf panels and vertical poles in sequence, tightening all connections as you proceed.
4. **Attach Lampshade Frame:** Secure the top frame for the lampshade to the uppermost poles.
5. **Assemble Lampshade:** The linen lampshade is typically shipped flat. Assemble it by attaching the provided braces or clips to form its square shape, then place it onto the top frame.
6. **Install LED Bulb:** Screw the included E26 LED bulb into the lamp socket.
7. **Cable Management:** Use the provided cable management clips to secure the power cord along one of the lamp's vertical poles, preventing it from dangling.
8. **Placement:** Position the assembled lamp in your desired location, ensuring it is stable and on a level surface.

Comfortable Bedroom Lighting

Figure 2: Visual representation of the assembly process. This image illustrates the sequential steps for putting together the lamp, from connecting the base to installing the lampshade and bulb.

OPERATING INSTRUCTIONS

Power On/Off

The lamp is operated using a pull chain switch. Pull the chain once to turn the lamp on or off.

Adjusting Color Temperature (CCT)

The included LED bulb offers three color temperature settings: 2700K (Warm White), 4000K (Neutral White), and 5000K (Cool White).

- To cycle through the color temperatures, pull the chain twice within 10 seconds. Each double pull will switch to the next CCT setting.
- The bulb features a memory function, meaning it will remember the last selected color temperature when the lamp is turned off and then back on.

3 Color Temperature Bulb Included

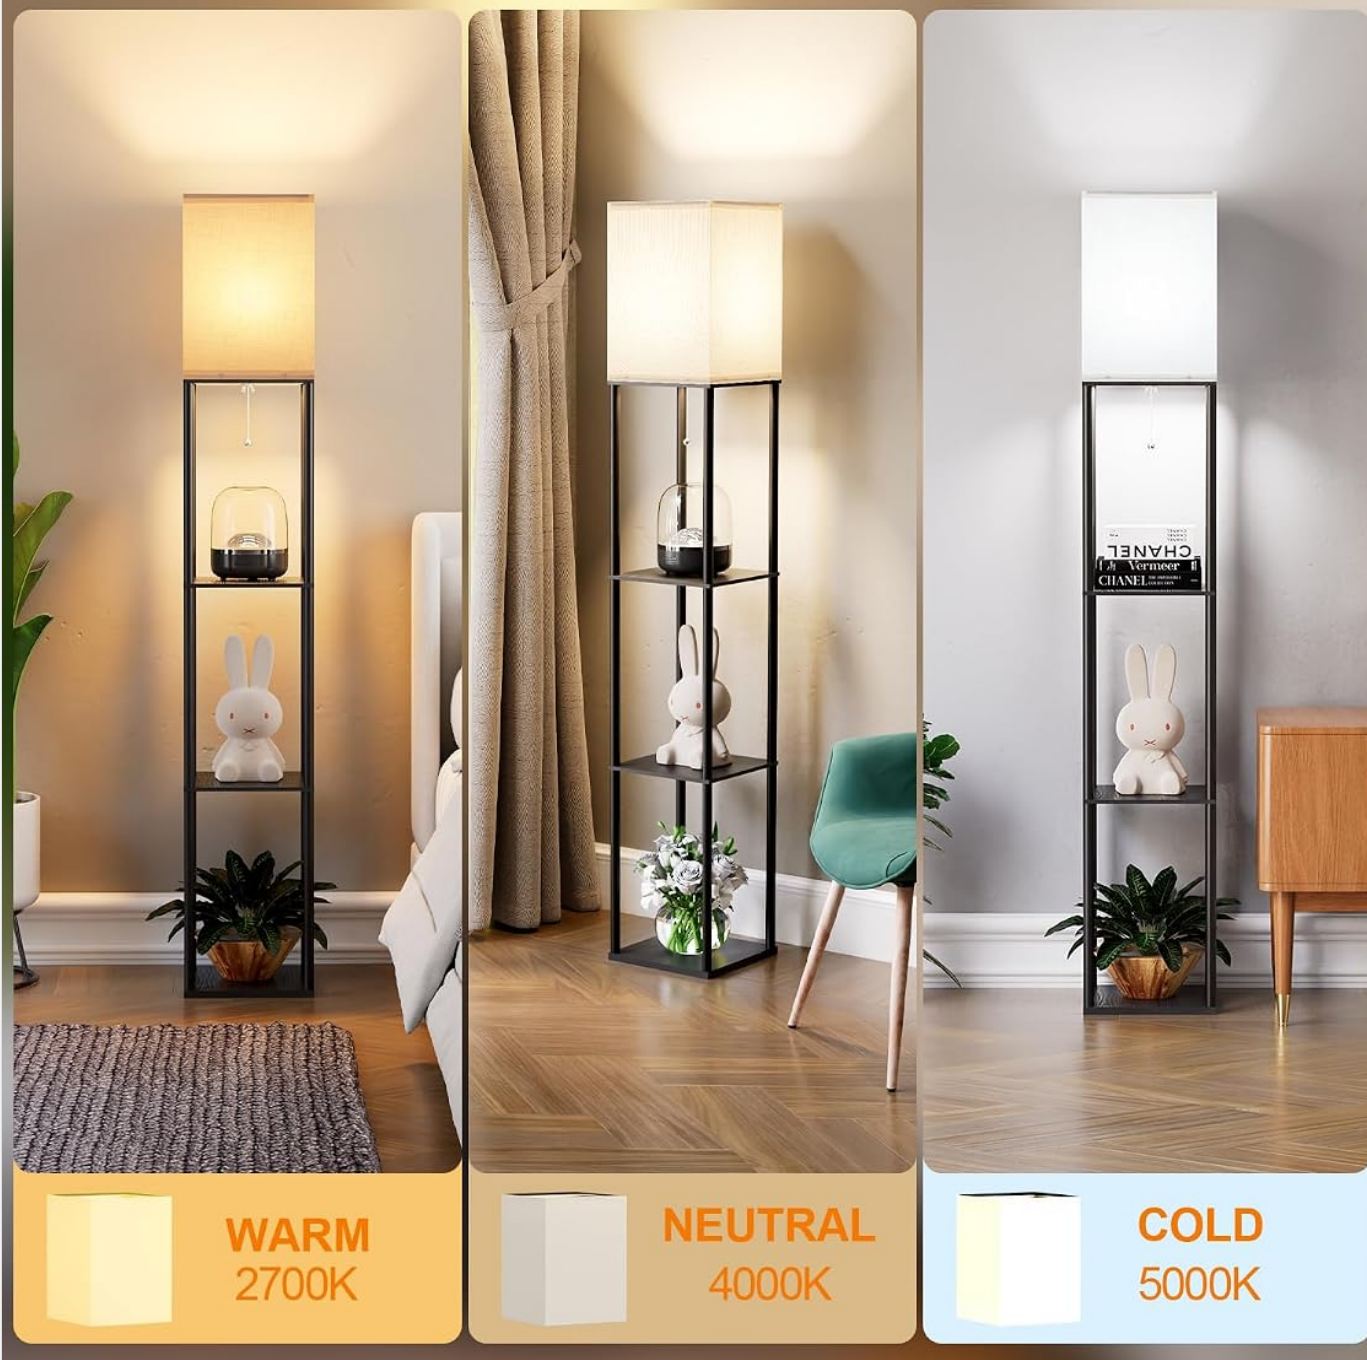

Figure 3: The lamp illuminated in Warm (2700K), Neutral (4000K), and Cool (5000K) white light settings. This demonstrates the adjustable color temperature feature of the included LED bulb.

MAINTENANCE

Cleaning

- **Frame and Shelves:** Wipe the wood frame and shelves with a soft, dry cloth. For stubborn marks, a slightly damp cloth can be used, followed immediately by a dry cloth. Avoid abrasive cleaners or harsh chemicals.
- **Lampshade:** Gently dust the linen lampshade with a soft brush or a lint roller. Do not wash or immerse the lampshade in water.

Bulb Replacement

When replacing the bulb, ensure the lamp is unplugged from the power outlet.

- **Bulb Type:** Use an E26 base LED bulb. The original bulb is 9 Watts and 800 Lumens.
- **Wattage:** Do not exceed the maximum recommended wattage for the lamp socket.

TROUBLESHOOTING

Lamp does not turn on:

Ensure the power cord is securely plugged into a working electrical outlet. Check if the bulb is screwed in correctly and is not burnt out. Test the outlet with another device.

Light flickers:

Ensure the bulb is screwed in tightly. If flickering persists, try a different E26 LED bulb to rule out a faulty bulb.

Color temperature does not change:

Ensure you are pulling the chain twice within a 10-second interval. If the issue continues, the bulb may be faulty and require replacement.

Lamp feels wobbly:

Check all screw connections from the base to the top. Tighten any loose screws. Ensure the lamp is placed on a flat, stable surface.

SPECIFICATIONS

Feature	Specification
Model Number	STR-FL-0164
Brand	PARTPHONER
Product Dimensions	10.3"D x 10.3"W x 63"H
Item Weight	9.13 Pounds
Material	Wood (Veneered)
Shade Material	Linen
Shade Color	White
Bulb Base	E26
Light Source Type	LED
Included Bulb Wattage	9 Watts
Included Bulb Brightness	800 Lumens

Included Bulb Color Temperature	2700K/4000K/5000K (3 CCT)
Switch Type	Pull Chain
Power Source	Cordless Electric
Voltage	110 Volts
Max Shelf Loading Capacity	50 lbs
