SAFETY INSTRUCTIONS

To prevent damage or injury, observe the following safety precautions:

- Do not expose the remote control to water or excessive moisture.
- Avoid dropping the remote control or subjecting it to strong impacts.
- Keep batteries out of reach of children and pets.
- Do not mix old and new batteries, or different types of batteries.
- Dispose of used batteries according to local regulations.
- Do not attempt to open or modify the remote control.

SETUP

Battery Installation

1. Locate the battery compartment on the back of the remote control.
2. Open the battery compartment cover.

3. Insert one CR2 battery, ensuring the positive (+) and negative (-) terminals align correctly with the markings inside the compartment.
4. Close the battery compartment cover securely.

The remote control is now ready for use with your compatible Airbition wall mount fan.

OPERATING INSTRUCTIONS

The Airbition remote control uses infrared (IR) technology. Ensure there is a clear line of sight between the remote control and the fan's IR receiver for optimal performance.

Remote Control Functions (Button Control)

- **Power Button:** Press to turn the fan ON or OFF.
- **Speed Buttons:** Adjust the fan speed (e.g., Low, Medium, High).
- **Mode Button:** Cycle through different fan modes (e.g., Normal, Natural, Sleep).
- **Timer Button:** Set a timer for the fan to automatically turn off after a specified duration.
- **Oscillation Button:** Activate or deactivate the fan's oscillation feature.

Refer to your Airbition wall mount fan's manual for specific functions and compatibility.

MAINTENANCE

Cleaning

Wipe the remote control with a soft, dry cloth. Do not use abrasive cleaners, solvents, or harsh chemicals, as these may damage the surface or internal components.

Battery Replacement

If the remote control's range decreases or it becomes unresponsive, replace the battery following the battery installation steps in the 'Setup' section.

TROUBLESHOOTING

- **Remote control not working:**
 - Check if the battery is inserted correctly with the correct polarity.
 - Replace the battery with a new CR2 battery.
 - Ensure there is a clear line of sight between the remote control and the fan's IR receiver. Remove any obstructions.
 - Make sure you are within the effective operating range of the fan's IR receiver.
- **Fan not responding to specific buttons:**
 - Verify that the fan supports the specific function you are trying to activate.
 - Ensure the remote control is pointed directly at the fan's IR receiver.
