## MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your PHOINIKAS Q6 Gaming Headset.

- **Cleaning:** Use a soft, dry cloth to wipe the headset. For earcups, a slightly damp cloth can be used, but ensure no moisture enters the speaker grilles or ports. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures. When not in use, it is recommended to store it in its original packaging or a protective case to prevent dust accumulation and physical damage.
- **Cable Care:** Avoid sharp bends or excessive pulling on the cables. Disconnect cables by gripping the plug, not the cable itself.

## TROUBLESHOOTING

If you encounter issues with your PHOINIKAS Q6 Gaming Headset, refer to the following common troubleshooting steps:
