RORIOS AA-ZC006

RORIOS Fashion Mens Analog Quartz Watch User Manual

Model: AA-ZC006 | Brand: RORIOS

INTRODUCTION

This manual provides essential information for the proper use and care of your RORIOS Fashion Mens Analog Quartz Watch. Designed with a classic aesthetic, this timepiece features a high-quality quartz movement for accurate timekeeping, a durable stainless steel band, and practical functions such as luminous hands and water resistance for daily use. Please read this manual thoroughly to ensure optimal performance and longevity of your watch.

Image Description: A close-up view of the RORIOS Fashion Mens Analog Quartz Watch. The watch features a black dial with Roman numerals and crystal markers, three decorative subdials, and luminous hands. The case and band are made of black-toned stainless steel.

PACKAGE CONTENTS

Upon opening your RORIOS watch package, please verify that all the following items are included:

- 1x RORIOS Watch
- 1x Watches Link Remover
- 1x User Manual & Warranty
- 1x Exquisite Gift Watch Leather Box

Image Description: The RORIOS watch box, white with the RORIOS logo, placed inside a clear plastic protective bag.

Image Description: The back of the RORIOS watch packaging, showing various compliance and warning labels, including CE, UKCA, and FCC marks, through the clear plastic bag.

SETUP

Setting the Time and Date

1. **Pull out the Crown:** Gently pull the crown (the knob on the side of the watch) out to the first or second click

position.

- **First Click:** For setting the date (if applicable and functional). Turn the crown clockwise or counter-clockwise to adjust the date.
- **Second Click:** For setting the time. Turn the crown to move the hour and minute hands to the desired time.

2. **Push in the Crown:** Once the time and date are set, push the crown back into its normal position to start the watch movement.

Note: The three small subdials on this watch are decorative and do not have functional timekeeping or chronograph capabilities. The date window is functional.

Adjusting the Stainless Steel Band

Your RORIOS watch comes with a stainless steel band that can be adjusted to fit your wrist size. A link remover tool is included in the package for this purpose. If you are unfamiliar with adjusting watch bands, it is recommended to seek assistance from a professional jeweler to avoid damage to the band or watch.

- Use the provided link remover tool to carefully push out the pins from the removable links on the watch band.
- Remove the desired number of links to achieve a comfortable fit.
- Reinsert the pins to secure the band.

OPERATING INSTRUCTIONS

Luminous Function

The hands and markers of your RORIOS watch are equipped with a luminous material. This material absorbs light during the day and emits a glow in low-light conditions, allowing for easy time readability at night. The intensity and duration of the glow depend on the amount of light absorbed.

Practical Luminous Function

Absorbing Light & Continuous Illumination & Visible At Night

Image Description: A close-up of the RORIOS watch dial in darkness, showcasing the glowing luminous hands and hour markers, illustrating its practical luminous function.

Water Resistance

This RORIOS watch is designed with a 30-meter (3 ATM) water resistance rating. This means it is suitable for daily life water exposure.

- It can withstand splashes, rain, and brief immersion in water, such as during hand washing.
- It is **not** suitable for showering, bathing, swimming, diving, or any activities involving prolonged water immersion or high-pressure water.
- Ensure the crown is fully pushed in before any contact with water.

Daily Life Waterproof

Don't need to Worry about Water Drops

Rain

Sweat

Hand-wash

MAINTENANCE

General Care

- **Cleaning:** Wipe the watch case and band regularly with a soft, dry cloth to remove dust and dirt. For the stainless steel band, a slightly damp cloth can be used, followed by immediate drying.
- **Avoid Chemicals:** Do not expose the watch to harsh chemicals, solvents, or detergents, as these can damage the finish and seals.
- **Temperature Extremes:** Avoid exposing the watch to extreme temperatures (hot or cold) or sudden temperature changes, which can affect the movement and water resistance.
- **Magnetic Fields:** Keep the watch away from strong magnetic fields (e.g., speakers, refrigerators, mobile phones) as they can affect the accuracy of the quartz movement.

Water Resistance Preservation

- Always ensure the crown is fully pushed in before any contact with water.
- Do not operate the crown or pushers when the watch is wet or submerged in water.
- Water resistance is not a permanent condition and may eventually be compromised by the aging of gaskets or accidental shocks to the watch. It is recommended to have the water resistance checked periodically by a professional.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Watch stops or runs intermittently.	Depleted battery.	Replace the battery. It is recommended to have this done by a professional watchmaker.
Time is inaccurate.	Exposure to strong magnetic fields; Crown not fully pushed in.	Demagnetize the watch (professional service recommended); Ensure the crown is fully pushed in.
Condensation inside the watch.	Compromised water resistance due to impact or aging seals.	Immediately take the watch to a professional for inspection and repair to prevent internal damage.

SPECIFICATIONS

Detailed specifications for the RORIOS Fashion Mens Analog Quartz Watch (Model AA-ZC006):

- **Model Number:** AA-ZC006
- **Movement:** Quartz
- **Dial Diameter:** 40MM
- **Dial Thickness:** 10MM
