This product is GREENGUARD Gold Certified, meaning it meets stringent chemical emissions standards for healthier indoor air. It has been screened for over 10,000 chemicals and VOCs. Additionally, it is tested for lead and other toxic elements to meet ASTM safety standards and is JPMA certified, ensuring it meets or exceeds all safety standards set by ASTM.

2. IMPORTANT SAFETY INFORMATION

- **Compatibility:** Always refer to your crib's instruction manual to ensure this guardrail (Model W0060) is compatible with your specific crib model. Incompatibility can lead to an unstable and unsafe setup.
- **Assembly:** Ensure all parts are correctly assembled and securely fastened according to the instructions provided with your crib and this guardrail.
- **Regular Checks:** Periodically check all screws and fasteners to ensure they remain tight. Loose fittings can compromise safety.
- **Chemical Safety:** This product is GREENGUARD Gold Certified and tested for lead and other toxic elements, meeting ASTM safety standards.
- **JPMA Certified:** This guardrail is JPMA certified, meeting or exceeding all safety standards set by

3. PACKAGE CONTENTS

Please verify that all components are present before beginning assembly. If any parts are missing or damaged, do not proceed with assembly and contact customer support.

- W0060 Toddler Guardrail (1 unit)
- Mounting Hardware (specific to your crib model, typically included with the guardrail or crib conversion kit)

4. INSTALLATION INSTRUCTIONS

This guardrail is designed to convert a compatible crib into a toddler bed. The exact installation steps will depend on your specific crib model. **It is crucial to consult your crib's original instruction manual for detailed conversion steps and hardware requirements.**

1. **Verify Compatibility:** Before starting, confirm that your crib model is compatible with the DELTA W0060 guardrail. This information is typically found in your crib's instruction manual.
2. **Prepare the Crib:** Follow your crib's manual to remove the front rail or side panel that is being replaced by the guardrail.
3. **Attach the Guardrail:** Align the guardrail with the designated attachment points on your crib. Use the provided mounting hardware (screws, bolts, etc.) to secure the guardrail firmly in place.
4. **Tighten Fasteners:** Hand-tighten all fasteners initially, then use a screwdriver or appropriate tool to tighten them securely. Do not overtighten, as this can damage the wood.
5. **Check Stability:** Once installed, gently push and pull on the guardrail to ensure it is stable and does not wobble. There should be no significant gaps between the guardrail and the crib frame.

Important Note: If the guardrail does not align correctly with your crib's screw holes or feels unstable after tightening, do not use it. Re-check compatibility with your crib's manual or contact customer support.

5. OPERATING INSTRUCTIONS

Once properly installed, the toddler guardrail provides a secure barrier to prevent your child from rolling out of bed while allowing them easy access to get in and out. No specific operational steps are required beyond ensuring its secure attachment.

- **Regular Inspection:** Periodically inspect the guardrail for any signs of wear, damage, or loose connections.
- **Secure Fit:** Ensure the guardrail remains tightly secured to the crib frame at all times.

6. CARE AND MAINTENANCE

To maintain the quality and appearance of your DELTA W0060 Toddler Guardrail, follow these care instructions:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid using abrasive cleaners, harsh chemicals, or furniture polish, as these can damage the finish.

- **Dusting:** Dust regularly with a soft, dry cloth.
- **Avoid Moisture:** Do not allow liquids to stand on the surface. Promptly wipe up any spills.

7. TROUBLESHOOTING

Common Issues and Solutions:

- **Guardrail is Wobbly or Unstable:**
 - **Solution:** Ensure all mounting screws and bolts are fully tightened. Re-check your crib's instruction manual to confirm correct installation steps and hardware usage. Verify that the guardrail is compatible with your specific crib model.
- **Screw Holes Do Not Align:**
 - **Solution:** This is a strong indicator of incompatibility. Double-check your crib's model number against the guardrail's compatibility list (usually in your crib's manual). If incompatible, do not attempt to force installation, as this creates a safety hazard.
- **Gaps Between Guardrail and Mattress/Crib Frame:**
 - **Solution:** Ensure the guardrail is installed correctly and pushed flush against the crib frame. If gaps persist, it may indicate an incompatibility issue or incorrect assembly. Refer to your crib's manual.

If you continue to experience issues after following these troubleshooting steps, please contact DELTA customer support.

8. PRODUCT SPECIFICATIONS

Feature	Specification
Model Number	W0060
Color	Textured White (1349)
Material	Strong & sturdy wood construction
Assembled Dimensions (W x H x D)	25.25 inches x 11 inches x 0.75 inches
