CAR PASS ZT-0010

CAR PASS Leather Seat Covers Instruction Manual

Model: ZT-0010

PRODUCT OVERVIEW

The CAR PASS Leather Seat Covers are designed to provide enhanced comfort and protection for your vehicle's interior. Crafted from high-quality leather with 3D foam back support, these universal fit seat covers are suitable for various vehicle types including SUVs, Sedans, and Vans. They are engineered for durability, water resistance, and feature an airbag-compatible design for safety.

Key Features:

- **Colorful & Sport Design:** High-quality leather and 3D foam back support add fashion and luxury.
- **Universal Fit:** Semi-customized design with hook-and-loop attachments and straps for a snug fit in most vehicles.
- **Airbag Compatible:** Special stitching allows for airbag deployment, ensuring safety.
- **Great Support by the Foam:** Provides comfort and reduces driving fatigue.
- **Full Coverage:** Protects both front and back of vehicle seats from all angles.

PACKAGE CONTENTS

The CAR PASS Leather Seat Covers Full Set typically includes the following components:

- 2 Front Seat Covers (backrest and seat base)
- 1 Rear Backrest Cover (split or solid, depending on vehicle configuration)
- 1 Rear Seat Base Cover (split or solid, depending on vehicle configuration)
- 5 Headrest Covers
- Installation Hardware (hooks, buckles, elastic straps)

COMPATIBILITY

These seat covers are designed for universal fit, accommodating most vehicles including SUVs, Sedans, and Vans. Key compatibility features include:

- Airbag compatible design with special stitching for safe deployment.
- Suitable for vehicles with detachable headrests.
- Accommodates split bench and solid bench rear seats.
- Designed to allow access to seat belts and cup holders where applicable.

SETUP AND INSTALLATION

Follow these steps for proper installation of your CAR PASS Leather Seat Covers. For a visual guide, please refer to the installation video below.

Front Seat Installation:

1. **Prepare the Seat:** Ensure the seat is clean and free of debris. Remove any items from seat pockets.
2. **Install Backrest Cover:** Slide the backrest cover over the top of the seat back. Ensure the airbag-compatible side is correctly aligned (usually marked with an "AIRBAG" tag). Smooth out any wrinkles.
3. **Secure Backrest:** Pull the bottom of the backrest cover through the gap between the seat back and seat base. Secure the elastic straps and buckles underneath the seat.
4. **Install Seat Base Cover:** Place the seat base cover over the seat cushion. Push the foam anchors through the gap between the seat back and seat base to secure the cover.
5. **Secure Seat Base:** Connect the elastic straps and buckles from the seat base cover underneath the seat, ensuring a snug fit.
6. **Install Headrest Cover:** Place the headrest cover over the headrest. Secure it using the hook-and-loop fasteners or elastic band at the bottom.

Figure 4: Front seat covers installed, demonstrating the fit and appearance.

Rear Seat Installation:

1. **Prepare the Seat:** Clean the rear seat area. If your rear seat folds down, do so for easier access.
2. **Install Rear Seat Base Cover:** Place the rear seat base cover over the bottom cushion. Push the foam anchors through the gaps to secure it. Connect any straps or buckles underneath the seat.
3. **Install Rear Backrest Cover:** Drape the backrest cover over the rear seat back. Ensure proper alignment, especially if your seat has a split-fold feature or an armrest.
4. **Secure Rear Backrest:** Use the straps and buckles to secure the backrest cover. For split-fold seats, ensure the zippers or fasteners allow independent folding. If there's a middle armrest, unzip the designated section and secure it around the armrest.
5. **Install Rear Headrest Covers:** Place the remaining headrest covers over the rear headrests and secure them.

OPERATING INSTRUCTIONS

Once installed, the CAR PASS Leather Seat Covers function as a protective and aesthetic layer for your vehicle's original upholstery. No specific operational steps are required beyond regular use of your vehicle's seats.

- Ensure all straps and buckles remain securely fastened to prevent shifting during use.
- Verify that seat belt buckles and any seat adjustment levers are easily accessible and not obstructed by the covers.
- For rear seats with split-fold functionality, ensure the zippers are properly aligned and can be opened/closed as needed.

MAINTENANCE

Proper care will extend the life and appearance of your CAR PASS Leather Seat Covers.

- **Cleaning:** For general cleaning, wipe the surface with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners, as these can damage the leather material.
- **Spills:** Immediately blot any spills with a clean, dry cloth to prevent staining.
- **Drying:** Allow the covers to air dry completely. Do not use direct heat sources like hair dryers.
- **Avoid Sharp Objects:** Prevent contact with sharp objects that could puncture or tear the material.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Seat covers do not fit snugly.	Improper installation; straps not tightened sufficiently; vehicle seat type not ideal for universal fit.	Re-adjust and tighten all straps and buckles. Ensure foam anchors are pushed deep into the seat gaps. Verify your vehicle's seat type against the compatibility guide.
Wrinkles or creases in the material.	New product; improper stretching during installation.	Over time, the material may relax and conform to the seat shape. Gently smooth out wrinkles by hand. Ensure the cover is stretched evenly during installation.
Rear armrest or seat belt access is obstructed.	Incorrect alignment of the rear seat cover.	Ensure the rear seat cover's zippers or openings are correctly aligned with your vehicle's features. Adjust the cover to allow full access.
Airbag tag is not visible or aligned.	Incorrect orientation of the front seat cover.	Ensure the front seat covers are installed with the "AIRBAG" tag facing outwards towards the door, indicating the correct side for airbag deployment.
