Homnoble Gris 2pcs

Homnoble Pickle Jar User Manual

Model: Gris 2pcs | Brand: Homnoble

INTRODUCTION

Thank you for choosing the Homnoble Pickle and Olive Hourglass Jar. This innovative food storage solution is designed to simplify the process of accessing and preserving your favorite pickled foods, such as pickles, olives, and more. Its unique hourglass design effectively separates solids from liquids, ensuring your food remains fresh and crisp while preventing sogginess. This manual provides detailed instructions for the proper use, care, and maintenance of your new jar.

PRODUCT COMPONENTS

The Homnoble Pickle Jar consists of several key components designed for optimal functionality and ease of use:

- **Glass Body:** Made from lead-free high borosilicate glass, providing durability and clear visibility of contents.
- **ABS Lid:** A sturdy, BPA-free plastic lid for secure sealing.
- **Waterproof Silicone Ring:** Ensures an airtight and leakproof seal when the lid is closed.
- **Silicone Filter (Strainer):** A flexible, soft silicone component that separates the upper and lower compartments, allowing liquid to drain.
- **Silicone Non-slip Pad:** Located at the bottom of the jar for stability and to prevent slipping.

SETUP AND FIRST USE

1. **Unpack:** Carefully remove all components from the packaging.
2. **Initial Cleaning:** Before first use, wash all parts of the jar (glass body, lid, silicone ring, silicone filter, and non-slip pad) with warm soapy water. Rinse thoroughly and allow to air dry completely. The jar is also dishwasher safe for convenience.
3. **Assemble:** Ensure the silicone filter is properly seated in the middle section of the glass body. Place the silicone ring securely inside the lid.

OPERATING INSTRUCTIONS

The Homnoble Pickle Jar is designed for easy separation of wet and dry ingredients, keeping your food fresh and accessible.

1. **Fill the Jar:** Open the lid and place your desired food items (e.g., pickles, olives, jalapenos) into the main compartment of the glass jar. Pour the brine or liquid into the same compartment. The wide mouth design (8.5cm/3.4 inches) makes filling easy.
2. **Secure the Lid:** Place the lid firmly onto the jar and twist to ensure a tight, leakproof seal. The food-grade silicone ring inside the lid helps maintain freshness and prevents leaks.
3. **Store Upright:** For long-term storage, keep the jar upright in your refrigerator, open cabinets or window displays. In this position, the food remains submerged in the liquid, preserving its freshness.

4. **Separate Liquid for Serving:** When you are ready to serve, simply flip the jar upside down. The unique hourglass design and silicone filter will allow the liquid to drain into the lower compartment, leaving your food items dry and easy to retrieve from the upper compartment.
5. **Retrieve Food:** Once the liquid has drained, open the lid and easily pick out your desired food items without getting your hands wet or dealing with excess brine.
6. **Return to Brine:** After serving, flip the jar back to its original upright position. The liquid will flow back over the remaining food items, ensuring they continue to soak in the brine and stay fresh for longer. Re-secure the lid if it was opened.

MAINTENANCE AND CLEANING

Proper cleaning and maintenance will ensure the longevity and hygiene of your Homnoble Pickle Jar.

- **Dishwasher Safe:** The glass body and all components are dishwasher safe. For best results, place them on the top rack of your dishwasher.
- **Hand Washing:** If hand washing, use warm soapy water and a soft sponge or brush. The wide mouth opening makes it easy to clean the interior thoroughly.
- **Silicone Ring:** The silicone ring is removable for easy and thorough cleaning. Ensure it is properly re-seated in the lid after cleaning to maintain the airtight seal.

TROUBLESHOOTING

Issue	Possible Cause	Solution
-------	----------------	----------

Issue	Possible Cause	Solution
Lid is difficult to open or cracks	Over-tightening the lid; material stress.	Avoid excessive force when tightening the lid. Ensure the silicone ring is properly seated. If the lid is damaged, contact customer support for a replacement.
Jar does not hold a full standard jar of pickles/olives	Product capacity limitations; size of food items.	The jar has an upper capacity of 23.7oz (700ml) and a lower capacity of 10.5oz (310ml). Large or very tall food items may not fit entirely. Consider cutting larger items or using multiple jars.
Liquid leaks from the jar	Lid not properly sealed; silicone ring misplaced or damaged.	Ensure the lid is tightly screwed on. Check that the silicone ring is correctly positioned and free from damage. Replace the silicone ring if necessary.

SPECIFICATIONS

Feature	Detail
Brand	Homnoble
Model Number	Gris 2pcs
Product Dimensions	8.07"L x 5.2"W x 5"H
Material	Borosilicate Glass, BPA-Free PP Plastic, Silicone
Upper Capacity	23.7 oz (700 ml)
Lower Capacity	10.5 oz (310 ml)
