

M2 31500-HS36

Instruction Manual for M2 1966 Chevy Corvette 427 Diecast Model Car

Model: 31500-HS36

INTRODUCTION

This instruction manual provides essential information for the care and display of your new M2 1966 Chevy Corvette 427 #68 Red with White Stripes and Graphics diecast model car. This limited edition 1/64 scale model is a detailed replica designed for collectors and enthusiasts. Please read this manual carefully to ensure proper handling and longevity of your model.

PRODUCT OVERVIEW

This image shows the M2 1966 Chevy Corvette 427 diecast model car in red with white stripes and graphics. The hood is open, revealing engine details. The car is displayed on a black base with a textured surface, and a label on the base indicates '1966 Chevrolet Corvette 427 HS36'.

The M2 1966 Chevy Corvette 427 diecast model is a meticulously crafted collectible. It features a die-cast metal body and chassis, real rubber tires, and an opening hood that reveals detailed engine components. Each model

comes in its manufacturer's original unopened packaging and includes a plastic display showcase for protection and presentation.

SETUP

- Unboxing:** Carefully remove the model car from its blister pack and original packaging. Ensure all components, including the plastic display showcase, are present.
- Placement:** Place the diecast model car onto the included plastic display showcase. The showcase is designed to protect the model from dust and damage while allowing for clear viewing.
- Display Location:** Choose a stable, flat surface for display, away from direct sunlight, extreme temperatures, and high humidity to preserve the model's finish and integrity.

OPERATING FEATURES

Your M2 diecast model car is designed with several interactive features:

- Opening Hood:** The hood of the model can be carefully opened to reveal the detailed engine bay. Handle with care to avoid damage to the hinges or paintwork.
- Real Rubber Tires:** The model is equipped with real rubber tires, providing an authentic look and feel.
- Rolling Wheels:** The wheels are designed to roll, allowing for gentle movement of the model.

MAINTENANCE AND CARE

To maintain the pristine condition of your diecast model, follow these care guidelines:

- Cleaning:** Use a soft, dry microfiber cloth to gently wipe away dust from the model. For stubborn dirt, slightly dampen the cloth with water only. Avoid harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the paint or decals.
- Handling:** Always handle the model by its body or base. Avoid touching delicate parts such as mirrors, antennas, or small accessories, as they can be fragile.
- Storage:** When not on display, keep the model in its original packaging or the included display showcase to protect it from dust and accidental damage.

TROUBLESHOOTING

Diecast models are generally robust, but minor issues can occur. Here are some common concerns and their resolutions:

- Loose Parts:** If a small part becomes loose, it may be reattached using a small amount of model-specific adhesive, if appropriate. Exercise caution and consult a professional if unsure.
- Dust Accumulation:** Regular gentle dusting with a soft cloth is the best prevention. For dust in crevices, a soft brush or compressed air (used carefully from a distance) can be effective.
- Paint Damage:** Avoid dropping or striking the model. Minor paint chips are generally not repairable without specialized tools and paints.

SPECIFICATIONS

Feature	Detail
---------	--------

Feature	Detail
Product Dimensions	3 x 1 x 1 inches
Item Model Number	31500-HS36
Manufacturer	M2
Recommended Age	8 years and up
