

## KEMEI KM-2296

# KEMEI KM-2296 Professional Cordless Hair Clipper User Manual

This manual provides detailed instructions for the safe and effective use, maintenance, and troubleshooting of your KEMEI KM-2296 Professional Cordless Hair Clipper.

### IMPORTANT SAFETY INFORMATION

- **Do not use on wet hair.** This product is designed for dry hair use only.
- Keep out of reach of children.
- Ensure the device is fully charged before first use.
- Do not immerse the clipper in water.
- Unplug the clipper before cleaning.
- Use only the provided charging cable and base.

### PRODUCT OVERVIEW

The KEMEI KM-2296 Professional Cordless Hair Clipper is designed for smooth, sharp, and precise performance. It features a self-sharpening blade for long-lasting sharpness and a powerful electromagnetic motor for efficient operation.

### Package Contents

- KEMEI KM-2296 Hair Clipper
- 8 Limit Combs (3/6/9/13/16/19/22/25mm)
- Cleaning Brush
- Charging Base
- USB Charger
- Instruction Manual (this document)

An image showing the KEMEI KM-2296 hair clipper, its charging base, USB charging cable, cleaning brush, and eight different sized guide combs ranging from 3mm to 25mm.

## SETUP

### Charging the Clipper

Before first use, fully charge the clipper. The built-in 2500mAh lithium-ion battery provides up to 350 minutes of runtime after approximately 3.5 hours of charging. You can charge the clipper directly via the USB cable or by placing it on the charging base.

# **R-type obtuse angle design**

## **Does not hurt the skin**

The KEMEI KM-2296 hair clipper is shown on its black charging base, connected via a USB cable. Text indicates 'Charging 3.5h' and 'Working 350mins', highlighting its battery life and charging time.

This video provides a visual overview of the KEMEI KM-2296 Professional Hair Clipper, demonstrating its components, how to turn it on, adjust the blade lever, and connect it to the charging base or directly via USB.

## **OPERATING INSTRUCTIONS**

### **Attaching Guide Combs**

Select the desired guide comb (3mm, 6mm, 9mm, 13mm, 16mm, 19mm, 22mm, or 25mm) based on the hair length you wish to achieve. Align the comb with the clipper blade and push it firmly until it clicks into place.

The KEMEI KM-2296 hair clipper is displayed alongside a full set of eight black guide combs, each labeled with its corresponding length in millimeters (3mm, 6mm, 10mm, 13mm, 16mm, 19mm, 22mm, 25mm). A hand demonstrates attaching a comb to the clipper.

## Adjusting Blade Length

The clipper features an adjustable blade lever, allowing for fine-tuning of the cutting length from 0.1mm to 4mm without a guide comb. Move the lever up or down to select your preferred cutting length.

# Sharp knife head

A close-up image of the KEMEI KM-2296 hair clipper's adjustable blade head, illustrating the cutter head adjustment range of 0.1-4mm with arrows indicating movement. The image also highlights a 'three-stage adjustment' feature.

## Hair Cutting Techniques

Ensure hair is clean and dry before cutting. For best results, start with a longer guide comb and gradually switch to shorter ones if needed. Move the clipper against the direction of hair growth for an even cut. Use a comb to lift hair and guide the clipper for precise styling.

This video demonstrates the KEMEI KM-2296 hair clipper in use, showing various hair cutting techniques, including fading and detailing, performed by a professional barber. It highlights the clipper's performance during a haircut.

## MAINTENANCE AND CLEANING

### Cleaning the Blades

After each use, turn off the clipper and remove any attached guide comb. Use the provided cleaning brush to remove loose hair from the blades. The blade can be rinsed directly under water without disassembly for easy cleaning. Ensure the clipper is completely dry before storing or recharging.

**Metallurgical blade**

**Strong power**

**Fast charging**

**R-type obtuse angle**

**No hair clips**

**Charging available**

The KEMEI KM-2296 hair clipper is shown with a small white cleaning brush being used to clear debris from its blades, demonstrating the ease of cleaning.

### **Blade Care**

The clipper is equipped with a precise, self-sharpening metallurgical blade designed to maintain sharpness over time. The R-type obtuse angle design ensures safety and prevents skin irritation during use.

# Adjustable knife head

Cutter head adjustment range 0.1-4mm

Three-stage adjustment

A close-up image highlighting the R-type obtuse angle design of the clipper blade, which is designed to prevent skin irritation.

## TROUBLESHOOTING

### Common Issues and Solutions

If the clipper does not turn on, ensure it is fully charged. If the cutting performance is reduced, clean the blades thoroughly and ensure no hair is obstructing the mechanism. If issues persist, refer to the manufacturer's support contact information.
