Miuara 24x18 Single Bowl

Miuara 24-Inch White Fireclay Farmhouse Kitchen Sink Instruction Manual

Model: 24"x18" White Single Bowl | Part Number: MH-241810-M

1. INTRODUCTION

This manual provides essential information for the installation, operation, care, and maintenance of your Miuara 24-inch White Fireclay Farmhouse Kitchen Sink. Crafted from fine natural fireclay and fired at over 2600°F for 26 hours, this sink features a solid core construction for superior strength and durability. It is highly resistant to impact, thermal shock, cracks, and scratches, ensuring long-lasting performance in your kitchen or laundry area.

2. PRODUCT FEATURES

- **Fine Fireclay Construction:** Made from natural fireclay, fired at extreme temperatures for exceptional hardness and sturdiness. The solid core construction provides superior strength, making it highly resistant to impact, thermal shock, cracks, and scratches.
- **Stain-Resistant, Glazed Surface:** Features an ultra-fine Italian glaze, resulting in a super glossy and smooth finish. This thick porcelain glaze is durable and resistant to high temperatures, scratches, and stains, ensuring the sink retains its pure white color for decades without fading or yellowing.
- **Easy to Clean:** The smooth surface prevents food residue from adhering. R10 arc corners allow for easy cleaning with a sponge or cloth, ensuring thorough hygiene.
- **Engineered Drainage System:** Designed with a flat bottom gently sloped towards the center drain. This design ensures dishes stand sturdy without slipping, while facilitating efficient water flow to prevent pooling.
- **Spacious 18" Deep Design:** With dimensions of 10 inches high and 18 inches deep, this sink offers ample space for washing large pots, pans, and barbecues without splashing.

- **Heat Resistant:** Fired at 2600 degrees, the fireclay material provides strong heat resistance, withstanding high temperatures from hot water and cookware without cracking or damage.
- **Reversible Design:** Both the front and back of the apron sink feature a smooth glaze, offering flexibility in installation.

3. INCLUDED COMPONENTS

Your Miuara Farmhouse Sink package includes the following items:

- Fireclay Farmhouse Sink (1PC)
- Customized Stainless Steel Bottom Grid (1PC)
- Kitchen Sink Strainer Kit (1 Set)
- User Manual

SINK DIMENSION

Min. Cabinet Size: 21" Deep, 27" Wide

Fireclay sinks may vary in size by up to 1/4 inch,
We recommend using the actual sink to measure
and trace countertop cutouts.

Image 6: Material advantages of Fireclay.

4. DIMENSIONS AND INSTALLATION REQUIREMENTS (SETUP)

Careful planning and adherence to these dimensions are crucial for a successful installation.

- **External Dimensions:** 18"D x 23.75"W x 10"H
- **Internal Dimensions:** 16.5"D x 22.25"W x 9"H
- **Minimum Base Cabinet Size:** 27 inches wide (left to right), 21 inches deep (front to back).
- **Garbage Disposer:** Compatible with 3.5-inch garbage disposers. Due to the sink's 3/4 inch thick bottom, a deep flange is required for garbage disposal installation.

Note: Fireclay sinks may vary slightly in size (up to 1/4 inch). It is recommended to use the actual sink to measure and trace countertop cutouts for precise installation.

Engineered for Better Draining

The bottom of the sink is slightly inclined to the middle to form an X-flowing water, allowing kitchen waste water to flow smoothly into the drain pipe to prevent stagnation.

Easy Clean Superior Material

The ultimate quality gives you an ultra-durable and long-lasting experience. Non-porous surface resists discoloration and fading. Easy to clean and durable.

5. CARE AND MAINTENANCE

To maintain the pristine condition and longevity of your Miura Fireclay Farmhouse Sink, follow these care instructions:

- **Regular Cleaning:** For best results, clean your sink with a soft, dry, or damp cloth or sponge. Wipe down the sink with soap and water regularly to keep it clean and functional.
- **Avoid Harsh Cleaners:** Do NOT use cleaners containing bleach, abrasive chemicals, steel wool, wire brushes, or abrasive sponge pads, as these can damage the glazed surface.
- **Use Bottom Grid:** Utilize the customized stainless steel bottom grid to protect the sink surface from potential impacts or drops from heavy cookware. This also elevates dishes for faster drying.

MATERIAL ADVANTAGES
