1. INTRODUCTION

The Rossetta Galaxy Projector, Star Projector 2.0, is a versatile 4-in-1 device combining a projector, nightlight lamp, white noise machine, and music player. It creates an extraordinary audio-visual experience with 14 vibrant colors, shining stars, and mesmerizing nebula clouds, bringing the vast starry night sky indoors. This device is designed to enhance relaxation and ambiance in any room.

2. WHAT'S IN THE BOX

Please check the package contents to ensure all items are present:

- 1 x Rossetta Star Projector
- 1 x Remote Control
- 1 x USB C Cable
- 1 x Stand
- 1 x User Manual (this document)

3. SAFETY INFORMATION

- Read all instructions before use.
- Keep the device away from water or moisture.
- Do not disassemble or attempt to repair the device yourself.

- Use only the provided USB C cable for power.
- Avoid direct eye exposure to the laser light.
- Ensure proper ventilation; do not cover the device.
- This product is FCC, RoHS, and CE certified for safety.

4. SETUP

1. **Unpack:** Carefully remove all components from the packaging.
2. **Place the Stand:** Position the stand on a stable, flat surface.
3. **Mount the Projector:** Place the Rossetta Star Projector onto the stand. The stand is designed to hold the projector securely and allow for optimal projection angles.
4. **Connect Power:** Insert the USB C cable into the projector's power port and connect the other end to a compatible 5V DC power adapter (not included) or a USB port.
5. **Power On:** Press the power button on the device or the remote control to turn on the projector.

5. OPERATING INSTRUCTIONS

The Rossetta Galaxy Projector can be controlled via the included remote control or a compatible mobile application (refer to the app's instructions for pairing). Below are the primary functions:

5.1 Remote Control Functions

Remote Control and Timer

Easily adjust lighting effects, music and timer through the remote

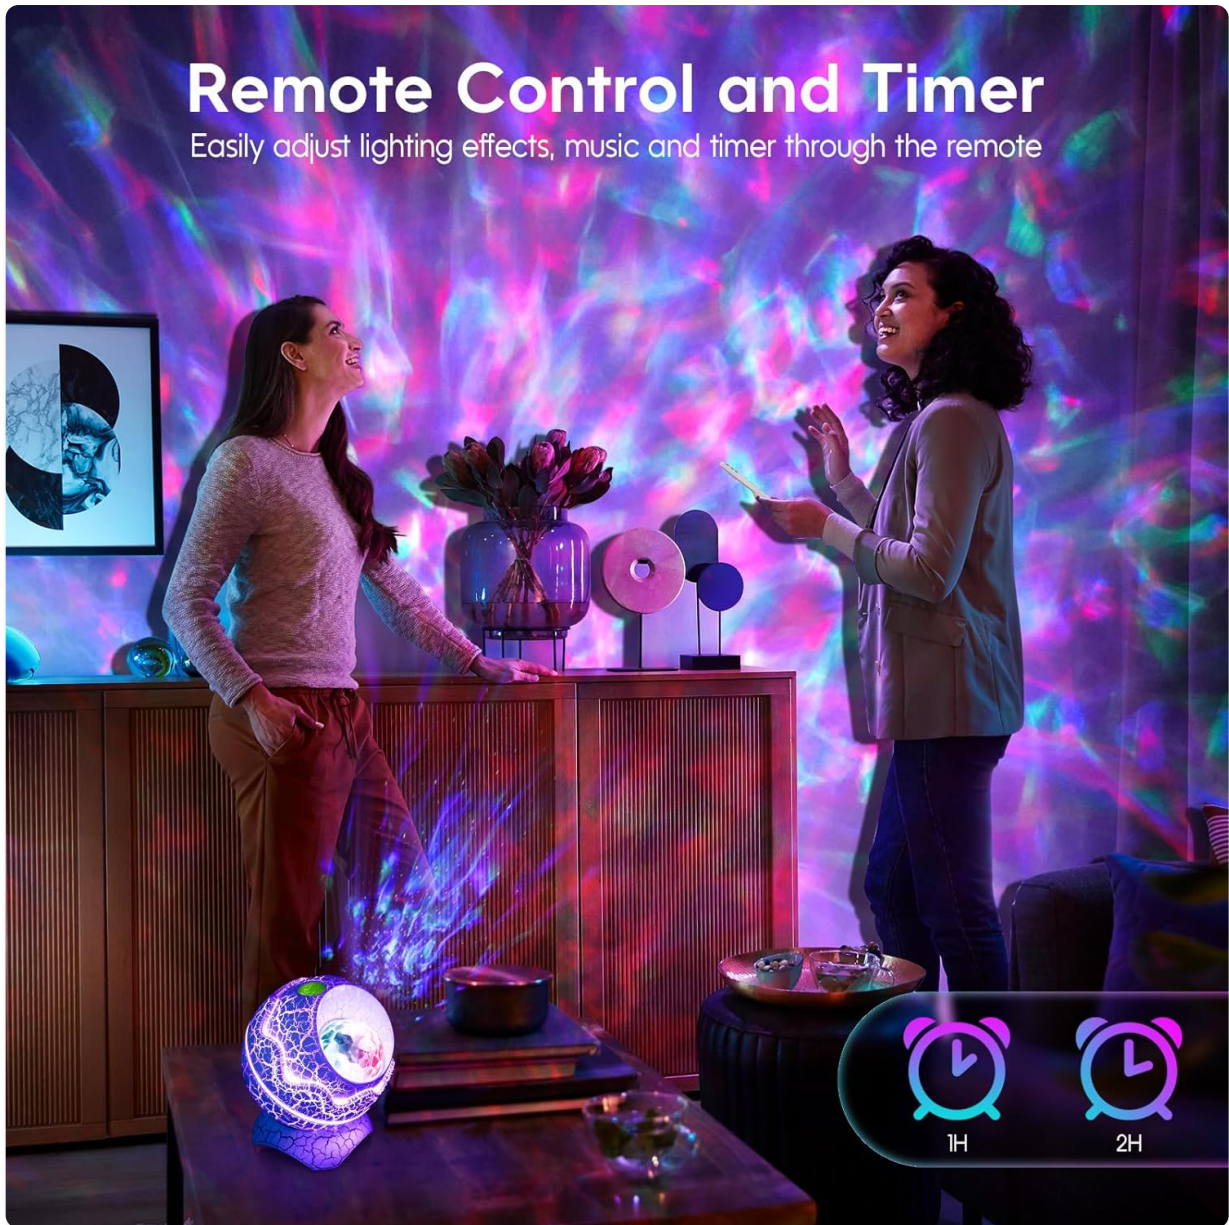

Image: The remote control for the Rossetta Galaxy Projector, showing buttons for power, nebula/star control, color selection, volume, track control, brightness, speed, voice control, and timer settings.

- **Power Button:** Turns the device on/off.
- **Nebula/Star Control:** Activate or deactivate the nebula and star projections independently.
- **Color Selection (R, G, B, W):** Choose individual colors (Red, Green, Blue, White) or combine them to create 14 vibrant color modes.
- **Brightness Adjustment:** Adjust the projection brightness (4 settings).
- **Speed Control:** Adjust the movement speed of the nebula (4 settings).
- **Music Selection/Volume:** Control music playback (play/pause, skip tracks) and adjust volume.
- **Voice Control:** Activate sound-activated mode where lights flash and change with music rhythm or clapping.
- **Timer Settings:** Set an auto-off timer for 1 or 2 hours. The device automatically powers off after 4 hours if no timer is set.

5.2 White Noise Sound Machine

Soothing White Noise Sounds

Night light creates a peaceful atmosphere and better sleeping experience

Soothing music White noise Brook Ocean wave Thunder Heavy rain Summer night Dinosaur

Image: A graphic illustrating the 10 white noise sounds available on the Rossetta Galaxy Projector, including soothing music, white noise, brook, ocean wave, thunder, heavy rain, summer night, and dinosaur sounds.

The projector includes 10 popular white noise sounds designed for relaxation and sleep. Use the remote control to select and cycle through these sounds.

5.3 Bluetooth 5.1 Speaker

Image: The Rossetta Galaxy Projector highlighting its Bluetooth 5.1 speaker capability, with a smartphone displaying a music app.

Connect your device via Bluetooth 5.1 to play music through the projector. The lights can synchronize with the music for an immersive experience.

6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the projector. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use, store the device in a cool, dry place away from direct sunlight.
- **Lens Care:** Keep the projection lens clean to ensure clear and vibrant projections.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not power on.	No power connection or faulty cable.	Ensure the USB C cable is securely connected and the power source is active. Try a different USB port or adapter.

Problem	Possible Cause	Solution
No projection or dim lights.	Brightness setting is too low or lens is dirty.	Increase brightness using the remote. Clean the projection lens with a soft cloth.
Bluetooth not connecting.	Device is out of range or not in pairing mode.	Ensure your device's Bluetooth is on and within range. Put the projector in pairing mode (refer to remote instructions).
Remote control not working.	Batteries are low or line of sight is blocked.	Replace remote batteries. Ensure no obstructions between remote and projector.
