

Klipsch R-50PM

Klipsch R-50PM Powered Speakers User Manual

Model: R-50PM

INTRODUCTION

Thank you for purchasing the Klipsch R-50PM Powered Speakers. These speakers are designed to deliver high-fidelity audio with powerful performance and versatile connectivity options. This manual provides detailed instructions for setting up, operating, and maintaining your speakers to ensure optimal performance and longevity.

IMPORTANT SAFETY INSTRUCTIONS

- Read these instructions.
- Keep these instructions.
- Heed all warnings.
- Follow all instructions.
- Do not use this apparatus near water.
- Clean only with a dry cloth.
- Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- Only use attachments/accessories specified by the manufacturer.
- Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
- Unplug this apparatus during lightning storms or when unused for long periods of time.
- Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

PACKAGE CONTENTS

Your Klipsch R-50PM Powered Speakers package should include the following items:

- Klipsch R-50PM Primary Powered Speaker
- Klipsch R-50PM Secondary Speaker
- Remote Control
- Power Cord
- Speaker Cable (for connecting primary to secondary speaker)
- USB-B to USB-A Cable
- Optical Cable
- RCA Cable

PRODUCT OVERVIEW

The Klipsch R-50PM speakers feature a robust design with a 5.25-inch copper-spun TCP woofer and a 1-inch aluminum LTS tweeter paired with a Tractrix horn for clear, dynamic sound. The primary speaker houses all the necessary inputs and controls.

Image: Front view of the Klipsch R-50PM Powered Speakers with their protective grilles removed, revealing the distinctive copper-colored woofers and black Tractrix horn tweeters.

Image: Front view of the Klipsch R-50PM Powered Speakers with their magnetic grilles attached, presenting a sleek, all-black appearance.

Image: Rear panel of the primary Klipsch R-50PM speaker, displaying various input ports including USB, Optical, AUX, Phono/Line, and a subwoofer output, along with the volume/source knob and power input.

Image: The remote control for the Klipsch R-50PM speakers, featuring buttons for power, volume, input selection (SUB, AUX, PHONO, USB, OPT), Bluetooth pairing, and playback controls.

SETUP

Speaker Placement

For optimal sound, place the speakers on a stable surface, equidistant from your listening position. Ensure there is adequate space behind the speakers for the rear-firing ports to function effectively. The primary speaker (with inputs) should be placed on the side where your audio sources are most accessible.

Connecting the Speakers

1. Connect the included speaker cable from the "SECONDARY SPEAKER OUT" port on the primary speaker to the input terminals on the secondary speaker. Ensure correct polarity (+ to + and - to -).
2. Connect the power cord to the primary speaker and then to a wall outlet.

Connecting Audio Sources

The R-50PM speakers offer multiple input options:

- **Bluetooth:** Press the Bluetooth button on the remote or the source knob on the primary speaker until the Bluetooth indicator lights up. Pair with your device from its Bluetooth settings.
- **Optical (Digital In):** Connect an optical cable from your TV or digital audio source to the "OPTICAL" input.
- **USB (Digital In):** Connect a USB-B to USB-A cable from your computer to the "USB AUDIO" input.
- **RCA (Analog In):** Use an RCA cable to connect devices like CD players or media streamers to the "ANALOG INPUT" (Line).
- **Phono (Analog In):** For turntables with a built-in pre-amp, connect to the "ANALOG INPUT" (Phono). Ensure the PHONO/LINE switch is set to PHONO. If your turntable does not have a built-in pre-amp, you will need an external phono pre-amp.
- **AUX (3.5mm):** Connect portable devices using a 3.5mm stereo cable to the "AUX" input.

Connecting a Subwoofer

For enhanced bass, connect an active subwoofer to the "SUB OUT" port on the primary speaker using a single RCA cable. The speakers will automatically adjust their low-frequency output when a subwoofer is detected.

OPERATION

Power On/Off

Press the power button on the remote control or the volume/source knob on the primary speaker to turn the speakers on or off.

Input Selection

Cycle through the available inputs by pressing the source knob on the primary speaker or using the dedicated input buttons (Bluetooth, AUX, USB, OPT, PHONO) on the remote control.

Volume Control

Adjust the volume using the volume up/down buttons on the remote or by rotating the volume/source knob on the primary speaker.

Bluetooth Pairing

To pair a new Bluetooth device, select the Bluetooth input. If no device is connected, the indicator will flash. On your device, search for "Klipsch R-50PM" and select it to pair. Once paired, the indicator will glow solid.

Remote Control Functions

- **Power Button:** Turns speakers on/off.
- **LED:** Toggles the front LED indicator on/off.
- **Volume Up/Down:** Adjusts master volume.
- **Mute:** Mutes/unmutes audio.
- **SUB +/-:** Adjusts subwoofer output level (if connected).
- **Playback Controls:** Play/Pause, Skip Forward, Skip Backward (for Bluetooth and USB audio).
- **Input Selection:** Dedicated buttons for AUX, PHONO, USB, OPT, Bluetooth.

MAINTENANCE

To keep your Klipsch R-50PM speakers in excellent condition:

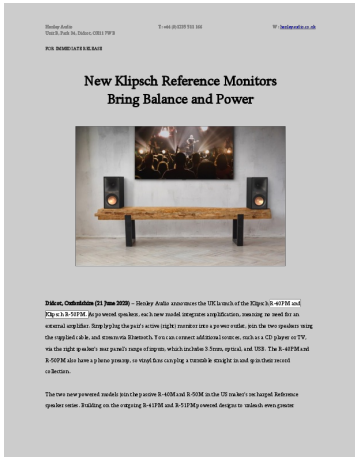

- **Cleaning:** Use a dry, soft cloth to clean the speaker cabinets. Avoid using abrasive cleaners or solvents.
- **Grilles:** The magnetic grilles can be removed for cleaning or to expose the drivers. Handle them carefully to avoid damage.
- **Dust:** Regularly dust the drivers and ports to prevent accumulation that could affect sound quality.
- **Environment:** Avoid exposing the speakers to extreme temperatures, humidity, or direct sunlight.

TROUBLESHOOTING

Problem	Possible Cause / Solution
No power	Ensure the power cord is securely connected to both the speaker and a working wall outlet. Check if the power outlet is active.
No sound	Verify the correct input source is selected. Check volume level on both speakers and source device. Ensure speaker cable connecting primary and secondary speakers is secure and correctly polarized. If using optical/USB, check source device's audio output settings.
Bluetooth not connecting	Ensure speakers are in Bluetooth pairing mode (flashing LED). Forget "Klipsch R-50PM" from your device's Bluetooth list and try pairing again. Move device closer to speakers. Turn off and on both speakers and Bluetooth device.
Distorted sound	Reduce volume on both speakers and source device. Check audio cables for damage or loose connections. Ensure source audio is not overdriven.

SPECIFICATIONS

Feature	Detail
Model Name	R-50PM
Speaker Type	Bookshelf, Powered
Woofer Diameter	5.25 Inches
Tweeter	1-inch Aluminum LTS with Tractrix Horn
Speaker Maximum Output Power	100 Watts
Connectivity Technology	Bluetooth, Optical, USB, RCA (Phono/Line), 3.5mm AUX
Product Dimensions	10.8"D x 7"W x 14"H
Item Weight	30 Pounds (total for pair)
Color	Black
