Masko 5-Drawer Workshop Trolley (ASIN: B01MQO7ADL)

Masko 5-Drawer Workshop Trolley Instruction Manual

Model: 5-Drawer Workshop Trolley (ASIN: B01MQO7ADL)

1. Introduction

Thank you for choosing the Masko 5-Drawer Workshop Trolley. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your new workshop trolley. Please read these instructions carefully before use and keep them for future reference.

Figure 1: Masko 5-Drawer Workshop Trolley. This image shows the overall design of the black workshop trolley with its five drawers and side handle.

2. Safety Instructions

Always observe the following safety precautions to prevent injury or damage to the product:

- **Weight Capacity:** Do not overload the trolley beyond 150 kg (330 lbs). Distribute weight evenly across drawers and the top surface.
- **Stability:** Ensure the trolley is on a level surface before opening multiple drawers. Opening too many loaded drawers simultaneously can cause the trolley to tip over.
- **Moving Parts:** Be aware of moving wheels and drawers. Keep hands and fingers clear to avoid crushing or trapping hazards.
- **Brakes:** Always engage the parking brakes on the swivel wheels when the trolley is stationary to prevent unintended movement.
- **Children and Pets:** Keep children and pets away from the trolley, especially during assembly and when drawers

are open.

- **Assembly:** Assemble the trolley according to the instructions. Ensure all screws and fasteners are securely tightened.
- **Maintenance:** Regularly inspect the trolley for any signs of wear or damage. Do not use if damaged.

3. Package Contents

Carefully unpack all components and check against the list below. If any parts are missing or damaged, contact customer support.

- Workshop Trolley Body (1x)
- Wheels (4x - 2 fixed, 2 swivel with brakes)
- Side Handle (1x)
- Keys for Central Lock (2x)
- Anti-slip Mats for Drawers (5x)
- Assembly Hardware (screws, washers, nuts)
- Instruction Manual (this document)

Figure 2: Package contents and dimensions overview. This image illustrates the trolley's dimensions, the included keys, anti-slip mats, and the 360-degree swivel wheels.

4. Setup and Assembly

Assembly is required for the wheels and side handle. Follow these steps:

1. **Prepare the Trolley:** Carefully place the trolley body upside down on a soft, stable surface to avoid scratching the finish.
2. **Attach Wheels:**
    - Identify the two fixed wheels and the two swivel wheels with parking brakes.
    - Attach the fixed wheels to one end of the trolley's base using the provided screws, washers, and nuts.
    - Attach the swivel wheels with brakes to the opposite end of the trolley's base. Ensure the brakes are easily accessible.
    - Tighten all fasteners securely with appropriate tools (not included).

3. **Attach Side Handle:**
    - Position the side handle onto the designated mounting points on one side of the trolley.
    - Secure the handle using the provided screws and tighten them firmly.
4. **Insert Anti-slip Mats:** Once the trolley is upright, place one anti-slip mat into each of the five drawers.

5. Operating Instructions

5.1 Using the Drawers

The trolley features five spacious drawers designed for organized tool storage. Each drawer is equipped with ball-bearing slides for smooth operation.

- **Opening Drawers:** Gently pull the drawer handle to open. The ball-bearing slides ensure smooth and easy extension.
- **Closing Drawers:** Push the drawer firmly until it is fully closed.
- **Anti-slip Mats:** The included anti-slip mats prevent tools from sliding around and rattling during movement.

Figure 3: Drawer mechanism. This image highlights the smooth-gliding, ball-bearing drawer slides for easy opening and closing.

Figure 4: Organized storage. This image shows the five drawers, with some open to display tools neatly arranged within the anti-slip mats.

5.2 Locking Mechanism

The trolley features a central locking system to secure all drawers simultaneously.

- **Locking:** Insert one of the provided keys into the lock located on the top right side of the trolley. Turn the key clockwise to lock all drawers. Remove the key.
- **Unlocking:** Insert the key and turn it counter-clockwise to unlock the drawers.
- Keep the spare key in a safe place.

Figure 5: Central locking system. This image shows the key inserted into the central lock, which secures all drawers for protection against unintended access.

5.3 Mobility and Brakes

The trolley is designed for easy movement within your workspace.

- **Moving the Trolley:** Use the side handle to push or pull the trolley. The two swivel wheels allow for easy maneuverability.
- **Engaging Brakes:** When the trolley is in the desired position, press down on the levers of the parking brakes located on the two swivel wheels to secure the trolley in place.
- **Releasing Brakes:** Lift the levers of the parking brakes to release them before moving the trolley.

6. Maintenance

Regular maintenance ensures the longevity and optimal performance of your workshop trolley.

- **Cleaning:** Wipe down the trolley's surfaces with a damp cloth and mild detergent. Avoid abrasive cleaners that

could damage the finish.

- **Drawer Slides:** Periodically check the ball-bearing slides for smooth operation. If they become stiff, apply a small amount of silicone lubricant.
- **Wheels:** Inspect the wheels for debris or damage. Clean them as needed. Ensure the wheel fasteners remain tight.
- **Lock:** Ensure the lock mechanism operates smoothly. Do not force the key if it feels stiff.
- **Fasteners:** Periodically check all screws and nuts for tightness and re-tighten if necessary.

7. Troubleshooting

If you encounter any issues with your Masko Workshop Trolley, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Drawers are stiff or difficult to open/close.	Accumulated dirt in slides; lack of lubrication; overloaded drawer.	Clean drawer slides and apply silicone lubricant. Reduce drawer load.
Trolley is unstable or tips easily.	Uneven load distribution; trolley on an uneven surface; multiple drawers open.	Distribute weight evenly. Move trolley to a level surface. Close all but one drawer when accessing tools.
Wheels do not roll smoothly.	Debris caught in wheels; loose wheel fasteners.	Clean wheels of any obstructions. Tighten wheel fasteners.
Central lock does not engage/disengage.	Key not fully inserted; mechanism jammed; drawers not fully closed.	Ensure key is fully inserted. Check that all drawers are completely closed. Do not force the key.

If the problem persists after attempting these solutions, please contact Masko customer support.

8. Specifications

Feature	Detail
Brand	Masko
Model	5-Drawer Workshop Trolley (ASIN: B01MQO7ADL)
Color	Black
Material	Steel Alloy, Metal
Overall Dimensions (approx. L x W x H)	78 cm x 33.5 cm x 74.5 cm (with wheels and handle)
Drawer Dimensions (Internal, approx. L x W x H)	51 cm x 27.7 cm x 10 cm
Maximum Load Capacity	150 kg
Special Features	Anti-slip mats, Compact, Portable, Durable, Central locking, Ball-bearing drawer slides, 2 fixed and 2 swivel wheels with brakes.
