## INTRODUCTION

---

This manual provides instructions for the Casio Edifice ECB-950DC-1AEF men's watch. This timepiece features a black circular stainless steel case, a black steel band, and a dark gray dial. It combines analog and digital displays, powered by solar energy, and includes various functions such as a stopwatch, timer, alarm, and Bluetooth connectivity.

## SETUP

---

### Initial Charging

The watch is equipped with a solar power system. Before initial use, expose the watch face to bright light (natural sunlight is ideal) for several hours to ensure it is sufficiently charged. Avoid covering the watch face for extended periods to maintain optimal power levels.

### Time Setting and Synchronization

The ECB-950DC-1AEF supports Smartphone Link via Bluetooth Smart for easy time synchronization. Download the official Casio EDIFICE Connected app to your smartphone. Follow the app's instructions to pair your watch and automatically adjust the time, including world time settings and daylight saving time.

Manual time adjustment is also possible. Refer to the detailed instructions in the full user manual for specific button operations to set the time and date manually.

### Strap Adjustment

The stainless steel bracelet can be adjusted to fit your wrist. This typically involves removing or adding links. While it can be done with basic tools (a thin stiff piece of wire and pliers), it is recommended to have this procedure performed by a qualified jeweler or watch technician to prevent damage to the band or watch.

## **OPERATION**

---

### **Basic Timekeeping**

The watch displays time in both analog and digital formats. The analog hands show the current hour and minute, while the digital display provides additional information such as seconds, date, and other function readouts.

### **Stopwatch Function**

The integrated stopwatch measures elapsed time with high precision. It includes a lap memory function capable of storing up to 200 lap records. Consult the full manual for instructions on starting, stopping, resetting, and recalling lap times.

### **Timer Function**

The watch features a countdown timer, adjustable in 1-minute increments up to 24 hours. This is useful for various timed activities.

### **Alarm Clock**

Set up to five independent daily alarms. Each alarm can be configured to sound at a specific time, providing reminders throughout the day.

### **Phone Locator**

When connected to your smartphone via Bluetooth, the watch can activate an audible alert on your phone, helping you locate it if it's misplaced within range.

### **Flight Log Memory**

This feature allows you to record time and location data, useful for travel and tracking flight information. Details on how to activate and use this function are in the comprehensive manual.

### **Neon Display**

The watch incorporates a neon display for enhanced readability in low-light conditions. This feature illuminates the dial and digital display.

### **Water Resistance**

The ECB-950DC-1AEF is water-resistant up to 10 ATM (100 meters). This makes it suitable for swimming and snorkeling, but not for scuba diving. Do not operate buttons while the watch is wet or submerged.

## MAINTENANCE

---

### Cleaning

Regularly wipe the watch case and band with a soft, dry cloth to remove dirt and moisture. For stainless steel bands, a slightly damp cloth can be used, followed by a dry cloth. Avoid using chemical cleaners or abrasive materials.

### Power Management

As a solar-powered watch, ensure it receives adequate light exposure. If the watch is stored in darkness for extended periods, its power reserve may deplete, affecting functionality. Place it in a well-lit area periodically to recharge. The watch contains a rechargeable Lithium Metal battery that is charged by the solar panel.

### Water Resistance Precautions

While water-resistant, avoid exposing the watch to hot water, steam, or sudden temperature changes, which can

compromise the seals. After exposure to saltwater, rinse the watch with fresh water and dry it thoroughly.

## TROUBLESHOOTING

- **Watch not displaying correct time:** Ensure the watch is sufficiently charged by exposing it to light. Check Bluetooth connection with the smartphone app for automatic time adjustment. If manual adjustment is preferred, refer to the full manual for specific steps.
- **Bluetooth connection issues:** Ensure your smartphone's Bluetooth is enabled and the Casio EDIFICE Connected app is running. Check if the watch is in pairing mode. Move closer to your smartphone to reduce interference.
- **Display is dim or blank:** This indicates a low power reserve. Expose the watch to bright light for an extended period to recharge.
- **Buttons are unresponsive:** Ensure the watch is not in a locked mode. If the watch was recently exposed to water, ensure it is completely dry before operating buttons.

For more detailed troubleshooting or issues not covered here, please refer to the comprehensive user manual available on the Casio website or contact Casio customer support.

## SPECIFICATIONS

Feature	Detail
Model Number	ECB-950DC-1AEF
Brand	Casio Edifice
Movement Type	Solar Powered (Automatic)
Display Type	Analog and Digital
Case Material	Stainless Steel
Band Material	Stainless Steel
Case Diameter	51.2 mm
Case Thickness	14 mm
Band Width	24 mm
Crystal Type	Mineral
Water Resistance	10 ATM (100 Meters)
Weight	169 Grams
Additional Features	Bluetooth Smart, Stopwatch (200 lap memory), Timer (24h), 5 Alarms, Phone Locator, Flight Log Memory, Neon Display, Calendar

## WARRANTY & SUPPORT

---

Casio watches typically come with a manufacturer's warranty covering defects in materials and workmanship. The specific terms and duration of the warranty may vary by region. Please refer to the warranty card included with your purchase or visit the official Casio website for detailed warranty information.

For customer support, service, or to find authorized service centers, please visit the official Casio website or contact their customer service department. When contacting support, have your watch model number (ECB-950DC-1AEF) and purchase information readily available.
