Nimiko Nimiko candles

Nimiko Flameless LED Candles with Remote Control

Model: Nimiko candles

A set of Nimiko Flameless LED Candles in various sizes, showcasing their warm glow and realistic appearance.

PRODUCT OVERVIEW

The Nimiko Flameless LED Candles offer a safe and convenient alternative to traditional candles, featuring realistic flickering effects and remote control functionality. Made from durable plastic, these candles are designed for indoor decorative use.

- **Realistic Design:** Utilizes new technology to simulate a flickering flame with a 3D wick for a lifelike appearance.
- **Remote Control:** Includes a multi-function remote for easy operation, even in hard-to-reach areas.
- **Timer Function:** Offers 2-hour, 4-hour, 6-hour, and 8-hour timer options that cycle every 24 hours.
- **Safe & Harmless:** Flameless operation eliminates fire hazards, making them suitable for households with children and pets.
- **Decorative Versatility:** Ideal for various occasions and settings, including holidays, weddings, and everyday home decor.

SETUP INSTRUCTIONS

1. Battery Installation

Each Nimiko flameless candle requires one (1) AA battery (not included). To install:

1. Locate the battery compartment cover at the bottom of the candle.
2. Twist or slide the cover to open.
3. Insert one AA battery, ensuring the positive (+) and negative (-) terminals align correctly with the markings inside the compartment.
4. Replace the battery compartment cover securely.

Image illustrating the battery compartment and proper insertion of a single AA battery into a Nimiko flameless candle.

2. Remote Control Preparation

The remote control typically comes with a small plastic tab to prevent battery drain during shipping. Remove this tab before first use. The remote uses a button cell battery (usually CR2025 or CR2032).

OPERATING INSTRUCTIONS

Your Nimiko Flameless LED Candles are operated using the included remote control. Ensure the candles have batteries installed and the remote control is ready for use.

Remote Control Functions:

Button	Function
ON	Turns all candles on.
OFF	Turns all candles off.
2H / 4H / 6H / 8H	Sets the timer for the specified duration. Candles will automatically turn off after the set time and turn on again at the same time the next day.
Candle (Flicker)	Activates the realistic flickering flame mode.
Light (Steady)	Activates the steady light mode (non-flickering).
DIM -	Decreases the brightness of the candles.
DIM +	Increases the brightness of the candles.

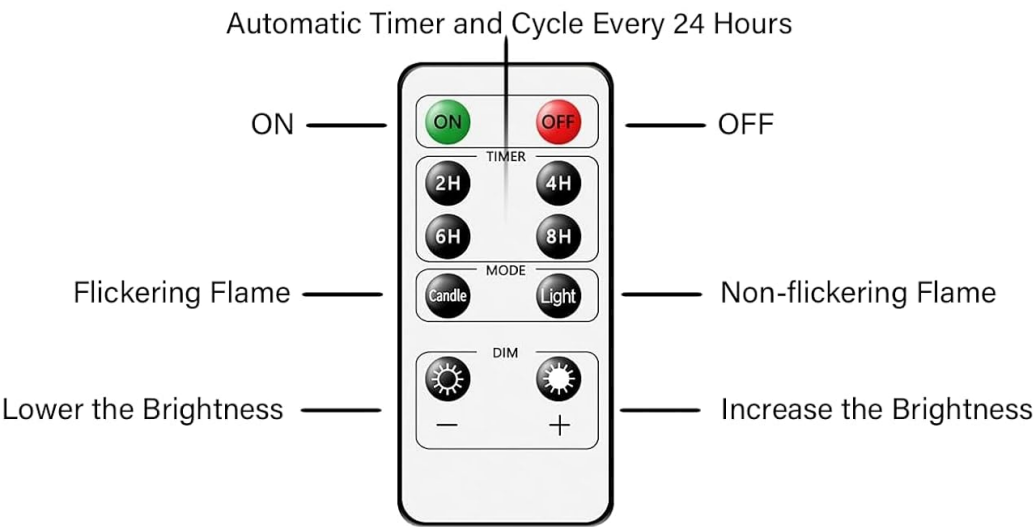

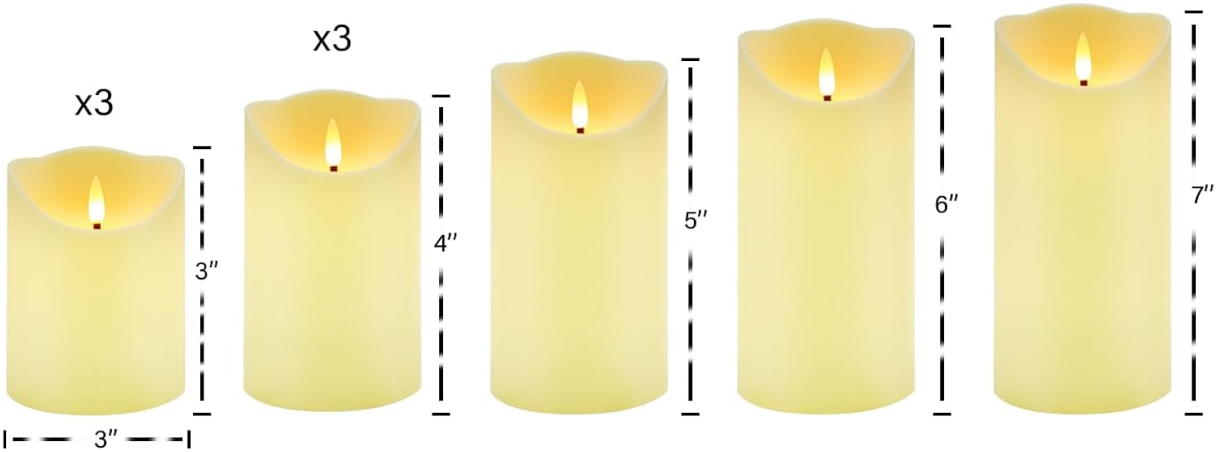

Illustration detailing the buttons and functions of the remote control, along with the various dimensions of the candles in the set.

Tips for Remote Use:

- Point the remote directly at the candles for optimal response.

- The remote can control individual candles or groups of candles depending on proximity and line of sight.
- When setting a timer, the candles will activate daily at the time the timer was initially set.

MAINTENANCE

Battery Replacement:

When the candle light dims significantly or stops responding to the remote, it's time to replace the AA battery. Follow the battery installation steps outlined in the Setup section.

Cleaning:

Wipe the candles with a soft, dry cloth to remove dust. Do not use abrasive cleaners or immerse in water, as the candles are not waterproof.

Storage:

If storing the candles for an extended period, remove the batteries to prevent leakage and damage to the battery compartment.

TROUBLESHOOTING

- **Candle does not turn on:** Check if the AA battery is installed correctly and has sufficient charge. Ensure the remote control has a working battery and is pointed directly at the candle.
- **Remote control not working:** Verify the remote control's battery is functional and correctly inserted. Remove any plastic tabs if it's new. Ensure there are no obstructions between the remote and the candles.
- **Flickering is inconsistent:** This may indicate low battery power in the candle. Replace the AA battery.
- **Candles melt or deform:** These candles are made of plastic and are not designed for high-temperature environments. Avoid placing them in direct sunlight or near heat sources. They are not waterproof.

SPECIFICATIONS

Feature	Detail
Brand	Nimiko
Model Number	Nimiko candles
Color	Ivory
Material Type	Acrylic, Plastic, Resin
Power Source	Battery Powered (1 AA battery per candle)
Light Source Type	LED
