## PETULTRA DU4LB-KY

# PETULTRA Automatic Cat Feeder

## USER MANUAL

### Introduction

This manual provides comprehensive instructions for the PETULTRA Automatic Cat Feeder (Model: DU4LB-KY). Designed for convenience and pet well-being, this feeder ensures your cat or small to medium-sized dog receives precise, timed meals. Please read this manual thoroughly before operation to ensure proper setup and use.

### Safety Information

#### Important Safety Precautions:

- Use only dry kibble between 0.07 to 0.4 inches (2-10mm) to prevent clogging.
- Do not use wet food or freeze-dried food that is not kibble-sized.
- Ensure the desiccant bag is replaced regularly to maintain food freshness.
- Keep the feeder on a stable, level surface.
- Do not immerse the main unit in water. Detachable parts are washable.
- For uninterrupted operation, use both the power adapter and D-size batteries.

### What's in the Box

- Automatic cat feeder unit
- Stainless Steel Bowl
- User Manual (this document)
- Power Cord
- Power Adapter

- Desiccant Bag

## Product Overview & Features

The PETULTRA Automatic Cat Feeder is designed with convenience and pet health in mind. Key features include:

- **Timer Programmable:** Dispenses food precisely at scheduled times, up to 6 meals daily and 20 portions per meal.
- **Anti-Clogging Design:** Double rotor design, wide-angle, and 40-degree sloped food passage ensure smooth grain flow.
- **Dual Power Mode:** Operates via power adapter or 3xD-size batteries (not included) for uninterrupted feeding.
- **Safe and Reliable:** Features a desiccant bag and secure lock lid to keep food fresh and prevent pet access. 4L capacity.
- **Easy to Clean:** Fully detachable design for hassle-free cleaning and maintenance.

## Setup

### 1. Assemble the Feeder:

Attach the stainless steel bowl to the main unit. The bowl slides onto the pegs located at the base of the feeder.

Figure 4: The stainless steel bowl attaches to the main unit.

### 2. Power Supply:

Connect the power adapter to the feeder and plug it into a wall outlet. For backup power, insert 3xD-size batteries (not included) into the battery compartment at the bottom of the unit. It is recommended to use both power sources for uninterrupted operation.

Figure 5: Dual power supply for reliable operation.

### 3. Fill the Food Tank:

Open the lid by twisting it counter-clockwise. Pour dry kibble into the transparent food tank. Ensure kibble size is between 2-10mm. Place the desiccant bag into its compartment in the lid to keep food fresh, then secure the lid by twisting clockwise.

# Ensure Your Pet Never Misses a Meal

No worry whenever and wherever you are

## 3. Manual Feeding:

To dispense food manually, ensure the screen is unlocked. Press the "FEED" button (down arrow) once. This will dispense one portion of food. You can press it multiple times for more portions.

## Maintenance

Regular cleaning ensures hygiene and extends the life of your feeder.

### 1. Disassembly:

Unplug the feeder. Remove the food tank by twisting and lifting. Detach the stainless steel bowl from its base. The bowl can be separated from its black plastic holder for thorough cleaning.

# Keep Your Pet Fed Wherever You Are Maintaining Programme Feeding

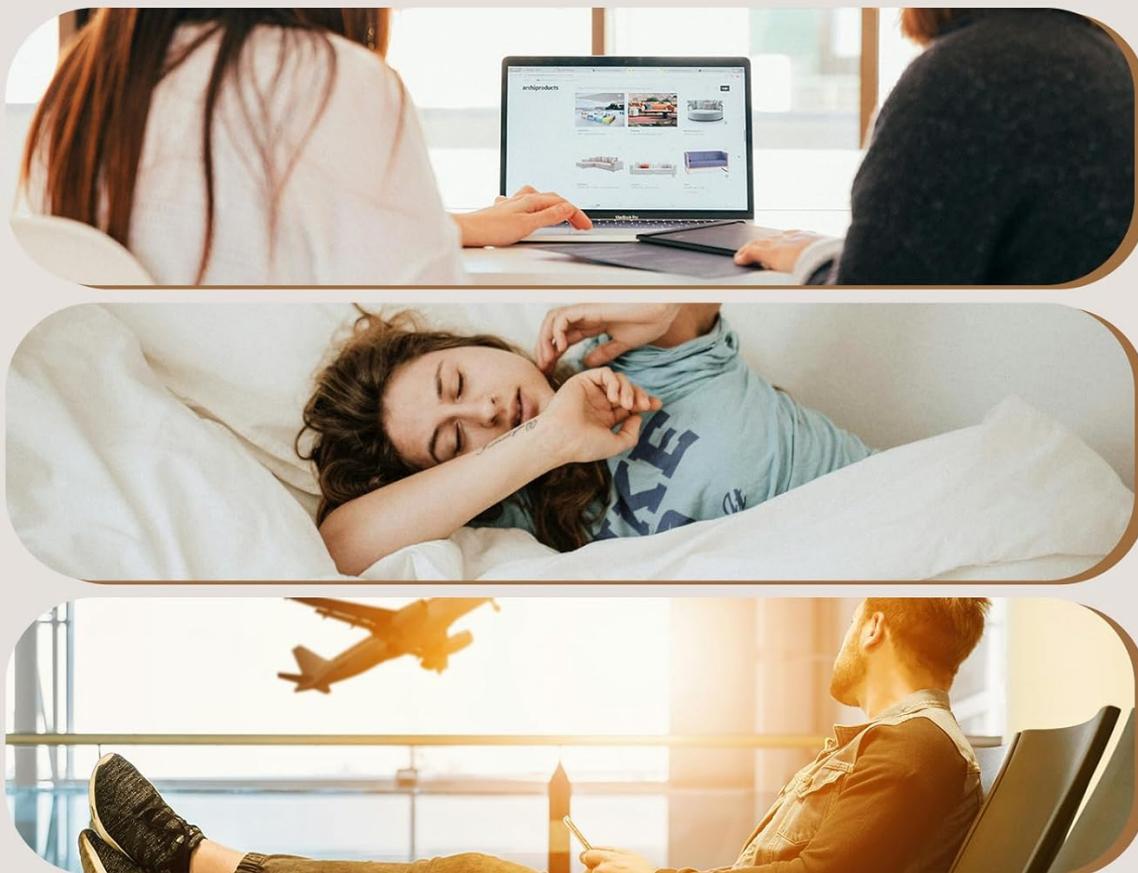

Figure 8: Detachable parts for easy cleaning.

## 2. **Cleaning:**

Wash the food tank, lid, and stainless steel bowl with mild soap and water. Rinse thoroughly and dry completely before reassembly. The main unit should only be wiped clean with a damp cloth; do not immerse in water.

## 3. **Desiccant Bag Replacement:**

Replace the desiccant bag every 2-4 weeks, or as needed, to maintain food freshness.

## Troubleshooting

Problem	Possible Cause	Solution
Feeder not dispensing food.	No power; clogged food passage; incorrect settings.	Check power connection/batteries. Clear any food blockages. Verify feeding schedule and portion settings.

Problem	Possible Cause	Solution
Food getting stuck.	Kibble size too large; moisture in food.	Use recommended kibble size (2-10mm). Ensure desiccant bag is fresh.
Display screen is off.	No power; batteries drained.	Check power adapter connection. Replace D-size batteries.
Settings change unexpectedly.	Screen not locked.	Ensure screen is locked after programming by holding the unlock button for 3 seconds.
