Maintenance

Proper maintenance ensures the longevity and hygiene of your cat tree:

- **Regular Cleaning:** Please clean the cat tree regularly to remove pet hair and dust. A vacuum cleaner with a brush attachment is recommended.
- **Washable Mats:** All soft mats and the top lounge cushion are fixed with Velcro, making them easily removable for cleaning and washing. Hand wash or machine wash on a gentle cycle with mild detergent. Air dry thoroughly before reattaching.
- **Material Care:** Maintain the wooden and sisal materials carefully. Avoid harsh chemicals that could damage the surfaces or be harmful to your pet.

Troubleshooting

If you encounter any issues with your cat tree, consider the following common solutions:

- **Instability:** Ensure all screws are tightened. If the tree still wobbles, check that it is placed on a perfectly flat surface.
- **Cat Not Using It:** Cats may need time to adjust. Try placing treats or familiar toys on the tree. Some cats prefer catnip to encourage exploration.
- **Damaged Sisal:** Over time, sisal may fray. This is normal wear and tear. If severely damaged, consider replacing the affected post or wrapping it with new sisal rope.
- **Missing Parts:** If any parts were missing upon delivery, please contact customer support with your purchase details.
