SiFENE AMR8824

SiFENE Cold Press Juicer Machine

USER MANUAL

1. Introduction

Thank you for choosing the SiFENE Cold Press Juicer Machine. This appliance is designed to extract juice from various fruits and vegetables efficiently, preserving nutrients and flavor through its slow masticating technology. Please read this manual thoroughly before operation to ensure safe and optimal use of your juicer.

2. Important Safety Information

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury.

- Read all instructions carefully before operating the juicer.
- Do not immerse the motor base in water or other liquids.
- Ensure all parts are correctly assembled and the safety locking system is engaged before turning on the appliance.

The juicer will not operate unless all parts are securely in place.

- Keep hands and utensils out of the feed chute during operation to prevent injury. Always use the food pusher provided.
- Unplug the juicer from the outlet when not in use, before assembling or disassembling parts, and before cleaning.
- Do not operate the juicer with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- All removable parts are made from non-BPA materials, ensuring safety for your family.
- The flap gate design enhances safety by reducing direct hand contact with the juicer during feeding.
- This juicer operates quietly, at under 60 decibels, providing a calm environment during use.

3. Product Components

Familiarize yourself with the parts of your SiFENE Cold Press Juicer:

1. Food Pusher
2. Dual Feed Chute (83mm wide and 32mm smaller chute)
3. Juicing Bowl
4. Auger (Masticating Screw)
5. Strainer
6. Pulp Outlet
7. Juice Outlet with Smart Juice Cap
8. Motor Base with Control Panel (FWD, REV, ON/OFF buttons)
9. Pulp Container
10. Juice Container
11. Cleaning Brush

4. Setup and Assembly

Follow these steps to assemble your juicer before first use:

1. Place the motor base on a stable, flat surface.
2. Insert the juicing bowl onto the motor base, aligning the red dot on the bowl with the red dot on the base, then turn clockwise until it clicks into place.
3. Place the strainer into the juicing bowl.
4. Insert the auger into the center of the strainer, pushing down firmly until it is seated.
5. Attach the dual feed chute assembly onto the juicing bowl, aligning the marks and twisting clockwise until it locks securely. Ensure the safety locking system is engaged.
6. Position the pulp container under the pulp outlet and the juice container under the juice outlet.
7. Ensure the smart juice cap is closed before juicing to prevent spills.

Less Oxidation

5. Operating Instructions

Prepare your ingredients and begin juicing:

1. Wash all fruits and vegetables thoroughly.
2. For most fruits and vegetables, the 83mm wide feed chute can accommodate whole items, reducing the need for chopping. For long or strip-shaped vegetables, use the 32mm smaller chute.
3. **Caution:** Avoid juicing extremely hard items like whole lemons (with peel), large seeds, or frozen fruits, as this may damage the machine.
4. Plug the juicer into a power outlet.
5. Press the **ON/OFF** button to start the juicer.
6. Slowly feed ingredients into the appropriate feed chute. Use the food pusher only when necessary to guide ingredients.
7. The juicer operates in **FWD (Forward) Mode** at a low speed (60 RPM) to minimize heat buildup and oxidation, preserving nutrients.
8. If ingredients become jammed, press the **REV (Reverse) Mode** button for a few seconds to clear the blockage, then switch back to FWD.
9. Once juicing is complete, press the **ON/OFF** button to turn off the juicer and unplug it.
10. Open the smart juice cap to release any remaining juice into the container.

Dual Mouth

for whole fruits and long vegetables.

6. Maintenance and Cleaning

Proper cleaning ensures the longevity and hygiene of your juicer:

1. Always unplug the juicer before cleaning.
2. Disassemble all removable parts (feed chute, juicing bowl, auger, strainer, containers).
3. Rinse all removable parts under running water.
4. All removable parts are dishwasher compatible for convenience. Alternatively, they can be easily cleaned with warm, soapy water using the provided cleaning brush to remove pulp residue from the strainer.
5. Wipe the motor base with a damp cloth. **Never immerse the motor base in water.**
6. Allow all parts to dry completely before reassembling or storing.

7. Troubleshooting

If you encounter issues with your juicer, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Juicer does not turn on.	Not properly assembled; not plugged in; power outage.	Ensure all parts are correctly assembled and locked. Check power connection. Verify power supply.

Problem	Possible Cause	Solution
Low juice yield or wet pulp.	Ingredients too hard or fibrous; feeding too quickly.	Ensure ingredients are suitable for juicing. Feed ingredients slowly. Use the REV function if clogging occurs.
Juicer stops during operation.	Overload protection activated; ingredients jammed.	Turn off and unplug. Clear any jammed ingredients using the REV function. Allow motor to cool if it was running for an extended period.
Excessive noise or vibration.	Improper assembly; hard ingredients.	Reassemble parts correctly. Ensure ingredients are not too hard for the juicer.

8. Specifications

Feature	Detail
Brand	SIFENE
Model Name	AMR-8824
Product Dimensions	8.66"D x 6.3"W x 21.26"H
Capacity	800 Milliliters
Maximum Power	250 Watts
Voltage	120 Volts
Blade Material	Stainless Steel
Number of Speeds	3
Dishwasher Safe Parts	Yes (All removable parts except motor base)
Special Features	Safe to Use, BPA Free, High-power Quiet DC Motor, Cold Press Technology, Whole Fruit Processing, Easy to Clean & Easy to Assemble
Item Weight	13.27 pounds
UPC	744784913438

9. Warranty and Customer Support

SiFENE is committed to customer satisfaction. While specific warranty details are not provided in this manual, we stand behind the quality of our product.
