› Raybee Heavy Duty Clothes Rack with 4 Drawers (Model 4D1H-1) - Instruction Manual

Raybee 4D1H-1

Raybee Heavy Duty Clothes Rack with 4 Drawers

MODEL: 4D1H-1

Brand: Raybee

Introduction

Thank you for choosing the Raybee Heavy Duty Clothes Rack with 4 Drawers. This freestanding garment rack is designed to provide ample storage and organization for your clothing and accessories in various spaces such as bedrooms, laundry rooms, or basements. Its sturdy metal construction and adjustable shelves offer a versatile and efficient storage solution. Please read this manual carefully before assembly and use to ensure proper installation and safe operation.

Safety Information

- Ensure all parts are securely fastened before placing items on the rack.
- Do not exceed the maximum weight capacity of 450 pounds.
- Distribute weight evenly across the hanging rod and shelves to prevent tipping.
- Keep small parts away from children during assembly.
- Avoid climbing or hanging on the rack.
- Place the rack on a flat, stable surface.

Package Contents

Please verify that all components are present before beginning assembly:

- **A:** Top Wire Shelf (1)

- **B:** Bottom Wire Shelf (1)
- **C:** Lower Vertical Poles (4)
- **D:** Upper Vertical Poles (4)
- **E:** Hanging Rod (1)
- **F:** Plastic Clips (Multiple pairs)
- **H:** Hanging Rod Brackets (2)
- **I:** Screws for Brackets (2)
- **K:** Fabric Drawers (4)
- **L:** Drawer Handles (4)
- **M:** Screws for Handles (8)
- Screwdriver (1)

Setup and Assembly

Assembly is designed to be straightforward and typically takes less than 10 minutes. Follow these steps carefully:

1. **Assemble Lower Poles:** Connect the four lower vertical poles (C) to the bottom wire shelf (B). Ensure the gap in the collar faces down.
2. **Attach Clips:** Place plastic clips (F) at the desired height on the lower poles (C) for the bottom wire shelf (B). Ensure all clips are at the same height.
3. **Install Bottom Shelf:** Slide the bottom wire shelf (B) over the lower poles (C) until it rests securely on the plastic clips. Ensure each shelf is installed in place.
4. **Connect Upper Poles:** Attach the upper vertical poles (D) to the top of the lower vertical poles (C).
5. **Attach Clips for Top Shelf:** Place plastic clips (F) at the desired height on the upper poles (D) for the top wire shelf (A). Ensure all clips are at the same height.
6. **Install Top Shelf:** Slide the top wire shelf (A) over the upper poles (D) until it rests securely on the plastic clips. Ensure each shelf is installed in place.
7. **Install Hanging Rod:** Attach the hanging rod brackets (H) to the hanging rod (E) using the screws (I). Then, secure the hanging rod assembly to the underside of the top wire shelf (A).
8. **Assemble Drawers:** For each fabric drawer (K), insert the bottom panel and attach the handle (L) using the provided screws (M) and screwdriver.
9. **Place Drawers:** Insert the assembled fabric drawers (K) into the designated spaces on the rack.

Operating Instructions

- **Using the Hanging Rod:** Hang suits, coats, pants, shirts, or other heavy clothes on the metal hanger rod. Ensure items are distributed to prevent overloading one side.
- **Utilizing Drawers:** The four fabric drawers are ideal for storing small accessories, folded garments, or privacy items. They are designed for easy push and pull access.
- **Adjusting Shelves:** The wire shelves can be adjusted to different heights to accommodate varying clothing lengths or storage needs. To adjust, remove items, detach the clips, reposition them at the desired height, and re-secure the shelf.

Maintenance

- **Cleaning:** Wipe down metal surfaces with a soft, damp cloth. For fabric drawers, spot clean with a mild detergent and air dry. Avoid harsh chemicals.
- **Inspection:** Periodically check all connections and fasteners to ensure they remain tight and secure.
- **Weight Distribution:** Always ensure weight is distributed evenly to maintain stability and prevent damage to the rack.

Troubleshooting

- **Rack is Unstable:** Check that all poles are fully inserted into the shelves and all plastic clips are correctly positioned and locked. Ensure the rack is on a level surface.
- **Shelves are Uneven:** Verify that all plastic clips for a given shelf are set at the same height on each pole.
- **Drawers Not Sliding Smoothly:** Ensure the drawers are correctly inserted and not overloaded. Check for any obstructions beneath or around the drawers.
- **Missing Parts:** If any parts are missing or damaged, please contact Raybee customer support for assistance.
