## VOVIGGOL G103

# VOVIGGOL Wireless Microphone Headset G103 Instruction Manual

Model: G103

## 1. OVERVIEW

The VOVIGGOL G103 Wireless Microphone Headset provides clear, distortion-free audio with 2.4GHz wireless connectivity and a range of up to 165 feet (50 meters). Designed for versatility, it features a 2-in-1 design allowing use as a headset or handheld microphone, along with 3D stage reverb effects. Its rechargeable battery offers up to 6 hours of use, making it suitable for various applications such as fitness instruction, public speaking, and video recording.

## 2. PACKAGE CONTENTS

Ensure all items are present in the package:

- 1 x Wireless Microphone Headset
- 1 x Wireless Transmitter
- 1 x 6.35mm Connector
- 1 x Dual Type-C Charging Cable
- 1 x User Manual

## 3. SETUP INSTRUCTIONS

### 3.1 Charging the Device

Use the provided dual Type-C charging cable to charge both the wireless transmitter and receiver simultaneously. A full charge typically takes 2-3 hours and provides approximately 6 hours of continuous use.

## 6 HOURS LONG BATTERY LIFE

Built-in 120mAh rechargeable battery provides 6 hours of use on only a 2-hour charge.

## UPGRADED MIC

High-sensitivity pickup head, easy to achieve fidelity sound quality, restore human voice.

Figure 2: Battery life and microphone details

### 3.2 Connecting to an Audio System

1. **Power On:** Turn on the power switch of both the wireless transmitter (headset) and the receiver. The blue indicator light on both devices will flash for 1-2 seconds.
2. **Automatic Pairing:** The devices will automatically pair. The blue indicator light will stop flashing once a successful match is established. No further manual pairing is required.
3. **Connect Receiver:** Plug the receiver directly into the MIC input jack of your audio system (e.g., Speaker, Singing Machine, Audio Amplifier, PA System, Mixer, Voice Amplifier). Use the appropriate 3.5mm plug audio line or 6.35mm connector as needed.

**Important: Ensure you connect the receiver to a MIC Jack, not an AUX Jack, otherwise there will be no sound. This is NOT a Bluetooth microphone.**

# WIDE COMPATIBILITY

Suitable for a variety of 3.5mm/6.35mm MIC jack audio, power amplifier sound reinforcement equipments.

## 4. OPERATING INSTRUCTIONS

### 4.1 Wearing the Headset

Place the headset comfortably over your ears with the microphone positioned near your mouth. The lightweight design ensures a secure fit during movement.

### 4.2 2-in-1 Functionality (Headset/Handheld)

The microphone can be used in two ways:

- **Headset Mode:** Use as a traditional headset microphone.
- **Handheld Mode:** Remove the head bracket to convert it into a handheld microphone.

### 4.3 Adjusting Volume and Reverb Effects

The headset features volume control buttons. To activate the 3D Stage Reverb Effect, press the “+” and “-” volume keys on the headset simultaneously. This feature enhances vocal quality, making the sound more three-dimensional.

## 3D STAGE REVERB EFFECTS

Press the "+-" volume keys at the same time to turn on the stage reverb effect. The stage reverb effect can intelligently beautify the human voice and make the sound more three-dimensional.

Figure 4: Activating 3D Stage Reverb Effects

### 4.4 Wireless Range

The wireless system offers a stable signal with anti-interference capabilities, providing a control distance of up to 165 feet (50 meters). This allows for freedom of movement during use.

# 164FT/50m LONG WIRELESS RANGE

Stable signal, strong anti-interference ability, loud sound and no distortion.

## 5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the microphone and receiver. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the device regularly, even if not in use for extended periods.

## 6. TROUBLESHOOTING

- **No Sound:** Ensure the receiver is plugged into a **MIC Jack**, not an AUX Jack. Verify both the transmitter and receiver are powered on and successfully paired (blue light solid). Check the volume levels on both the headset and your audio system.
- **Connection Issues:** The system connects automatically. If connection fails, power off both devices, then power them back on to re-initiate pairing. Ensure devices are within the 165ft (50m) operating range.
- **Compatibility:** This wireless microphone system is compatible with devices that have a 3.5mm or 6.35mm MIC input jack. It is **NOT compatible** with Bluetooth Speakers, iPhones, PCs, or Laptops.
- **Short Battery Life:** Ensure the device is fully charged (2-3 hours for 6 hours of use). Battery performance may degrade over time with extensive use.
