VEVOR Compost Spreader 24 inches

VEVOR Compost Spreader User Manual

Model: Compost Spreader 24 inches

INTRODUCTION

Thank you for choosing the VEVOR Compost Spreader. This manual provides essential information for the safe assembly, operation, and maintenance of your new compost spreader. Please read it thoroughly before use and retain it for future reference.

SAFETY INFORMATION

To ensure safe operation and prevent injury or damage, please observe the following safety guidelines:

- Always wear appropriate protective gear, including gloves and safety glasses, when handling and spreading materials.

- Be cautious of sharp objects and potential hazards within the materials being spread.
- Keep the spreader clean and dry when not in use to prevent the growth of harmful microorganisms.
- Do not use the spreader on excessively uneven or slippery surfaces to prevent loss of control and potential accidents.
- Always follow local regulations and guidelines for handling and disposing of compost and other materials.
- Keep children and pets away from the operating area.

PRODUCT FEATURES

The VEVOR Compost Spreader is designed for efficient and even distribution of various lawn and garden materials. Key features include:

- **Durable Construction:** Made from powder-coated steel for corrosion and rust resistance, ensuring long-lasting use.
- **Efficient Spreading:** Features a 24-inch steel mesh basket for quick and even distribution of materials.
- **Upgraded Side Latches:** Designed to prevent crushing during operation and maintain basket closure, enhancing durability and cleanliness.
- **Adjustable Handle:** The handle pole offers two adjustable heights, typically ranging from 24.4 inches to 25.6 inches, ensuring comfortable use for various individuals.
- **Versatile Application:** Suitable for spreading compost, manure, dirt, peat moss, and topsoil on various terrains, including slopes and uneven surfaces.

SIDE LATCHES DESIGN

Change position, no more interference

- ✓ Avoid wear and tear damage
- ✓ Keep the lock clean

- ✗ Breakage during use
- ✗ Soiled by compost

SETUP AND ASSEMBLY

The VEVOR Compost Spreader is designed for easy assembly. Follow these general steps:

1. Unpack all components and verify against the packing list (not provided in this manual, refer to product packaging).
2. Attach the handle assembly to the main roller frame. Ensure all bolts are securely tightened.
3. Adjust the handle height to your preference by screwing out the bolt, setting the desired height, and re-securing the bolt.
4. Ensure the side latches on the mesh basket are properly aligned and secured.

For detailed visual instructions, refer to the assembly diagrams provided with your product packaging.

SPACE-SAVING STORAGE

Finish installation in one minute

 Easy Assembly

 Fast Dismantle

OPERATING INSTRUCTIONS

Follow these steps for effective use of your compost spreader:

- 1. Load Materials:** Open the side latches and lift the mesh basket cover. Fill the basket with your desired material (compost, peat moss, topsoil, etc.). Ensure the material is loose and free of large debris that could clog the mesh. Close the basket cover and secure the side latches firmly.

Image: Step 1 - Loading compost into the spreader's mesh basket.

- 2. Start Spreading:** Push the spreader across your lawn or garden area. The rotating mesh basket will evenly distribute the material through its diamond-shaped openings. Maintain a consistent pace for uniform coverage.

Image: Step 2 - A person operating the spreader on a lawn, distributing material.

- 3. 3. Remove Scrap:** After spreading, open the basket and remove any remaining larger debris or scrap material that did not pass through the mesh. This prevents clogging and ensures the spreader is ready for its next use.

Image: Step 3 - The spreader's basket opened, showing accumulated scrap material being removed.

SPREAD ALL AT A TIME

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your VEVOR Compost Spreader:

- **Cleaning:** After each use, thoroughly clean the mesh basket and all components to remove any residual material. This prevents buildup and corrosion. Use water and a brush if necessary, then dry completely.
- **Drying:** Always ensure the spreader is completely dry before storage to prevent rust and mildew.
- **Storage:** Store the spreader in a dry, covered area, away from direct sunlight and extreme temperatures. The design allows for easy dismantling for space-saving storage.
- **Inspection:** Periodically inspect all bolts, latches, and moving parts for wear or damage. Tighten any loose fasteners. Replace damaged parts immediately.

TROUBLESHOOTING

If you encounter issues with your compost spreader, refer to the following common problems and solutions:

- **Uneven Spreading:**
 - Ensure the material inside the basket is loose and not clumped. Break up any large clumps before loading.

- Walk at a consistent speed. Varying speeds can lead to uneven distribution.
- Check for any blockages in the mesh. Clean thoroughly if necessary.
- **Material Not Dispensing:**
 - Verify that the mesh basket is rotating freely.
 - Check for excessive moisture in the material, which can cause it to stick. Allow damp materials to dry slightly.
 - Ensure the material is not too coarse or contains large debris that cannot pass through the mesh.
- **Side Latches Not Securing Properly:**
 - Inspect the latches and their corresponding hooks for any bending or damage. Straighten or replace if needed.
 - Ensure the basket cover is correctly aligned before attempting to close the latches.
- **Difficulty Rolling:**
 - Check for debris caught in the axle or wheels.
 - Ensure the terrain is not excessively rough or soft, which can impede rolling.
 - Verify that the handle is securely attached and not causing misalignment.

SPECIFICATIONS

Attribute	Detail
Brand	VEVOR
Model Number	Compost Spreader 24 inches
Material	Alloy Steel
Color	Black
Product Dimensions (L x W x H)	24" x 15.7" x 42.1" (61cm x 40cm x 107cm)
Rolling Barrel Size (L x Diameter)	24" x 15.7" (61cm x 40cm)
Adjustable Handle Height	24.4" - 25.6" (approx. 62cm - 65cm)
Capacity	132 Pounds (60 kg)
Item Weight	22.3 Pounds (10.1 kg)
UPC	840349916521
ASIN	B0BW84D326
