GT SONIC GT-F6

GT SONIC Ultrasonic Jewellery Cleaner GT-F6 Instruction Manual

Model: GT-F6 | Brand: GT SONIC

INTRODUCTION

Thank you for purchasing the GT SONIC GT-F6 Ultrasonic Jewellery Cleaner. This device utilizes high-frequency ultrasonic waves to create microscopic bubbles in a cleaning solution, effectively removing dirt, grime, and contaminants from various items. This manual provides essential information for safe and efficient operation, maintenance, and troubleshooting of your ultrasonic cleaner.

IMPORTANT SAFETY INSTRUCTIONS

Please read all safety instructions carefully before operating the device to prevent injury or damage.

- Do not immerse the main unit in water or other liquids.
- Ensure the power cord and plug are not damaged. Do not operate if damaged.
- Keep the device out of reach of children.
- Do not operate the cleaner without liquid in the tank.
- Unplug the device from the power outlet when not in use and before cleaning.
- Do not touch the plug with wet hands.
- Use only the specified voltage (AC100-120V, 60Hz or AC200-240V, 50Hz as per specifications).
- Avoid placing the unit on unstable surfaces.
- Do not disassemble or attempt to repair the unit yourself. Contact customer support for assistance.

PACKAGE CONTENTS

Verify that all items are present in the package:

- 1 x GT SONIC Ultrasonic Jewellery Cleaner
- 1 x Cleaning Basket
- 1 x Instruction Manual

PRODUCT OVERVIEW

Familiarize yourself with the components of your ultrasonic cleaner:

Image: Diagram illustrating the main components of the GT SONIC GT-F6 Ultrasonic Cleaner, including the lid, cleaning basin, LED display, control buttons, and accessories.

- **Lid:** Transparent cover to observe the cleaning process.
- **Cleaning Basin:** Stainless steel tank for holding water/cleaning solution.
- **LED Display:** Shows the selected cleaning time.
- **ON/OFF Button:** Powers the unit on and off.
- **Time Display/Setting Button:** Used to select desired cleaning cycle.
- **Cleaning Basket:** Holds items during cleaning to prevent direct contact with the tank bottom.

- **Watch Holder:** Specific accessory for cleaning watches without immersing the watch head.

SETUP

1. **Placement:** Place the ultrasonic cleaner on a flat, stable, and dry surface. Ensure it is away from heat sources and direct sunlight.
2. **Power Connection:** Plug the power cord into a grounded electrical outlet. Ensure the voltage matches the device's specifications.
3. **Fill Tank:** Open the lid and fill the stainless steel cleaning basin with water. For enhanced cleaning, a small amount of mild detergent or specialized ultrasonic cleaning solution can be added. Do not exceed the "MAX" fill line.

OPERATING INSTRUCTIONS

Follow these steps for effective cleaning:

Image: Step-by-step visual guide demonstrating the operation of the ultrasonic cleaner.

1. **Prepare Items:** Place the items to be cleaned into the cleaning basket. For delicate items or watches, use the provided watch holder. Ensure items are fully submerged in the cleaning solution.

2. **Close Lid:** Close the transparent lid.
3. **Power On:** Press the **ON/OFF** button to turn on the unit. The LED display will illuminate.
4. **Select Cleaning Cycle:** Use the **TIME** button to cycle through the preset cleaning times: 90, 180, 280, 380, and 480 seconds. Choose the appropriate duration based on the item's dirtiness and material. The unit generates 50,000 Hz ultrasonic sound waves for thorough cleaning.
5. **Start Cleaning:** The cleaning process will begin automatically after selecting the time.
6. **Completion:** The unit will automatically shut off once the selected cycle is complete.
7. **Remove Items:** Open the lid, carefully remove the cleaning basket with the cleaned items. Rinse items under clean water and dry them with a soft cloth.
8. **Empty Tank:** Unplug the unit and empty the water from the cleaning basin. Wipe the tank dry.

Suitable Items for Cleaning

The GT-F6 Ultrasonic Cleaner is suitable for a wide range of items:

- Jewelry (rings, necklaces, earrings, bracelets)
- Eyeglasses and sunglasses (plastic and metal frames)
- Watches (waterproof watches, watch bands - use watch holder for non-waterproof watch heads)
- Coins and other small metal objects
- Dentures and retainers
- Razor heads and small tools
- Pacifiers and small baby items

MUL-FUNCTIONAL CLEANER

Image: Examples of various items suitable for cleaning with the GT-F6 Ultrasonic Cleaner.

Items Not Recommended for Ultrasonic Cleaning

Avoid cleaning the following items to prevent damage:

- Soft or porous gemstones (e.g., pearls, emeralds, opals, turquoise)
- Items with loose stones or settings
- Plated jewelry where the plating is already worn or thin
- Wooden items, leather, or fabric
- Non-waterproof watches (immerse only the band)
- Items that may be damaged by water or vibration.

MAINTENANCE AND CARE

- **Cleaning the Unit:** After each use, unplug the unit and empty the water from the tank. Wipe the inside of the tank and the exterior of the unit with a soft, damp cloth. Do not use abrasive cleaners.
- **Storage:** Store the ultrasonic cleaner in a cool, dry place, away from direct sunlight and moisture. Ensure the tank is completely dry before storage.

- **Water Quality:** While tap water can be used, distilled water or a specific cleaning solution is recommended for optimal results and to prevent mineral buildup in the tank.

TROUBLESHOOTING

Refer to the table below for common issues and their solutions:

Problem	Possible Cause	Solution
Unit does not power on.	Not plugged in, power outlet issue, damaged cord.	Check power connection. Try a different outlet. Inspect power cord for damage.
No ultrasonic sound/vibration.	Insufficient water, unit malfunction.	Ensure water level is above the MIN line. If problem persists, contact customer support.
Items not cleaning effectively.	Incorrect cleaning solution, too short cycle, heavily soiled items, tank overfilled.	Use appropriate cleaning solution. Increase cleaning time. Pre-soak heavily soiled items. Ensure tank is not overfilled.
Unit is noisy.	Normal operation sound, unit on unstable surface.	A slight buzzing sound is normal. Ensure unit is on a stable, flat surface.

SPECIFICATIONS

Technical details of the GT SONIC GT-F6 Ultrasonic Cleaner:

Specification	
Model	GT-F6
Tank Material	SUS304
Tank Size	150*130*50mm
Overall Size	175*155*100mm
Ultrasonic Power	40KHz
Capacity	750ml
Time Setting	180S-280S-380S-480S-90S
Output Power	35W
Power Supply	AC100~120V, 60Hz AC200~240V, 50Hz
