IKEA IVAR Side Unit Instruction Manual

Model: IK.837.566.09 | Brand: IKEA

1. INTRODUCTION

This manual provides essential information for the assembly, use, and maintenance of your IKEA IVAR side unit. The IVAR system is designed for versatile storage solutions, and this side unit forms the fundamental vertical support for building your customized shelving or storage unit.

The side unit is made from untreated solid wood, a durable natural material that can be made even more resistant and easy to care for by oiling or waxing the surface.

2. PRODUCT OVERVIEW

Figure 2.1: The IKEA IVAR side unit, a fundamental component for building shelving systems.

The IVAR side unit is designed to be combined with IVAR shelves and other components to create a complete storage system. Its robust construction provides stability and support for various storage needs.

3. SETUP AND ASSEMBLY

The IVAR side unit serves as the vertical frame for your shelving system. Assembly typically involves attaching shelves or cabinets between two side units. Please refer to the specific assembly instructions provided with your IVAR shelves or other components for detailed steps.

- Ensure all components are present before beginning assembly.
- Place the side units on a flat, clean surface to prevent scratching.
- Securely attach shelves or cross-braces to the pre-drilled holes on the side units using the provided hardware.

- For stability, it is recommended to anchor the assembled unit to a wall, especially if it is tall or will hold heavy items. Wall-fastening devices are usually included with the shelving components.

Figure 3.1: Example of an assembled IVAR shelving system utilizing multiple side units.

4. OPERATING AND USAGE

Once assembled, the IVAR side unit, as part of a complete system, provides robust and flexible storage. It is suitable for various environments, including living rooms, offices, and utility spaces.

- **Weight Distribution:** Distribute weight evenly across shelves to maintain stability.
- **Customization:** The pre-drilled holes allow for easy adjustment of shelf heights, offering flexibility for different storage needs.
- **Environment:** Ideal for indoor use. Avoid exposure to excessive moisture or direct sunlight to prevent wood warping or discoloration.

5. MAINTENANCE AND CARE

The untreated solid wood of the IVAR side unit requires simple care to maintain its appearance and durability:

- **Cleaning:** Wipe clean with a damp cloth. For stubborn marks, use a mild soap solution and dry thoroughly.
- **Protection:** To enhance durability and ease of maintenance, treat the surface with wood oil, wax, or stain. This will protect the wood from moisture, stains, and wear.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or strong chemical solvents, as these can damage the wood finish.

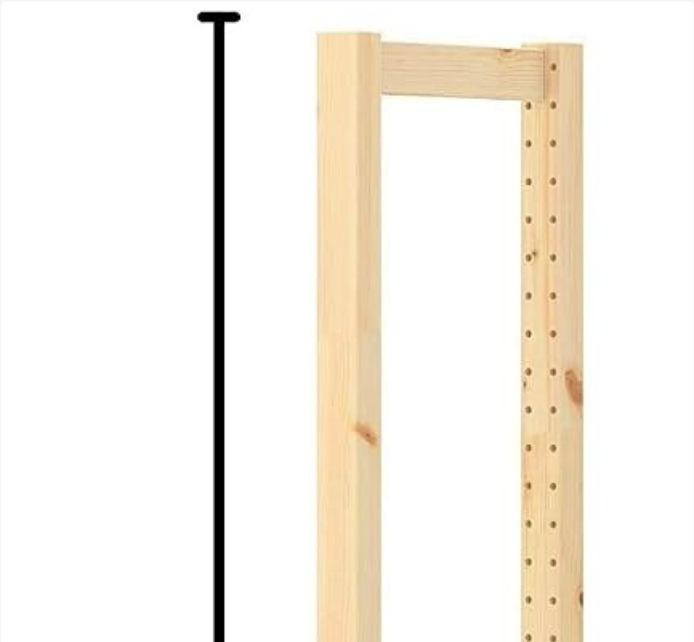

6. TROUBLESHOOTING

Most issues with the IVAR system can be resolved with simple adjustments:

- **Wobbling Unit:** Ensure all screws and fasteners are tightened. Verify the unit is placed on a level surface. If necessary, use shims under the feet. Wall anchoring is crucial for stability.
- **Difficulty Assembling:** Double-check the instructions for the specific IVAR components you are using. Ensure you are using the correct hardware for each step.
- **Wood Discoloration/Stains:** For untreated wood, apply a suitable wood oil or wax to restore and protect the surface. For existing stains, light sanding followed by treatment may be necessary.

7. SPECIFICATIONS

Attribute	Detail
Model Number	IK.837.566.09
Brand	IKEA
Dimensions (Width x Height)	30 cm x 179 cm (11.8 in x 70.5 in)
Material	Untreated Solid Pine Wood
Color	Natural Wood (can be treated/painted)
