

Fannas 1019

Fannas Professional Hair Trimmer User Manual

Model: 1019

INTRODUCTION

Thank you for choosing the Fannas Professional Hair Trimmer. This manual provides essential information for the safe and effective operation, maintenance, and care of your new hair clippers. Designed for precision and ease of use, these cordless trimmers are suitable for various hair cutting, beard trimming, and body grooming needs. Please read this manual thoroughly before first use and keep it for future reference.

cutting lengths.

SETUP AND CHARGING

Initial Charge:

Before first use, fully charge your Fannas Hair Trimmer. Connect the USB charging cable to the trimmer's USB-C port and plug the other end into any compatible USB charger (not included). The LCD display will show the battery percentage, indicating charging progress. A full charge takes approximately 3 hours and provides over 150 minutes of continuous run time.

Attaching Guide Combs:

To achieve desired hair lengths, select one of the three guide combs (0.5mm, 1mm, 1.5mm). Align the comb with the trimmer blade and gently push until it clicks securely into place. Ensure the comb is firmly attached before use.

OPERATING INSTRUCTIONS

General Use:

Press the power button to turn the trimmer ON/OFF. The LCD display will show the current battery level. The T-shaped blade is designed for precision and will not cut the skin even with close contact.

Hair Cutting:

For general hair cutting, attach the appropriate guide comb. Move the trimmer against the direction of hair growth for an even cut. For detailed work, such as lining, sculpting outlines, or sideburns, remove the guide comb and use the zero-gapped blade directly.

Beard Trimming:

Use the trimmer with or without a guide comb to shape and trim your beard. The precision blade allows for sharp lines and detailed styling around the neck and cheek areas.

Body Hair Trimming:

The Fannas Hair Trimmer can also be used for safely trimming chest hair, leg hair, and other body hair. Ensure the skin is clean and dry for best results. The rounded corners of the T-blade help prevent nicks and irritation.

MAINTENANCE AND CARE

Cleaning the Blades:

After each use, turn off the trimmer and use the provided cleaning brush to remove any loose hairs from the blade. The blade is waterproof and can be rinsed under running water. **IMPORTANT: Do not submerge the entire trimmer in water. Only the blade is designed to be rinsed.**

Lubricating the Blades:

Regularly apply a few drops of the included lubricating oil to the blades to ensure smooth operation and prolong their lifespan. Turn the trimmer on for a few seconds after applying oil to distribute it evenly.

Storage:

Store the trimmer in a cool, dry place. Use the blade cover to protect the blades when not in use or during travel.

POWERFUL MOTOR BUT LOW NOISE

<50 db low noise

ONLY WASH THE BLADE

Image: The Fannas Hair Trimmer's blade being rinsed under water, illustrating its easy cleaning process. The image also highlights the product's low noise operation.

TROUBLESHOOTING

- **Trimmer not turning on:** Ensure the trimmer is fully charged. Check the USB cable and power adapter for proper connection.
- **Reduced cutting performance:** Clean the blades thoroughly to remove any trapped hair. Apply lubricating oil to the blades. If performance does not improve, the blades may need replacement (contact support).
- **Excessive noise or vibration:** Ensure the blade is properly seated. Clean and lubricate the blades. If the issue persists, contact customer support.
- **Battery not holding charge:** Ensure you are using a compatible USB charger. Avoid overcharging (do not leave plugged in overnight). If battery life significantly degrades, contact customer support.

SPECIFICATIONS

Feature	Detail
Model Number	1019
Brand	Fannas
Power Source	Cordless, USB Rechargeable
Battery Capacity	1500mAh
Run Time	Over 150 minutes
Charge Time	Approx. 3 hours
