Retoo E682

Retoo Ultrasonic Humidifier User Manual

Model: E682

1. INTRODUCTION

Thank you for purchasing the Retoo Ultrasonic Humidifier. This device is designed to improve air quality by adding moisture to the air, which can help alleviate dry skin, irritated sinuses, and other symptoms caused by dry heating air. It also features an aromatherapy function for a more relaxing environment. Please read this manual carefully before operation to ensure safe and efficient use of your humidifier.

2. IMPORTANT SAFETY INSTRUCTIONS

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury.

- Do not place the humidifier on soft surfaces such as carpets or rugs.
- Always place the humidifier on a firm, flat, level surface.
- Keep the power cord away from heated surfaces.
- Do not operate the humidifier if the cord or plug is damaged.
- Do not block the mist outlet.
- Do not immerse the humidifier in water or other liquids.
- Unplug the humidifier before filling, cleaning, or moving it.
- Use only clean, cool tap water. Distilled water is recommended to prevent mineral buildup.
- Keep out of reach of children and pets.
- Do not add essential oils directly into the water tank; use the designated aroma diffuser tray.

3. PRODUCT COMPONENTS

Familiarize yourself with the parts of your Retoo Ultrasonic Humidifier.

Figure 3.1: The Retoo Ultrasonic Humidifier shown with its remote control. The device features a sleek white and black design with a digital display at the front.

Figure 3.2: A closer view of the humidifier and its remote control, highlighting the simple button layout on the remote for easy operation.

Figure 3.3: Demonstrates how to remove the top cover of the humidifier, revealing the internal structure for water filling and cleaning.

Figure 3.4: An internal view of the humidifier's water tank and base, showing the components responsible for mist generation.

Figure 3.5: A detailed close-up of the humidifier's digital display, showing temperature, humidity percentage, and timer settings.

Figure 3.6: Illustrates the process of adding essential oils to the designated aromatherapy compartment, ensuring proper use of the diffuser function.

Figure 3.7: Shows the 360-degree adjustable mist nozzle, allowing users to direct the mist flow in any desired direction.

4. SETUP

1. **Unpack:** Carefully remove the humidifier and all accessories from the packaging. Retain packaging for future storage or transport.
2. **Placement:** Place the humidifier on a firm, flat, waterproof surface at least 12 inches (30 cm) away from walls and appliances. Ensure the mist outlet is not directed at furniture or electronics.
3. **Fill Water Tank:**
 - Remove the top cover of the humidifier.
 - Fill the water tank with clean, cool tap water. Do not exceed the maximum fill line. Distilled or demineralized water is recommended to prevent mineral buildup and white dust.
 - Replace the top cover securely.
4. **Connect Power:** Plug the power cord into a standard 250V AC electrical outlet.

5. OPERATING INSTRUCTIONS

The humidifier can be operated via the touch controls on the unit or the included remote control.

5.1. Basic Operation

- **Power On/Off:** Press the power button () on the unit or remote to turn the humidifier on or off. The display will illuminate when on.
- **Mist Level Adjustment:** Press the mist button (often indicated by a mist icon or 'level' on the remote) to cycle through different mist output levels (e.g., Low, Medium, High).
- **360° Nozzle:** Rotate the mist nozzle on top of the unit to direct the mist in any desired direction.

5.2. Advanced Functions

- **Humidity Setting:** The humidifier features an integrated hygrometer. You can set a target humidity level between 40-80% RH. The unit will automatically adjust mist output to maintain this level.
- **Timer Function:** Press the timer button to set the operating time (1-8 hours). The humidifier will automatically shut off once the set time expires.
- **Aromatherapy:** To use the aromatherapy function, add a few drops of essential oil to the designated aroma tray (usually a small compartment separate from the main water tank). Do not add oils directly into the water tank.
- **Display:** The ACL display shows current room temperature, humidity percentage, and active timer settings.
- **Automatic Shut-off:** The humidifier will automatically turn off when the water tank is empty.

6. MAINTENANCE

Regular cleaning is essential for optimal performance and hygiene.

6.1. Daily Maintenance

- Empty and rinse the water tank daily.
- Refill with fresh, cool water.

6.2. Weekly Cleaning

- **Unplug** the humidifier before cleaning.

- **Clean the Water Tank:** Remove the tank and clean it with a soft brush or cloth. For mineral deposits, use a mixture of white vinegar and water (1:1 ratio). Let it soak for 20-30 minutes, then rinse thoroughly.
- **Clean the Base Unit:** Gently wipe the inside of the base unit, especially the transducer (the small disc that produces mist), with a soft cloth dampened with vinegar solution. Do not submerge the base unit in water.
- **Clean Filters:** The humidifier uses ceramic for water filtration and carbon for air. Refer to the specific filter cleaning instructions provided with your unit. Generally, ceramic filters can be rinsed, and carbon filters may need replacement periodically.
- **Aroma Tray:** Clean the aroma tray with a damp cloth to remove any oil residue.

6.3. Storage

When not in use for extended periods, clean the humidifier thoroughly, ensure all parts are dry, and store it in a cool, dry place.

7. TROUBLESHOOTING

If you encounter issues with your humidifier, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
No mist or low mist output	Lack of water Mineral buildup on transducer Blocked mist outlet	Refill water tank Clean transducer with vinegar solution Check for obstructions in the mist outlet
Unusual odor	Stagnant water Dirty water tank	Empty and clean the water tank thoroughly Use fresh water daily
Water leakage	Tank not seated correctly Damaged tank or base	Ensure tank is properly seated Inspect for cracks; contact support if damaged
Humidifier turns off unexpectedly	Water tank is empty Timer function activated	Refill water tank Check timer settings

8. SPECIFICATIONS

Feature	Specification
Brand	Retoo
Model Number	E682
Capacity	4 Liters
Power / Wattage	25 Watts
Voltage	250V AC
Product Dimensions (L x W x H)	16.3 x 16.3 x 37 cm
Item Weight	927 g
Runtime	Up to 8 hours
Noise Level	Below 30 dB
Control Method	Touch, Remote Control

Feature	Specification
Material	Ceramic, Acrylonitrile Butadiene Styrene (ABS)
Filter Type	Ceramic for water, Carbon for air
Special Features	Backlight, Integrated Hygrometer, Thermometer, Auto Shut-off (when tank empty)

9. WARRANTY AND SUPPORT

For information regarding warranty coverage, please refer to the warranty card included with your product or contact the retailer where you purchased the humidifier.

If you have any questions, require technical assistance, or need to report an issue, please contact Retoo customer support through the contact information provided on the product packaging or the official Retoo website.
