INTRODUCTION

This manual provides detailed instructions for the safe installation, operation, and maintenance of your Keonjinn LED Bathroom Mirror with Lights (60 x 40 Inch). This mirror features dimmable LED lighting, an anti-fog function, and a waterproof design, crafted from high-definition tempered glass for durability and clarity.

SAFETY INFORMATION

Please read all instructions carefully before installation and use. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always wear safety glasses during installation.
- Installation requires a minimum of two people due to the mirror's size and weight (approximately 60.9 pounds).
- It is recommended to consult a professional electrician for hardwired installations to ensure compliance with local electrical codes.
- Ensure the power supply is disconnected at the circuit breaker before any installation or maintenance.
- Do not attempt to repair or modify the mirror's electrical components yourself. Contact qualified personnel for service.
- The anti-fog function automatically turns off after one hour of continuous use to prevent overheating. Reactivate by pressing the defogging button.
- This mirror is designed for auxiliary lighting and is not recommended as the sole light source for a room.

COMPONENTS & INSTALLATION TOOLS

Packing List

- Mirror x 1
- Bracket x 2
- Screws x (4+2)
- Wall Anchors-A
- Wall Anchors-B
- Positioning Ruler x 1

Required Installation Tools

- Electric Drill
- Hammer
- Marker Pen
- Level

The Keonjinn LED Bathroom Mirror is designed for flexible installation, supporting both horizontal and vertical mounting. It can be connected via a standard plug or hardwired into your electrical system.

Installation Steps

1. **Unpack the Mirror:** Carefully remove the mirror from its multi-layered packaging. Inspect for any damage.
2. **Determine Mounting Orientation:** Decide whether to hang the mirror horizontally or vertically.
3. **Positioning:** Use the provided positioning ruler and a level to mark the desired location for the mounting brackets on the wall. Ensure the marks are level and correspond to the mirror's width.
4. **Drill Holes:** Using an electric drill, create holes at the marked spots.
5. **Insert Wall Anchors:** Gently tap the appropriate wall anchors into the drilled holes with a hammer.
6. **Mount Brackets:** Secure the mounting brackets to the wall using the provided screws.
7. **Electrical Connection:** Connect the mirror to the power supply. This can be done by plugging it into a suitable outlet or by hardwiring it into your electrical system. For hardwiring, it is recommended to consult a professional electrician.
8. **Hang the Mirror:** With assistance, carefully lift the mirror and slot it onto the mounted brackets. Ensure it is securely seated.

The Keonjinn LED mirror can be installed horizontally or vertically to suit your bathroom design.

Tips for selecting the right mirror size for single and double vanities, considering width and height relative to fixtures.

OPERATING INSTRUCTIONS

Your Keonjinn LED Bathroom Mirror is equipped with intuitive touch controls for lighting and anti-fog functions.

Overview of the Keonjinn LED Bathroom Mirror's key features and control icons.

LED Lighting Control

- **Turn On/Off:** Lightly tap the power touch button on the mirror surface to turn the LED lights on or off.
- **Adjust Brightness (Dimmable):** Press and hold the power touch button to adjust the brightness level from 10% to 100%. Release the button when the desired brightness is reached.
- **Memory Function:** The mirror features a memory function that remembers your last brightness setting. When you turn the mirror back on, it will resume the previously set brightness level.

Plug or Wall Switch

Using wall switch or connecting to plug to turn **ON/OFF** the mirror light and defogger.

Demonstration of the long-press function to adjust brightness and the mirror's memory feature.

Anti-Fog Function

- **Activate/Deactivate:** Tap the anti-fog touch button (often depicted as a fan or steam icon) to turn the defogger on or off.
- **Automatic Shut-off:** The anti-fog function will automatically turn off after one hour of continuous use to prevent overheating. If you require further defogging, simply press the button again to reactivate it.

Wall Switch Control

If hardwired, the mirror's light and defogger can be controlled by a standard wall switch. This allows for convenient integration with your existing bathroom lighting controls.

MAINTENANCE

Proper care and maintenance will ensure the longevity and optimal performance of your Keonjinn LED Bathroom Mirror.

Cleaning the Mirror Surface

- Use a soft, lint-free cloth and a non-abrasive glass cleaner.
- Spray the cleaner onto the cloth, not directly onto the mirror, to prevent liquid from seeping into the electrical components.
- Wipe the mirror surface gently until clean and streak-free.

- Avoid using harsh chemicals, abrasive pads, or acidic cleaners, as these can damage the mirror's finish or coatings.

Care for Electrical Components

- Ensure the mirror is disconnected from the power supply before cleaning any electrical parts.
- Do not spray water or cleaning solutions directly onto the back of the mirror or near electrical connections.
- Regularly check the power cord (if applicable) for any signs of damage. If damaged, discontinue use and contact customer support.

TROUBLESHOOTING

If you encounter any issues with your Keonjinn LED Bathroom Mirror, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
LED lights do not turn on.	No power supply; loose connection; faulty touch switch.	Check if the mirror is properly plugged in or hardwired. Ensure the circuit breaker is on. Verify all connections are secure. If the issue persists, contact customer support.
Anti-fog function is not working.	Function not activated; automatic shut-off; power issue.	Ensure the anti-fog button has been pressed. If it was on for over an hour, press the button again to reactivate. Check power supply.
Lights are flickering or dimming unexpectedly.	Unstable power supply; internal wiring issue.	Ensure the power supply is stable. If hardwired, check connections. Contact customer support if the problem continues.
Mirror is not responding to touch controls.	Power interruption; sensor malfunction.	Disconnect power for 30 seconds and reconnect to reset the system. Ensure the mirror surface is clean and dry. If unresponsive, contact customer support.

For issues not listed here or if solutions do not resolve the problem, please contact Keonjinn customer support.

SPECIFICATIONS

Feature	Detail
Brand	Keonjinn
Model Number	B0BWC5NZDR
Product Dimensions	40"L x 60"W (60 x 40 Inch)
