› HOBINCHE 18 Inch Metal Twin Bed Frame Instruction Manual (Model T40-1801)

## HOBINCHE T40-1801

# HOBINCHE 18 Inch Metal Twin Bed Frame Instruction Manual (Model T40-1801)

Your guide to easy assembly, use, and maintenance.

## IMPORTANT SAFETY INFORMATION

Please read and understand all instructions before assembly and use. Keep this manual for future reference.

- Exercise caution around sharp edges during assembly.
- Do not load more than the maximum recommended weight of 2000 pounds (for Twin size).
- Follow assembly instructions carefully to prevent instability or collapse.
- Ensure all bolts and connections are securely tightened before use.
- Periodically check and re-tighten all connections to maintain stability.

## PACKAGE CONTENTS

Before beginning assembly, ensure all parts are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Metal Bed Frame Components
- Steel Slats
- All necessary hardware (bolts, screws)
- Assembly Tool (Allen wrench)
- Instruction Manual

## SETUP & ASSEMBLY

The HOBINCHE Metal Twin Bed Frame is designed for easy assembly, typically completed by one person within 30 minutes. All parts are clearly labeled.

### Assembly Steps Overview

1. Unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Assemble the main frame sections by connecting the side rails to the leg posts using the provided hardware and Allen wrench. Ensure all connections are finger-tightened initially.
3. Attach the central support beams to the main frame.

4. Insert the steel slats into the designated U-shaped grooves on the frame. The slats are designed for easy, fixed placement to prevent sliding.
5. Once all components are in place, fully tighten all bolts and screws using the Allen wrench.
6. Place your mattress directly onto the assembled frame. No box spring is needed.

### PRODUCT FEATURES

- **No Box Spring Needed:** Designed to support your mattress directly, eliminating the need for a box spring.
- **Heavy-Duty Construction:** Made from high-quality metal materials with 6 thickened legs for extra strong support.
- **Noise-Free Design:** Features rubber pads on the frame to help eliminate noise and anti-scratch gaskets on legs to protect floors.
- **Ample Under-Bed Storage:** Provides 16 inches of clearance from the floor, ideal for storing boxes, clothes, and other items.
- **Modern Style:** Simple and sleek design that complements various bedroom decors.
- **Headboard/Footboard Compatible:** Front and back legs include reserved holes for attaching a headboard or footboard (not included).

## OPERATING INSTRUCTIONS

---

Once assembled, the HOBINCHE bed frame is ready for immediate use. Simply place your mattress on the steel slats. The frame is designed to provide stable and quiet support for your mattress.

- Ensure the mattress is centered on the frame for even weight distribution.
- Avoid jumping on the bed to prevent damage to the frame or injury.
- Utilize the 16-inch under-bed clearance for convenient storage of personal belongings.

## MAINTENANCE & CARE

---

Proper care will extend the life of your bed frame.

- **Cleaning:** Wipe the metal frame with a damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the powder-coated finish.
- **Inspection:** Periodically check all bolts and connections to ensure they remain tight. Re-tighten as necessary to maintain the frame's

stability and prevent noise.

- **Movement:** When moving the bed frame, lift it rather than dragging it to prevent damage to the frame or your floor.

### TROUBLESHOOTING

| Problem              | Possible Cause                                 | Solution                                                                                                                        |
|----------------------|------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Squeaking or Noise   | Loose bolts or connections.                    | Check and tighten all bolts and screws. Ensure rubber pads are correctly positioned.                                            |
| Instability/Wobbling | Uneven floor or loose connections.             | Ensure the bed frame is on a level surface. Re-tighten all connections. Verify all legs are making firm contact with the floor. |
| Slats sliding        | Slats not properly seated in U-shaped grooves. | Ensure each slat is fully inserted and secured within its designated U-shaped groove.                                           |
