

## WORKPRO WORKPRO Storage Cabinet

# WORKPRO Storage Cabinet Instruction Manual

Model: WORKPRO Storage Cabinet

Brand: WORKPRO

### INTRODUCTION

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your WORKPRO Metal Storage Cabinet. Designed for durability and versatility, this tall locking steel cabinet is suitable for organizing tools, office supplies, home items, and various shop essentials. Please read this manual thoroughly before assembly and use to ensure safe and efficient operation.

## IMPORTANT SAFETY INFORMATION

Adhering to these safety guidelines is crucial for preventing injury and damage to the product.

- Always assemble this product on a stable, level surface.
- Use appropriate safety gear when lifting and moving the cabinet.
- Keep the cabinet away from heat sources.
- Do not overload the shelves. Each shelf can hold up to 180 lbs (evenly distributed). The total load capacity is 900 lbs.

- Always use both hands when opening and closing the cabinet doors to prevent pinching.
- Keep the cabinet locked when not in use to prevent unauthorized access.
- Always follow the manufacturer's instructions for proper use and maintenance.

## PARTS LIST

Before beginning assembly, ensure all parts are present and undamaged. Refer to the diagram below for identification.

Figure 2: Exploded view of the WORKPRO Storage Cabinet components.

Table 1: Component List

Part	Description	Quantity
Top Panel	Main top section of the cabinet.	1
Bottom Panel	Main bottom section of the cabinet.	1
Side Panels	Left and Right vertical panels.	2
Back Panels	Two sections forming the rear of the cabinet.	2
Shelves	Adjustable interior shelves.	5
Doors	Left and Right front doors with handles.	2
Keys	For locking the cabinet doors.	4
Adjustable Feet	For leveling the cabinet on uneven surfaces.	4
Hardware Kit	Screws, bolts, nuts, and shelf clips.	1 set

## SETUP AND ASSEMBLY

Assembly requires at least two people due to the weight and size of the components. An electric drill or PH2 Phillips screwdriver is recommended.

1. **Prepare the Base:** Lay the bottom panel on a flat, protected surface. Attach the corner brackets and adjustable feet to the bottom panel using the provided screws. Ensure the feet are tightened clockwise to elevate and counter-clockwise to lower for leveling.
2. **Assemble Back and Side Panels:** Align and attach the two back panels together. Then, attach the left and right side panels to the assembled back panels at right angles, securing them with screws at the indicated locations.
3. **Attach Top Bracket:** Secure the top bracket to the side panels using screws. This provides structural integrity to the top frame.
4. **Attach Top Panel:** Carefully place the top panel onto the assembled frame and secure it with screws.
5. **Install Shelves:** Insert the metal clips into the perforated slots on the side panels at your desired height for each shelf. Place the shelves onto these clips. You can adjust the shelf height as needed. For added stability, plastic clips can be inserted at the corners of the shelves to lock them in place.
6. **Attach Doors:** Install the bottom hinge pin and washer on each side of the bottom bracket. Lower the left door onto the bottom left hinge pin, then swing the left door into the top bracket while pulling down on the latch. Align the latch with the hole in the top bracket and release when the latch is in position. Repeat for the right door.

## OPERATING INSTRUCTIONS

### Adjusting Shelves

The cabinet features adjustable shelves to accommodate items of various sizes. To adjust a shelf:

1. Empty the shelf you wish to move.
2. Remove the shelf by lifting it off its support clips.
3. Relocate the metal support clips to the desired height in the perforated slots on the side panels.
4. Place the shelf back onto the clips, ensuring it is level and secure. For enhanced stability, insert the provided plastic locking clips at the corners of the shelf.

# MEET YOUR NEEDS

**Total Load Capacity  
900 LBS**

**Include  
4 Keys**

**Simple  
Assembly**

**Adjustable  
Shelves**

**High  
Capacity**

*Figure 3: Adjustable shelves allow for customized storage configurations. Each shelf supports up to 180 lbs.*

## Locking Mechanism

The cabinet is equipped with an enhanced locking system for security. Four keys are provided.

- To lock: Close both doors firmly. Insert a key into the lock cylinder and turn clockwise until the mechanism engages.
- To unlock: Insert a key into the lock cylinder and turn counter-clockwise. The doors should then open freely.

*Figure 4: The enhanced locking system ensures the security of your stored items.*

## MAINTENANCE

Regular maintenance will prolong the life of your WORKPRO Storage Cabinet.

- **Cleaning:** Wipe down the cabinet surfaces with a soft, damp cloth and mild detergent. Avoid abrasive cleaners or solvents that could damage the finish.
- **Inspection:** Periodically check all screws and connections to ensure they are tight. Re-tighten if necessary.
- **Leveling:** Re-adjust the leveling feet if the cabinet becomes unstable or uneven over time.
- **Corrosion Prevention:** The cabinet is made of SPCC cold rolled steel with a powder coating for rust resistance. However, avoid prolonged exposure to excessive moisture or harsh chemicals to maintain its integrity.

TROUBLESHOOTING

Table 2: Common Issues and Solutions

Problem	Possible Cause	Solution
Cabinet is wobbly/unstable.	Uneven floor surface; loose adjustable feet.	Adjust the leveling feet until the cabinet is stable. Ensure all feet are making firm contact with the floor.
Doors do not close properly or are misaligned.	Cabinet is not level; hinges are not properly seated; latch mechanism is obstructed.	Check cabinet level and adjust feet. Ensure door hinges are correctly installed. Verify nothing is blocking the latch.
Shelves are not stable or pop out.	Shelf clips not fully inserted; plastic locking clips not used.	Ensure metal shelf clips are fully seated in the perforated slots. Install the plastic locking clips at the corners of the shelves.

PRODUCT SPECIFICATIONS

Table 3: Technical Specifications

Feature	Detail
Brand	WORKPRO
Model	Storage Cabinet
