Bewinner Cuifati0o7w58ztrk

Bewinner 7-inch Touch Screen Car Stereo User Manual

Model: Cuifati0o7w58ztrk

1. INTRODUCTION

Thank you for choosing the Bewinner 7-inch Touch Screen Car Stereo. This multimedia receiver is designed to enhance your in-car entertainment and connectivity with features such as Bluetooth, Android Auto, MirrorLink, and a reversing camera input. This manual provides detailed instructions for installation, operation, and troubleshooting to ensure optimal performance and user experience.

2. SAFETY INFORMATION

- Read all instructions carefully before installation and operation.
- Professional installation is recommended to avoid damage to the product or vehicle.
- Do not operate the device in a way that distracts you from driving. Always prioritize road safety.
- Ensure all connections are secure and properly insulated to prevent short circuits.
- Keep the device away from water, moisture, and extreme temperatures.
- Only use the specified power supply (DC 12-24V).

3. PACKAGE CONTENTS

Verify that all items are present in the package:

- 7-inch Touch Screen Car Stereo Unit
- Adjustable Suction Cup Stand
- Power Cable (2.0mm plug, 12-24V input)
- Remote Control
- Reversing Camera (optional, if included in your package)
- Video Adapter Cable (2.0mm to RCA head)
- User Manual

4. PRODUCT OVERVIEW

4.1 Main Unit and Display

The device features a 7-inch touch screen for intuitive control and display of various functions. The main interface typically shows options for Radio, Bluetooth, PhoneLink, and Settings.

Image 4.1: Overview of the main screen interface, showing options like Radio, Bluetooth, PhoneLink, and Settings.

4.2 Ports and Connections

The unit is equipped with several ports for connectivity and power:

- **AV IN:** For connecting external audio/video sources, including the reversing camera.
- **USB:** For media playback from USB drives.
- **TF CARD:** For media playback from TF (MicroSD) cards.
- **POWER PLUG (DC):** 2.0mm plug for 12-24V power input.
- **IR:** Infrared receiver for the remote control.

Function Description

Function Description

4.3 Adjustable Stand

The included stand allows for flexible positioning of the unit. It features a silicone vacuum suction cup for secure mounting, a retractable length, and 270-degree rotation for optimal viewing angles.

Adjustable stand

A variety of angles can be adjusted at will

Image 4.3: Detailed view of the adjustable stand, showing its retractable length, 270-degree rotation, and silicone vacuum suction cup.

5. SETUP AND INSTALLATION

This device is designed for non-destructive, plug-and-play installation, meaning it does not require removal of the host equipment or dashboard modification.

5.1 Mounting the Unit

1. Choose a suitable location on your dashboard or windshield that does not obstruct your view or interfere with driving controls.
2. Clean the mounting surface thoroughly.
3. Attach the silicone vacuum suction cup of the adjustable stand firmly to the chosen surface. Ensure it is secure.
4. Adjust the stand's length and angle for optimal viewing.

5.2 Power Connection

Connect the provided power cable to the DC power plug on the unit and then to your vehicle's 12-24V power outlet (e.g., cigarette lighter socket).

5.3 Reversing Camera Installation (Optional)

If your package includes a reversing camera, connect its video output cable to the AV IN port on the car stereo using the provided video adapter cable. The camera typically requires a power connection from your vehicle's reverse light circuit for automatic activation.

Image 5.1: Overview of key features, including wireless/wired connectivity options, multiple sockets, and reversing video input.

6. OPERATING INSTRUCTIONS

6.1 Basic Operation

- Power On/Off:** The unit typically powers on automatically when the vehicle's ignition is turned on. Use the power button on the unit or remote control to manually turn it on or off.
- Touch Screen:** Navigate through menus and select functions by touching the icons on the screen.
- Volume Control:** Adjust volume using the on-screen controls or the remote control.

6.2 Bluetooth Connectivity

Connect your smartphone via Bluetooth for hands-free calling and audio streaming.

1. On the car stereo, select the 'BT' or 'Bluetooth' icon from the main menu.
2. Enable Bluetooth on your smartphone and search for available devices.
3. Select 'Bewinner Car Stereo' (or similar name) from the list on your phone.
4. Confirm the pairing code if prompted.
5. Once connected, you can make/receive calls and play music through the car stereo.

6.3 Phone Link (MirrorLink, Android Auto, CarPlay)

The unit supports MirrorLink, Android Auto, and Apple CarPlay for seamless smartphone integration.

1. Select the 'PhoneLink' or 'CarPlay/Android Auto' icon from the main menu.
2. Connect your smartphone to the car stereo using a USB cable (for wired connection) or wirelessly if supported by your phone and the unit.
3. Follow the on-screen prompts to establish the connection.
4. Once connected, you can access compatible apps, navigation, and voice assistants (like Siri) directly from the car stereo screen.

Image 6.1: The car stereo displaying the Apple CarPlay interface, showing various phone applications.

6.4 FM Transmitter Function

This feature allows you to transmit the audio from the car stereo to your vehicle's original FM radio.

1. Select the 'FM' or 'Radio' icon from the main menu.
2. Choose an unused FM frequency on the car stereo.
3. Tune your vehicle's original FM radio to the same frequency.
4. The audio from the car stereo will now play through your car's speakers.

Image 6.2: The FM radio interface, illustrating frequency selection and the built-in speaker output.

6.5 Reversing Camera Display

If a reversing camera is connected and properly installed, the car stereo will automatically switch to the camera view when the vehicle is put into reverse gear.

Reversing video

Automatically switch to the reverse video screen when there is a signal

Camera optional

Video adapter included in the package
(2.0mm to RCA head)

Image 6.3: The car stereo screen displaying the reversing camera feed with parking guidelines.

6.6 Media Playback (USB/TF Card)

Insert a USB drive into the USB port or a TF card into the TF card slot. The unit will automatically detect the media and allow you to browse and play audio or video files.

7. MAINTENANCE

- Cleaning:** Use a soft, dry cloth to clean the screen and unit. Do not use abrasive cleaners or solvents.
- Temperature:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or high humidity.
- Connections:** Periodically check all cables and connections to ensure they are secure.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
No power	Loose power connection; Vehicle power outlet issue	Check power cable connection; Test power outlet with another device.
No sound	Volume too low; Incorrect audio output setting; FM transmitter not tuned correctly	Increase volume; Ensure FM transmitter is enabled and tuned to the correct frequency on both devices.
Bluetooth connection fails	Bluetooth not enabled; Device not in pairing mode; Interference	Ensure Bluetooth is on for both devices; Restart both devices; Try pairing again.
Reversing camera not displaying	Camera not connected; Power issue to camera; Incorrect AV IN selection	Check camera cable connection; Verify camera power supply; Ensure vehicle is in reverse.
Touch screen unresponsive	Temporary software glitch	Restart the unit by disconnecting and reconnecting power.
