1. INTRODUCTION

Welcome to the BRUVI Single-Serve Coffee System. This manual provides essential information for the safe and efficient operation of your new coffee brewer. The BRUVI system is designed to deliver a variety of hot and cold beverages, including coffee, espresso, Americanos, cold brew, iced coffee, and tea, using exclusive BRUVI B-Pods.

2. IMPORTANT SAFETY INFORMATION

- Read all instructions before operating the appliance.
- Do not immerse the appliance, power cord, or plug in water or other liquids.
- Ensure the appliance is placed on a stable, level surface away from hot surfaces or open flames.
- Use only with the specified voltage (120 Volts).
- Unplug the appliance from the outlet when not in use and before cleaning.
- Exercise caution when handling B-Pods, as they may contain sharp elements.
- Keep children and pets away from the appliance during operation.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.

3. PACKAGE CONTENTS

Your BRUVI Single-Serve Coffee System package includes the following items:

- 1 x BRUVI Brewer

- 1 x Variety Pack of 20 B-Pods
- 1 x Reusable Canvas Bag

4. PRODUCT OVERVIEW

The BRUVI Single-Serve Coffee System is designed for convenience and versatility, offering a range of features to enhance your brewing experience.

Key Features:

- **Large Touch Screen:** Intuitive interface for selecting beverage options and customizing your brew.
- **Instant Hot Water:** Provides hot water on demand without waiting for heating.
- **Quiet Brew Technology:** Engineered for minimal noise during operation.
- **70 oz Removable Water Tank:** Large capacity for multiple brews, easy to refill and clean.
- **Adjustable Drip Tray:** Accommodates various mug sizes, including travel mugs up to 6.5 inches tall.
- **Auto Dispense Waste Bin:** Automatically stores up to 6 used B-Pods for convenient disposal.
- **Mobile App Connectivity:** (Optional) Control brewing remotely, schedule brews, and manage B-Pod re-orders.
- **Auto Optimized Brewing:** Scans B-Pods and adjusts up to seven brew parameters for optimal taste.
- **Hygienic Brew:** Coffee brews directly into your mug, preventing flavor cross-contamination and reducing daily

rinsing.

Ultimate Convenience

5. SETUP

5.1 Unboxing and Placement

1. Carefully remove all components from the packaging.
2. Place the BRUVI brewer on a clean, dry, and level surface.
3. Ensure there is adequate space around the brewer for ventilation and access to the water tank.

5.2 Filling the Water Tank

1. Remove the water tank from the side of the brewer.
2. Fill the tank with room temperature, filtered water up to the "Max" line.
3. Replace the water tank securely onto the brewer.

5.3 Initial Cleansing Cycle

Before first use, perform a cleansing cycle to prepare the brewer.

1. Place a large mug on the drip tray.
2. Ensure the water tank is filled.
3. Close the brew chamber lid (do not insert a B-Pod).
4. On the touchscreen, select the "Hot Water" option.
5. Press the "Start/Stop" button. The brewer will dispense hot water to clean its internal components.
6. Discard the hot water. Your BRUVI brewer is now ready for use.

6. OPERATING INSTRUCTIONS

6.1 Brewing a Beverage

1. **Fill Water Tank:** Ensure the water tank is filled with filtered water.
2. **Place Mug:** Position your desired mug on the adjustable drip tray. Adjust the tray height if necessary.
3. **Insert B-Pod:** Lift the handle to open the brew chamber. Insert a BRUVI B-Pod into the chamber. Close the handle firmly.

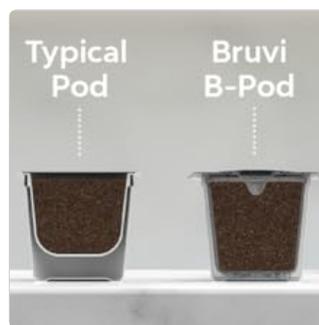

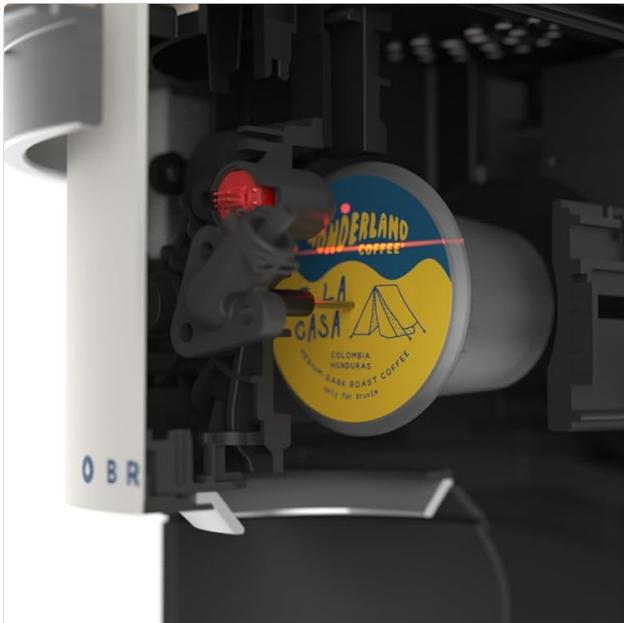

Image: A BRUVI B-Pod, designed for exclusive use with the BRUVI brewer.

4. **Select Beverage Type:** The brewer will automatically detect the B-Pod type. On the touchscreen, select your desired beverage (e.g., Coffee, Espresso, Tea, Infused).

Auto Optimized Brewing

Bruvi scans the pod and auto adjusts up to seven brew parameters and hundreds of combinations for the optimal brew, just like the roaster intended.

Hygienic Brew

Coffee goes straight to your mug without touching the insides of the brewer for more hygienic brew, no flavor cross contamination and no daily rinsing.

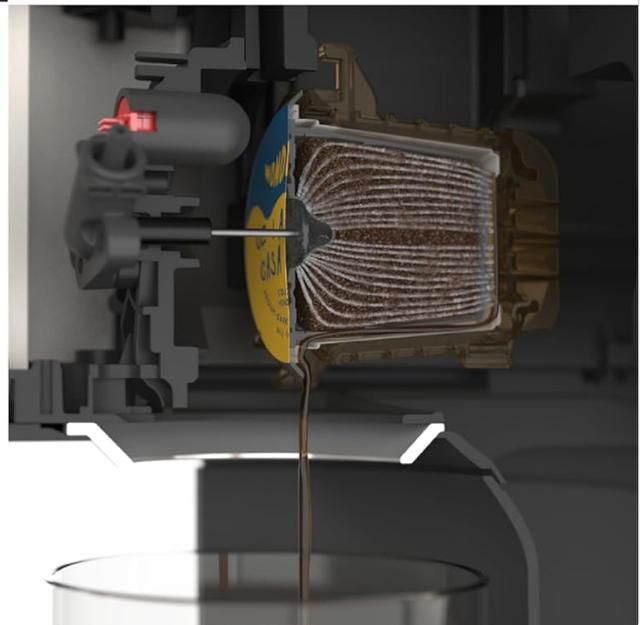

Image: Close-up view of the BRUVI brewer's internal mechanism scanning a B-Pod for auto-optimized brewing.

5. **Customize Brew:** Choose additional options such as "Hotter," "Stronger," "Low Acid," "Americano," "Iced," or "Cold Brew" if available for your selected B-Pod.
6. **Select Brew Size:** Choose your preferred cup size (e.g., 4oz, 6oz, 8oz, 10oz, 12oz).
7. **Start Brewing:** Press the "Start/Stop" button to begin brewing. The progress will be displayed on the screen.
8. **Enjoy:** Once brewing is complete, carefully remove your mug and enjoy your beverage.

6.2 Adjustable Drip Tray

The drip tray can be adjusted or removed to accommodate various cup sizes. Simply lift or slide the tray to the desired position. For taller travel mugs, the entire drip tray assembly can be removed.

7. MOBILE APP (OPTIONAL)

Enhance your BRUVI experience by connecting your brewer to the optional mobile app. The app provides additional convenience and control.

- **Remote Brewing:** Start a brew from your smartphone.
- **Schedule Brews:** Set a specific time for your coffee to be ready.
- **Auto Re-order B-Pods:** Manage and re-order your favorite B-Pods directly through the app.

- **Personalized Consumption Dashboard:** Track your brewing habits and preferences.

8. MAINTENANCE AND CLEANING

Regular cleaning and maintenance ensure optimal performance and longevity of your BRUVI brewer.

8.1 Drip Tray and Waste Bin

- **Drip Tray:** The drip tray should be emptied and cleaned regularly to prevent overflow and maintain hygiene. Remove the tray, discard any liquid, and wash with warm, soapy water. Rinse thoroughly and dry before replacing.
- **Auto Dispense Waste Bin:** The internal waste bin automatically collects used B-Pods. Empty the bin when it is full (holds up to 6 pods). Remove the bin, discard used pods, and clean as needed.

Mobile App (Optional)

- ✓ Remote control the brewer from your phone
- ✓ Schedule brews ahead of time
- ✓ Auto re-order B-Pods®
- ✓ Personalized consumption dashboard

8.2 Water Tank

Clean the water tank periodically with warm, soapy water. Rinse thoroughly to remove any soap residue before refilling with fresh, filtered water.

8.3 Descaling

Depending on water hardness, descaling may be required to remove mineral buildup. Refer to the BRUVI website or customer support for detailed descaling instructions and recommended descaling solutions.

9. TROUBLESHOOTING

Problem	Possible Cause	Solution
Brewer not turning on	Not plugged in; power outage.	Ensure the power cord is securely plugged into a working outlet. Check circuit breaker.
"Not Enough Water" message	Water tank is empty or below minimum level.	Refill the water tank with filtered water up to the "Max" line.

Problem	Possible Cause	Solution
No water dispensing during initial setup	Pump may need priming.	Refer to the quick start guide or BRUVI support for instructions on how to prime the pump, often involving a small hand pump provided.
Coffee tastes weak or watery	Incorrect brew setting; B-Pod issue; descaling needed.	Select a "Stronger" brew option. Ensure B-Pod is correctly inserted. Perform a descaling cycle if necessary.
Coffee splatters during brewing	Mug too far from dispenser.	Adjust the drip tray to bring the mug closer to the dispenser.

For further assistance, please visit the official BRUVI support website or contact customer service.

10. SPECIFICATIONS

Feature	Detail
