Galano Calidia 3 Door Sideboard Instruction Manual

Model: FG-DI-PU-19-771-GT-USA

1. INTRODUCTION

This manual provides essential information for the assembly, operation, maintenance, and troubleshooting of your Galano Calidia 3 Door Sideboard. Please read these instructions carefully before beginning assembly or use to ensure safe and proper functionality of your furniture. Keep this manual for future reference.

2. SAFETY INFORMATION

Your safety is paramount. Please observe the following guidelines:

- **Anti-Tip Brackets:** This sideboard includes anti-tip brackets. It is crucial to install these brackets as instructed to prevent the furniture from tipping over, which can cause serious injury.
- **Weight Limit:** Do not exceed the maximum weight limit of 90 pounds on the top surface. Distribute weight evenly across shelves.
- **Material Safety:** The product is made of sustainable TSCA compliant engineered wood, tested for lead content to meet safety standards.
- **Assembly:** Ensure all parts are securely fastened before use. Do not use power tools for tightening screws unless explicitly stated, as this may damage the material.
- **Placement:** Place the sideboard on a flat, stable surface. Avoid placing it in areas with high humidity or direct sunlight to prevent material damage.

Key Features:

- **Multifunctional Design:** Suitable for dining rooms, kitchens, or living areas.
- **Ample Storage:** Features three doors, each with an adjustable interior shelf, providing organized storage space.
- **Acrylic Mirror Doors:** Decorative and stylish elements that enhance the aesthetic appeal.
- **Durable Construction:** Made from engineered wood with a PU paper lamination finish.

4. ASSEMBLY INSTRUCTIONS

The Galano Calidia Sideboard is designed for straightforward assembly. A detailed assembly instruction manual is included in the packaging. Please follow the step-by-step diagrams and instructions provided in that manual. Basic tools required typically include a mallet and a screwdriver.

Ensure all components are present before starting assembly. Do not overtighten screws. If you encounter any difficulties, refer to the included manual or contact customer support.

5. OPERATING INSTRUCTIONS

Opening and Closing Doors:

Gently pull the metal handles to open the doors. Push the doors firmly to close them. Avoid slamming the doors to prevent damage to the hinges and cabinet structure.

Adjusting Shelves:

The interior shelves are adjustable. To change the shelf height, remove any items from the shelf. Locate the shelf pins on the side panels. Carefully lift the shelf and remove the pins. Reinsert the pins into the desired holes at the new height, ensuring they are level, then place the shelf back onto the pins.

6. MAINTENANCE

To maintain the appearance and longevity of your sideboard, follow these simple maintenance tips:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals, as they can damage the finish.
- **Spills:** Clean up spills immediately to prevent staining or water damage.
- **Hardware:** Periodically check and tighten all screws and fasteners to ensure stability.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading or discoloration.

7. TROUBLESHOOTING - DOOR HINGE ADJUSTMENT

If your sideboard doors are not aligning correctly, appear tilted, or have uneven gaps, you can adjust the concealed hinges. There are typically three types of adjustments:

Vertical Adjustment (Top & Bottom Gap):

If there is an uneven gap at the top or bottom of the door, or between doors vertically:

1. Loosen the screws on the mounting plate that attach the hinge to the cabinet.
2. Carefully move the door up or down to reduce the gap.
3. Once the door is in the desired vertical position, tighten the screws securely.

Horizontal Adjustment (Side-to-Side Gap):

If the door is too close or too far from the cabinet side, or if there's an uneven gap between doors horizontally:

1. Locate the screw at the back of the hinge arm (often the one closest to the door edge).
2. Turn this screw clockwise to move the door inward (closer to the cabinet) or counter-clockwise to move it outward (further from the cabinet).
3. Adjust until the gap is even, then ensure the screw is tightened.

Depth Adjustment (Door to Cabinet Gap):

If the door is not flush with the cabinet frame or has a large gap when closed:

1. Loosen the screw located at the hinge arm (often the one furthest from the door edge).
2. Push the door inward or pull it outward as needed.
3. Once the door is in the desired position, tighten the screw securely.

After making any adjustments, ensure all screws are tightened and check that all gaps are evenly spaced for optimal appearance and function.

Video: This video demonstrates how to adjust concealed hinges to correct top and bottom gaps, as well as side-to-side alignment issues, ensuring doors close properly and evenly.

Video: A guideline video detailing the process of adjusting door hinges to achieve proper alignment and eliminate uneven gaps, including lateral and vertical adjustments.

8. SPECIFICATIONS

Brand	Galano
Model Name	Galano Calidia
Item Model Number	FG-DI-PU-19-771-GT-USA
Product Dimensions	15.7"D x 45.7"W x 29.3"H
Item Weight	54.25 Pounds
Material	Engineered Wood
Finish Type	PU Paper Lamination
Color	Dusty Grey Oak
Number of Doors	3
Number of Shelves	4 (2 adjustable interior shelves)
Special Feature	Adjustable Shelf, Acrylic Mirror Door
Weight Limit	90 Pounds
Assembly Required	Yes
