SETUP

Unboxing and Placement

Carefully remove the oven and all accessories from the packaging. Place the oven on a stable, level, heat-resistant surface with adequate clearance from walls and other appliances for proper ventilation. Ensure the power cord is easily accessible.

First Use Preparation

1. Remove all packing materials, including any internal protective inserts.
2. Wash the wire rack, air fry basket, baking pan, and sheet rack with warm, soapy water. Rinse thoroughly and dry completely.
3. Before first use, it is recommended to run the oven empty on a high heat setting (e.g., Bake at 400°F for 15 minutes) to burn off any manufacturing residues. A slight odor or smoke may be present during this initial operation; this is normal.

OPERATING INSTRUCTIONS

11-in-1 Cook Modes

Your GE Profile Smart Oven offers 11 preset functions for diverse cooking needs. Simply select the desired mode using the control knob or through the connected app.
