PACKAGE CONTENTS

Ensure all items are present before proceeding with setup:

- 1 x Mytrix Gold Wireless Switch Controller
- 1 x USB C to A charging cable
- 1 x User Manual (this document)

SETUP GUIDE

1. Charging the Controller

The controller comes with a built-in 600mAh rechargeable battery. Before first use, or when the battery is low, charge the controller using the provided USB C to A cable.

1. Connect the USB-C end of the cable to the controller's charging port.
2. Connect the USB-A end of the cable to a compatible USB power source (e.g., Nintendo Switch dock, PC USB port, USB wall adapter).
3. The charging indicator lights on the controller will show charging progress. A full charge typically takes approximately 2 hours.

2. Connecting the Controller

The Mytrix Gold Wireless Switch Controller supports both wireless (Bluetooth) and wired connections across multiple platforms.

Wireless Connection (Bluetooth)

This controller is compatible with Nintendo Switch/Lite/OLED, iOS devices (iOS 13.4 and above), and Android

devices (Android 10.0 and above).

- **For Nintendo Switch/Lite/OLED:**

  a. From the HOME Menu, select **Controllers**, then **Change Grip/Order**.

  b. While the screen is displaying "Press L + R on the controller", press and hold the **Home button** on the Mytrix controller for 3-5 seconds until the indicator lights flash rapidly.

  c. Once connected, the player indicator light(s) on the controller will remain solid.

- **For iOS/Android Devices:**

  a. Enable Bluetooth on your iOS or Android device.

  b. On the Mytrix controller, press and hold the **Home button** for 3-5 seconds to enter pairing mode.

  c. Search for "Mytrix Controller" or similar in your device's Bluetooth settings and select it to pair.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the controller. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the controller in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the controller frequently. Charge it regularly, even if not in constant use.

TROUBLESHOOTING

Problem	Possible Solution
Controller does not connect wirelessly.	Ensure the controller is charged. Verify Bluetooth is enabled on your device. Follow the pairing instructions carefully (press and hold Home button). Remove previous pairings from your device's Bluetooth list and try again. Restart your console/device and the controller.

| Problem	Possible Solution
Buttons or joysticks are unresponsive.	Ensure the controller is properly connected (wired or wireless). Check battery level and charge if necessary. Restart the controller and the game/console. Test the controller on another device if possible.
Vibration is too strong/weak or absent.	Adjust the vibration intensity settings on the controller (refer to operating instructions). Ensure the game supports vibration feedback.
Headphone jack not working.	Ensure the controller is connected via wired communication to the console. Check if the headphones are properly plugged in and functional. Verify audio settings on your console/device.
