# Arkrocket Huygens High Fidelity Bluetooth Record Player User Manual

Model: AR-PH78

## 1. PRODUCT OVERVIEW

The Arkrocket Huygens High Fidelity Bluetooth Record Player (Model AR-PH78) is a versatile audio system designed for an immersive vinyl listening experience. It features built-in speakers, belt-drive mechanism, a moving magnet cartridge, and extensive connectivity options including Bluetooth input/output and Aux-in. Its retro aesthetic combines wood and metal to complement any home decor.

## 2. KEY FEATURES

- **Precise Speed Adaptation:** Supports 33 RPM and 45 RPM for compatibility with various vinyl records.
- **Professional Cartridge Configuration:** Equipped with a moving magnet (MM) cartridge and magnetic-core stylus with adjustable counterweight for reduced noise and distortion.
- **Powerful Audio Output:** Features 4 built-in 30W full-range speakers for rich, three-dimensional sound.
- **Bluetooth 5.0 Wireless Interaction:** Supports bidirectional Bluetooth for streaming music to/from the turntable.
- **Versatile Wired Interfaces:** Includes RCA output for external speakers and built-in phono/line output modes.
- **Retro Aesthetic Appearance:** Crafted from wood and metal with a unique layered design.

## 4. SETUP

Follow these steps to set up your Arkrocket Huygens Record Player for the first time.

1. **Unpacking:** Carefully remove all components from the packaging. Ensure all protective materials are removed from the turntable and tonearm.
2. **Platter Installation:** Place the platter onto the spindle.
3. **Belt Installation:** Locate the drive belt under the platter. Carefully stretch the belt around the motor pulley. Rotate the platter a few times to ensure the belt is properly seated and rotates smoothly.
4. **Felt Mat Placement:** Place the anti-slip felt mat on top of the platter.
5. **Counterweight Adjustment:** Rotate the counterweight onto the rear of the tonearm. Adjust it according to the instructions to achieve the recommended tracking force for the stylus.
6. **Stylus Protection Removal:** Gently remove the clear plastic stylus protector from the cartridge.
7. **Dust Cover Attachment:** Align and insert the dust cover buckles into the hinges at the rear of the turntable.
8. **Power Connection:** Connect the power adapter to the DC IN 12V port on the rear of the turntable and then to a power outlet.

## 5. OPERATING INSTRUCTIONS

- 1. Power On/Off:** Use the power switch on the control panel to turn the unit on or off.
- 2. Speed Selection:** Select the appropriate speed (33 RPM or 45 RPM) using the speed selector knob on the control panel, matching your vinyl record. For 45 RPM records, use the included adapter.
- 3. Tonearm Operation:**
  - Unlock the tonearm from its rest.
  - Use the cueing lever to gently lift the tonearm.
  - Position the tonearm over the desired track on the record.
  - Lower the cueing lever to gently place the stylus onto the record.
- 4. Volume Control:** Adjust the playback volume using the dedicated volume knob.
- 5. Auto-Stop Function:** The turntable features an auto-stop function that automatically stops the platter rotation when the stylus reaches the end of the record.

## 6. CONNECTIVITY

- **Bluetooth 5.0:** The turntable supports bidirectional Bluetooth. You can stream music from a Bluetooth-enabled device (e.g., smartphone, tablet) to the turntable's built-in speakers, or transmit audio from your vinyl records to external Bluetooth speakers.
- **RCA Output:** Use the RCA L/R output jacks on the rear panel to connect the turntable to an external amplifier or powered speakers for enhanced audio.
- **Phono/Line Out Switch:** Select between PHONO and LINE OUT modes based on your external audio system's requirements. Use PHONO if your amplifier has a dedicated phono input; otherwise, use LINE OUT.
- **Aux-in:** Connect external audio devices via the Aux-in port for playback through the turntable's built-in speakers.

## 7. MAINTENANCE

- **Dust Cover:** Always keep the dust cover closed when the turntable is not in use to protect it from dust and debris.

- **Stylus Care:** Gently clean the stylus regularly using a soft brush designed for stylus cleaning. Avoid touching the stylus with your fingers.
- **General Cleaning:** Wipe the turntable's surface with a soft, dry cloth. Avoid using harsh chemicals or abrasive cleaners.

## 8. TROUBLESHOOTING

- **No Power:** Ensure the power adapter is securely connected to both the turntable and a working power outlet.
- **No Sound:** Check the volume level on the turntable and any connected external speakers/amplifier. Verify the correct input mode (Phono/Line Out) is selected if using external speakers. If using Bluetooth, ensure it's properly paired.
- **Skipping:** Ensure the record is clean and free of dust or debris. Check that the turntable is on a stable, level surface. Verify the tonearm's counterweight is correctly adjusted.
- **Bluetooth Connection Issues:** Ensure the turntable is in Bluetooth pairing mode. Disable and re-enable Bluetooth on your device, then try pairing again. Keep devices within range.

## 9. SPECIFICATIONS

<b>Product Dimensions</b>	18.5 x 14.5 x 8.5 inches
<b>Item Weight</b>	17.6 pounds
<b>Item Model Number</b>	AR-PH78
<b>Brand</b>	arkrocket
<b>Maximum Rotational Speed</b>	9200 rps (Note: This is likely a motor speed, not platter speed. Platter speeds are 33/45 RPM)
<b>Special Feature</b>	Built In Speaker
<b>Material</b>	Wood
<b>Color</b>	Huygens Walnut
<b>Motor Type</b>	DC Motor
