The Sony HT-S2000 Soundbar seamlessly integrates into your home entertainment system, providing a powerful audio experience.

## 2. SETUP GUIDE

---

### 2.1 Unboxing and Initial Placement

Carefully remove the soundbar and all accessories from the packaging. Place the soundbar on a stable, flat surface directly in front of your TV, ensuring it does not obstruct the TV's remote sensor.

## Spectacular sound

- Dual built-in subwoofers
- Three front speakers including a center channel for clear dialogue

The compact design of the HT-S2000 allows for versatile placement in your entertainment area.

### 2.2 Connecting to Your TV

The HT-S2000 offers multiple connection options to integrate with your television.

#### **HDMI eARC Connection (Recommended)**

For the best audio quality and seamless control, connect your soundbar to your TV's HDMI eARC/ARC port using the provided HDMI cable. This allows for two-way communication between the TV and soundbar.

Enjoy wireless audio streaming from your personal devices via Bluetooth.

### 3.4 Expanding Your Sound System (Optional)

For an even more immersive home theater experience, the HT-S2000 is compatible with optional wireless subwoofers (SA-SW3 or SA-SW5) and rear speakers (SA-RS3S), sold separately. These additions provide deeper bass and true surround sound.

Optional wireless speakers and subwoofers can be added to create a full surround sound setup.

## 4. MAINTENANCE

To ensure optimal performance and longevity of your Sony HT-S2000 soundbar, follow these simple maintenance

guidelines:

- Keep the soundbar clean by gently wiping its surfaces with a soft, dry cloth. Avoid using abrasive cleaners or solvents.
- Ensure proper ventilation around the unit to prevent overheating. Do not block any ventilation openings.
- Protect the soundbar from direct sunlight, extreme temperatures, and high humidity.

## 5. TROUBLESHOOTING

---

If you encounter any issues with your Sony HT-S2000 soundbar, refer to the following common troubleshooting tips:

- **No Sound:** Check all cable connections (HDMI, optical). Ensure the correct input source is selected on the soundbar and your TV. Verify TV audio output settings are configured for the soundbar.
- **Poor Sound Quality:** Adjust sound field settings via the remote or app. Ensure the soundbar is placed on a stable surface to prevent vibrations affecting bass.
- **Remote Control Not Working:** Check battery levels. Ensure there are no obstructions between the remote and the soundbar's IR sensor.
- **Bluetooth Pairing Issues:** Ensure the soundbar is in Bluetooth pairing mode. Delete the soundbar from your device's Bluetooth list and try pairing again.
- **Sound Delay/Lip Sync Issues:** Adjust A/V Sync settings in the soundbar's menu (if available) or your TV's audio settings.
