FEELNEEDY FEELNEEDY-Filter-6-Pack

FEELNEEDY Cat Water Fountain Filter & Pump Sponges Replacement Manual

Compatible Models: YPD-C004P, YPD-C004S

1. INTRODUCTION

This manual provides essential information for the proper use and maintenance of your FEELNEEDY Cat Water Fountain Filter and Pump Sponges. Regular replacement of these components is crucial to ensure your pet always has access to clean, fresh drinking water, promoting their health and well-being.

2. PRODUCT OVERVIEW & WHAT'S INCLUDED

The FEELNEEDY replacement pack includes all necessary filtration components to maintain optimal water quality in your compatible pet fountain.

- 6 x Replacement Filters
- 6 x Replacement Pump Filter Sponges

4. FILTER SYSTEM DETAILS

The FEELNEEDY filter system employs a multi-layer approach to ensure comprehensive water purification:

- **Primary Sponge:** Filters hair and larger debris.
- **Filter Cotton (Non-woven Fabric):** Filters particulate dust and microparticles in the air.
- **Activated Carbon (Coconut Shell):** Removes residual chlorine, odors, and foreign matter.
- **Ion Exchange Resin:** Effectively softens hard water and protects against contamination by limescale, removing heavy metal ions.
- **Additional Filter Cotton:** Provides further filtration of particulate dust.

5 Layers of Antibiosis Filter

replace filter every 2-4 weeks

This comprehensive filtration ensures every sip your pet takes is clean and fresh.

5. SETUP & INSTALLATION

Follow these steps to prepare and install your new filter and pump sponge:

1. **Prepare the Filter:** Before first use, soak the new filter in clean water for 3-5 minutes. This helps to remove any loose activated carbon powder and ensures optimal performance.
2. **Rinse Thoroughly:** After soaking, thoroughly rinse the filter under running water.
3. **Install Filter:** Place the prepared filter into the designated filter tray of your FEELNEEDY pet fountain. Ensure it is seated correctly.
4. **Install Pump Sponge:** Insert the pump filter sponge into the pump housing. This protects the pump from debris.
5. **Assemble Fountain:** Reassemble your pet fountain according to its specific instructions, ensuring all

components are securely in place.

How to Clean Filter

Step1

Soak the filter for 3-5 minutes

Step2

Rinse the filter

Image: Steps for preparing the filter before installation.

6. MAINTENANCE

Regular maintenance is key to extending the life of your fountain and ensuring continuous clean water for your pet.

Filter Replacement Frequency

It is recommended to replace the filter every **2 to 4 weeks**, depending on the number of pets using the fountain and the hardness of your tap water. Frequent replacement ensures optimal filtration performance.

Pump Sponge Maintenance

The pump filter sponge should be cleaned regularly, ideally during each fountain cleaning, and replaced along with the main filter to prevent debris from entering and damaging the pump.

7. OPERATING THE FOUNTAIN (CONTEXT FOR FILTERS)

While this manual focuses on filters, understanding the fountain's operation provides context for filter function. The FEELNEEDY fountain offers various modes and features designed for convenience and pet health.

Video: An overview of the FEELNEEDY 4L Wireless Pet Fountain, demonstrating its features such as sensor mode, intermittent mode, 5-layer filtration, 4L water capacity, low water level alert, and quiet operation. This video provides visual context for where the filters are installed and how they contribute to the fountain's overall function.

Key features demonstrated in the video that relate to filter performance include:

- **5-Layer Circulating Filtration System:** Ensures continuous purification of water.
- **4L Water Capacity:** Provides ample water, reducing the frequency of refills and ensuring the filter has enough water to process.
- **Visible Window & Low Water Level Alert:** Helps you monitor water levels, ensuring the pump is always submerged and the filter is functioning correctly.

8. TROUBLESHOOTING (FILTER RELATED)

If you experience issues with water quality or flow, consider the following:

- **Reduced Water Flow:** Check if the filter is clogged with debris or pet hair. Replace the filter if necessary.
- **Unpleasant Odor/Taste:** This indicates the activated carbon in the filter is saturated. Replace the filter immediately.
- **Cloudy Water:** The filter may be past its effective lifespan or improperly installed. Ensure proper installation and replace the filter.
- **Pump Noise:** Ensure the pump sponge is clean and properly installed. A dirty sponge can restrict water flow to the pump, causing it to work harder and make noise.

9. SPECIFICATIONS

Feature	Detail
Product Name	Cat Water Fountain Filter & Pump Sponges Replacement
Brand	FEELNEEDY
Compatible Models	YPD-C004P, YPD-C004S (YPD-C004 series)
Quantity	6 Filters, 6 Pump Sponges
Filter & Sponge Size	12.2cm x 8.5cm x 1.1cm
Materials	PP cotton, non-woven fabric, coconut shell activated carbon, ion exchange resin, polyurethane
Item Weight (per pack)	0.353 ounces (10 Grams)

10. WARRANTY & SUPPORT

FEELNEEDY products come with a **1-Year Warranty** from the date of purchase, covering manufacturing

defects.
