## NANOLEAF 0212

# NANOLEAF Women's Watch Model 0212 Instruction Manual

Model: 0212

## INTRODUCTION

This manual provides instructions for the NANOLEAF Women's Watch Model 0212. This timepiece features a precise Japanese quartz movement, a durable stainless steel construction, and a minimalist design. It is designed for daily wear and offers 30-meter water resistance.

## PRODUCT FEATURES

- **Precise Japanese Quartz Movement:** Ensures accurate and reliable timekeeping.
- **Durable Stainless Steel Construction:** Provides longevity and a comfortable wearing experience with a polished finish.
- **HD Mineral Glass:** A key anti-scratch watch surface that is hard and resistant to pressure.
- **Luminous Pointers:** Watch hands feature a luminous coating for visibility in low-light conditions.
- **30M Water Resistance:** Suitable for splashes or brief immersion in water, but not for swimming or bathing.
- **Hidden Clasp:** Provides a secure and sleek closure for the stainless steel strap.

## SETUP

### Setting the Time

1. Gently pull the crown (the small knob on the side of the watch) outwards to the first position.
2. Rotate the crown to adjust the hour and minute hands to the correct time.
3. Once the time is set, push the crown back into its original position to start the watch movement.

### Adjusting the Watch Band

The stainless steel band is designed for a secure fit. If adjustment is needed (e.g., removing links to shorten the band), it is recommended to seek assistance from a professional watch repair service to prevent damage to the band or clasp.

## OPERATING

### Timekeeping

The watch operates using a Japanese quartz movement, providing accurate and reliable time with minimal maintenance.

### Luminous Function

The watch hands feature a luminous coating. After exposure to sufficient light, these pointers will glow in dark conditions, allowing for easy time readability.

### Water Resistance

This watch is rated for 30 meters (3 ATM) of water resistance. This means it can withstand splashes, rain, or brief immersion in water. It is **not suitable** for showering, swimming, diving, or any activities involving prolonged water exposure or high-pressure water. Always ensure the crown is fully pushed in before any contact with water.

## MAINTENANCE

### Cleaning

- Wipe the watch case and strap regularly with a soft, dry cloth to remove dust and dirt.
- For the stainless steel band, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals or abrasive materials.

### Battery Replacement

The watch is powered by a Lithium Ion battery. When the watch stops running, the battery may need replacement. It is recommended to have the battery replaced by a qualified watch technician to ensure proper sealing and maintain water resistance.

### Water Resistance Care

- Avoid exposing the watch to extreme temperature changes, such as moving from a hot shower to a cold environment, as this can compromise the water seals.
- Do not operate the crown or push buttons (if any) while the watch is wet or submerged in water.

### STAINLESS STEEL STRAP

SEIKO CRAFTSMANSHIP FEELS COMFORTABLE

### MINERAL STRENGTHENED GLASS

NOT AFRAID OF SCRATCHES, CLEAR AND TRANSPARENT

LOVE GOES WITHOUT SAYING, JOIN HANDS IN ONE HEART

OUR HAPPINESS IS TO LIVE A LIFETIME WARMLY

## TROUBLESHOOTING

### • Watch Not Running:

- Check if the crown is fully pushed in. If it is pulled out, the watch will not run.
- The battery may be depleted. Refer to the "Battery Replacement" section under Maintenance.

### • Inaccurate Time:

- Ensure the time was set correctly.
- A low battery can sometimes affect time accuracy.

### • Band Discomfort or Damage:

- If the band feels too tight or too loose, consider professional adjustment.
- For any damage to the band or clasp, contact customer support or a professional watch repair service.

### • Water Inside the Watch:

- If condensation or water droplets appear inside the watch, immediately seek professional service. This indicates a breach in the water resistance.

## SPECIFICATIONS

Package Dimensions	5.83 x 2.64 x 1.26 inches
--------------------	---------------------------

<b>Item Weight</b>	3.84 ounces
<b>Model Number</b>	0212
<b>Department</b>	Women's
