## SAFETY INFORMATION

---

### WARNING:

- Properly assemble the bed frame to ensure stability.
- Do not exceed the maximum weight capacity of 400 lbs.
- Be cautious of potential sharp surfaces or splinters from the pine wood during assembly and use.
- Keep small parts away from children during assembly to prevent choking hazards.

## SETUP AND ASSEMBLY

---

Assembly of the Bellemave Twin Size Daybed is required. The product is shipped in two packages. Ensure all components are present before beginning assembly. A slat kit is included, eliminating the need for a box spring.

## Package Contents

Verify that all parts listed in your included hardware and parts list are present. If any parts are missing or damaged, do not proceed with assembly. Contact customer support for assistance.

## Assembly Steps

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a clean, soft surface to prevent scratches.
2. **Assemble Frame:** Follow the detailed diagrams in your separate assembly instruction sheet to connect the main frame components, including the headboard and side rails. Ensure all bolts are securely tightened.
3. **Install Slats:** Place the wooden slats across the bed frame. Secure them according to the instructions to provide stable mattress support. The slats are designed to support a twin-size mattress directly, without a box spring.
4. **Assemble and Insert Drawers:** Assemble the two storage drawers as per the instructions. Once assembled, slide them into the designated spaces beneath the daybed frame.

## OPERATING INSTRUCTIONS

## Using the Storage Drawers

The daybed features two integrated storage drawers designed for convenient access. To use the drawers:

1. Gently pull the drawer handle to open.
2. Place items inside, ensuring not to overload the drawer.
3. Push the drawer back into the frame until it is fully closed and flush with the daybed front.

Avoid forcing the drawers if they encounter resistance. Check for obstructions if a drawer does not slide smoothly.

## MAINTENANCE

---

### Cleaning the Upholstery

The upholstered fabric of the daybed requires specific care:

- **Dry Clean Only:** For best results and to prevent damage to the fabric, professional dry cleaning is recommended for any significant stains or overall cleaning.
- **Spot Cleaning:** For minor spills, blot immediately with a clean, dry cloth. Do not rub. For tougher spots, use a mild, water-free solvent or dry-cleaning product. Always test on an inconspicuous area first.
- **Regular Care:** Vacuum the upholstery regularly using an upholstery attachment to remove dust and debris.

### Frame Care

- Periodically check all bolts and screws to ensure they remain tight. Retighten as necessary to maintain stability.
- Wipe wooden surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.

## TROUBLESHOOTING

*Solution:* Check all frame connections and tighten any loose bolts. Ensure slats are properly seated and not rubbing against the frame.
- **Drawers Not Sliding Smoothly:**
