SETUP AND ASSEMBLY INSTRUCTIONS

Step 2: Assemble the Main Frame

Attach the side rails to the headboard and footboard using the provided bolts and Allen wrench. Ensure all connections are snug but do not overtighten until all parts are aligned.

Step 3: Install Wood Slats

Place the wood slats across the support beams on the side rails. Secure each slat according to the instructions, typically by screwing them into place or using pre-drilled holes. This forms the mattress support.

OPERATING INSTRUCTIONS

Using the Storage Drawers

The daybed includes two integrated storage drawers. To open, gently pull the drawer front outwards. To close, push the drawer inwards until it is flush with the daybed frame. Avoid forcing the drawers if they encounter resistance; check for obstructions.

MAINTENANCE

- **Cleaning the Upholstery:** The fabric upholstery requires dry cleaning only. Do not use liquid cleaners or abrasive materials, as this may damage the velvet fabric. For minor spills, blot immediately with a clean, dry cloth.
- **Frame Care:** Wipe the wooden frame components with a soft, damp cloth. Avoid harsh chemicals.
- **Hardware Check:** Periodically inspect all bolts and screws to ensure they remain tight. Re-tighten as needed to maintain stability and safety.
- **Drawer Maintenance:** Keep the drawer tracks free of dust and debris to ensure smooth operation.
