SETUP

1. **Unpack:** Carefully remove all utensils and the tool seat from their packaging.
2. **Initial Cleaning:** Before first use, wash all utensils and the tool seat thoroughly with warm soapy water. Rinse completely and dry.
3. **Storage:** Place the cleaned utensils into the provided tool seat for organized storage on your countertop, or hang them using the integrated hanging holes.

OPERATING INSTRUCTIONS

These NutriChef nylon utensils are designed for various cooking tasks and are safe for use with non-stick cookware.

- **Solid Spatula:** Ideal for flipping, turning, and lifting foods such as eggs, pancakes, and burgers. Its flexible yet sturdy design helps prevent scratching delicate surfaces.

- **Pasta Fork:** Designed to efficiently lift and serve pasta, noodles, and spaghetti. The tines help drain excess water.
- **Solid Spoon:** Suitable for stirring, serving, and scooping a variety of dishes, from sauces to stews.
- **Slotted Spoon:** Perfect for lifting foods out of liquids, such as vegetables from boiling water or fried items from oil, allowing liquids to drain through the slots.

Heat Resistance: These utensils are heat-resistant, capable of withstanding temperatures from -86°F (-30°C) up to 392°F (200°C). Avoid prolonged exposure to direct high heat sources like open flames.

Solid Spatula

Pasta Fork

Slotted Spoon

Solid Spoon

Proper care will extend the life of your NutriChef utensils.

- **Cleaning:** Hand washing is recommended for best results and to prolong the product's lifespan. Use warm water and a mild dishwashing liquid. Rinse thoroughly and dry immediately.
- **Dishwasher Compatibility:** While some components may tolerate dishwasher cleaning, the manufacturer recommends hand washing. If using a dishwasher, place utensils on the top rack and avoid harsh detergents.
- **Storage:** Store utensils in the provided tool seat or hang them to prevent damage and keep them organized.

TROUBLESHOOTING

If you encounter any issues with your utensil set, consider the following:

- **Stains or Residue:** For stubborn food residue, soak the utensil in warm soapy water for a few minutes before scrubbing gently with a non-abrasive sponge.

- **Warping/Melting:** Ensure utensils are not left unattended on hot surfaces or in direct contact with extreme heat sources for extended periods, as this can cause damage despite their heat resistance.
- **Damage to Cookware:** These nylon utensils are designed to be gentle on non-stick surfaces. If you notice any scratching, ensure the utensil is clean and free of abrasive particles before use.

SPECIFICATIONS

Feature	Detail
Model Number	NCWSTKBLKUTENS
Construction Material	Nylon
Color	Black
Heat Resistance	-86°F to 392°F (-30°C to 200°C)
